Construction Work On New Indiana Bridge To Start Soon

Allocation of \$143,000 To Complete Planning Approved By Commission.

The way was cleared last week by the Indiana State Budget Committee for an early start on construction of a \$6 million toll bridge across the Ohio River at Lawrenceburg, Ind.

The proposed span would connect Lawrenceburg with Boone County near Petersburg, 10 miles from the Greater Cincinnati Airport.

At the committee meeting an allocation of \$143,000 to complete planning and get the project way was approved.

The \$143,000 will be repaid to the state from toll receipts after the bridge is built. Toll receipts also will retire revenue bonds which the Toll Bridge Commission will issue to finance construction.

The Toll Bridge Commission indicated it might solve a hassle involving two competing bidders on the Lawrenceburg bridge by advertising for new bids.

Traylor Brothers, Inc., Evansville, Ind., submitted the only combined bid on the substructure and toll house, it was announced. The firm's bid was \$32,000 higher than the \$1,698,000 bid of Bates & Rogers Construction Co., Chicago, but the Chicago firm bid only on the substructure and not on the toll house.

The complaining witness, a Cincinnati Negro girl, who said she was 19 when the alleged offense occurred, testified that she celebrated her 20th birthday on Christmas Day.

The girl stated that she went unescorted to the Cotton Club, Sixth and Mound Sts., Cincinnati, on the night of December 19, and that when she left the club at about 2 a. m. Morris, who posed as a cab driver, was engaged to take her home. Instead, he took her to Boone County on U. S. 42, at South Fork, near the Gallatin County line, and attacked her, she said.

The girl testified that Morris put her out of the car and took her until 1 p. m. to walk the 20 miles to Cincinnati.

Morris was arrested after the girl identified him from photographs in Cincinnati police files. He denied having been in Kentucky for more than five weeks prior to December 20.

The youth loaded the gun for Mrs. Oder, and she took it to the porch and fired it. She asked him to reload it, and then took the gun to the bedroom.

With its greatly reduced piston travel, lessened friction and other advanced design features, this engine develops ample reserve power with new economy of gas and oil. But it would take a full hour to tell you of all the features and advantages of this new engine—let alone the rest of the tractor.

Most important of all, Ford's Golden Jubilee Model is waiting to show you what it can do—what this great combination of modern advancements and every time-proved Ford Tractor advantage means in more and better work, done more easily and more profitably.

Please don't keep it waiting long! Come in and get all the good news, firsthand. Why not make it today?

History of The Florence Baptist Church

By Mrs. Blanche Beemon

The Florence Baptist Church was organized some say, about 1844. The congregation at that time consisted of just a mere handful of devout men and women. The members worked continuously for many months and upon application in April, 1855, of dismission from the Dry Creek Baptist Church were granted to Benjamin Dulaney, Leonard Stephens, D. M. Scott, Henry T. Snyder, Sally Snyder, Polly Scott, and Louisiana Finch for the purpose of constituting a church at Florence, Boone County, Ky.

Milton Wilhoit and Harriet Wilhoit, his wife, sold to D. M. Scott, Henry T. Snyder, and Benjamin Dulaney, trustees of the Baptist Church at Florence, a tract of land extending 131 feet on the east side of the Covington and Lexington Turnpike for the sum of \$450.00. The deed was signed by the Wilhoits on December 17, 1855 and filed in the office of I. G. Hamilton, Clerk of Boone County, on January 3, 1856.

In the minutes of the North Bend Association of Baptists for 1855 the following record appears on page four: "On application, the church at Florence was received into union with this association and the names of the messengers, Leonard Stephens and D. M. Scott, enrolled." The

statistical tables of the minutes show that there were eleven members at this time.

A small church building was erected on the lot. No records were preserved from 1855 to 1900; but some facts about the early years of the church have been obtained from old associational records and minutes.

The membership increased slowly over a period of twenty-five years. In 1880 the church had only forty-eight members. In 1890 a maximum of ninety was reached, then the number gradually diminished for several years. For six years only the four members who came from the Dry Creek Church, Messrs. Stephens, Scott, Snyder, and Dulaney, represented the church at the associational meetings.

Other names appearing as messengers from 1861 to 1895 were P. Woodward, Wm. Clutterbuck, W. T. Brown, J. L. Bristow, Wm. Meeks, B. F. Bristow, A. Wellman, H. Taylor, H. Buckner, L. L. Bristow, J. S. Kirtley, W. H. Corbin, T. S. Potts, Philip Senour, James H. Senour, Alonzo Vaughn, Elbert Senour, R. W. Kirtley, Thomas Corbin, C. H. Green, A. A. Williamson, Leonard Childress, Ed Corbin, M. Wilhoit, Wm. Johnson, Webb Smith, and Thomas Portwood.

A Sunday School was organized in 1880 and two years later had an average attendance of twenty-three. In 1884 they had no Sunday School but it was reorganized in 1885 and had an enrollment of sixty-five, an average attendance of thirty-five, and W. T. Brown was the superintendent. He was succeeded the next year by P. T. Senour and he (in 1887-88) by B. A. Dulaney. The attendance grew smaller and the school must have been discontinued after 1888. C. E. Wren was pastor in 1886, C. H. Green in 1887, and T. L. Utz in 1891. Thomas Portwood was church clerk in 1894-95.

W. N. Long says that when he came to Florence in 1898 the church was closed and remained closed through 1899 but for one occasion, the wedding of Dr. Moffett and Rue Dulaney.

In January, 1900, the Rev. S. M. Adams, of Walton, and Dr. B. F. Swindler, of Covington, held a revival meeting and there were several additions by letter and one by baptism. They began having Sunday School again. Dr. Swindler and Rev. Adams held services one night a month for several months, then Rev. W. E. Hutton was called as a pastor. He served one year at a salary of five dollars per month. Many members were added to the church during his ministry. In 1902 Rev. S. M. Adams was pastor, he took Rev. S. Taylor. About 1903 a janitor was secured for seventy-five cents a month. He was to furnish coal oil and make fires. Rev. T. J. Markberry was a supply pastor for a while, then Rev. A. Logan Vickers came in 1907.

In 1908 Rev. Vickers assisted by Rev. C. W. Argabrite, state evangelist, held a two weeks meeting. At its close on February 13 the members were called together for the purpose of calling a pastor and if possible getting the church in better working order. Rev. G. W. Argabrite was moderator and B. A. Dulaney was clerk of this very important meeting.

The following was adopted as a basis for the reorganization and membership of the church: Where as our church has been for a number of years in a cold and indifferent spirit, unbecoming the character and life of a church of Jesus Christ, and we do now heartily repent of our sin and earnestly seek to begin anew the work that is ours as God's children and His church; and since it is desirable to have all those whose names appear upon the record of our membership share with each other in this purpose to serve the Lord; Be It Resolved: That the membership of the church, as relates to those whose names now appear upon the roll, shall be composed of all those, and only those, who shall sign the covenant and agreement herewith; and they shall constitute the church, with all the privileges and powers as members thereof.

Covenant and Agreement—As we trust we have been led of God's Holy Spirit to sincerely deplore the state of affairs existing in the church; and so far as we are concerned, to heartily repent of any course on our part that has brought it about; we, whose names are here, to annex, covenant together to earnestly seek the Lord in prayer, ask forgiveness of Him and of each other; be reconciled to each other if aught has come between us; make reparation as far as possible for any wrong committed against any brother or sister or any of our fellow beings; and will strive together to maintain the services of the Lord's house, and to the best of our ability engage in His work as He shall give us strength; and that we will seek to walk as those who are born of His Spirit to the honor and glory of our Lord Jesus Christ.

Motion was made and carried to call Rev. C. E. Baker as pastor for one Sunday in each month and for two Sundays in a month if the money could be secured. Rev. Baker, being present, accepted the call. The moderator then called for subscriptions for the pastor's salary which resulted in \$6.00 per month being subscribed.

Another business meeting was

called on February 22 and then it was reported that \$12.00 per month had been subscribed toward the pastor's salary which meant that two services a month could be secured if the District Board would appropriate the same amount.

So services began in the little Baptist church the second Sunday in March, 1908, with Rev. Baker receiving \$24.00 per month for his services. B. A. Dulaney resigned as clerk and J. D. Mitchell was elected.

These persons signed the covenant: Mrs. E. F. Dulaney, B. A. Dulaney, Miss Add Corbin, Miss Kate Corbin, Mrs. Kate Brown, Miss Belle Long, Mrs. Mary Sydnor, Mrs. E. G. Whitson, W. N. Long, J. S. Lohline, Mrs. Mary Meeks, E. Corbin, Miss Ida Cline, Miss Marcia Corbin, Miss Viola Corbin, Mrs. Betty Dringenberger, Miss Beryl Boyer, J. D. Mitchell, Mrs. C. W. Meyers, Miss Ethel Marquis, Mrs. Mary Slayback, M. C. Stephens, Mrs. Lula Stephens, Miss Sally Snyder, Mrs. Junetta Rice, Mrs. J. H. Ryle, and Mrs. Blanche Bagby. Later it was voted to have the covenant read four times a year.

In March, all offices excepting clerk having been declared vacant, the new church elected officers. W. N. Long was selected for treasurer, assistant Sunday School superintendent and trustee. J. D. Mitchell, already clerk, was elected superintendent and a trustee. M. C. Stephens was selected for secretary and treasurer of the Sunday School and a trustee. In the following months these three also served on numerous committees, missions, repairs, and incidents, expenses to be \$278.30, and a balance on hand of \$25.18.

In October, 1909, Rev. Baker resigned as deacon and A. S. Lucas and J. D. Mitchell were selected. In 1911 John Roberts became the third deacon. Lily Bradford was elected organist. Rev. Baker resigned in February, 1912, having served the church four years. He was succeeded by Rev. C. E. Brown. The church (Continued Next Week)

Farmers In Northern Kentucky Now Own Their Credit Co-Op.

Ten Millions Dollars In Loans Made Since Organization.

It was in February, 1934, when farmers in Grant, Boone, Campbell, Carroll, Gallatin, Kenton, Owen and Pendleton counties met in Independence, to organize a credit co-operative through which they could obtain loans to finance crop and livestock production on their farms. It was high time for farmers to seek dependable credit as they were unable to get loans they needed on the type of loan to fit their need. Seven directors were elected and The Northern Kentucky Production Credit Association was duly chartered as an Agricultural Credit Co-operative under the provisions of the Farm Credit Act of 1933.

In providing for a nationwide system of these Credit Cooperatives, the Congress had made available funds to help capitalize their Association until farmers could build up their own investment in them to the point where the Government capital was no longer needed.

This was accomplished in the Northern Kentucky Association on December 31, 1932. Now the members own all the capital stock, which is \$117,785, as of November 30. None of the government provided capital was loaned but used as investment capital. It has all been returned without one cent loss to the government.

Since organization, the association has made loans totaling close to ten million dollars with losses totaling only four one-thousandths of one percent. The reserves and capital now owned by the members total \$204,248 as of November 30.

The present board of directors are A. Threlkeld, president, Grant County; W. H. Parker, vice president, Carroll County; Roscoe Jump, Grant County; F. G. Marquette, Pendleton County, and Charles L. Hemphill, Boone County. Secretary-Treasurer and manager is Russell H. Lawrence of Williamstown, Ky.

The association maintains its central office in Williamstown with field offices in Owenton, Burlington and Falmouth; also contact points in the other counties.

Boone County Breeders Using Meritorious Sires

Nine Bulls Used By Service Received Awards Of Merit.

Northern Kentucky Proved Sire Service announced today that nine of the bulls used in their artificial insemination service received awards of Merit for Meritorious Dairy Sires from the Indiana State Dairy Association at its 63rd annual meeting held recently at Purdue University.

The Indiana State Dairy Association presents gold, silver, and bronze medals with gold being the highest and most sought after by dairymen. The awards are based on the records of the daughters of the sires. In order to qualify for a gold medal, a sire must have at least six daughters, out of 5 different dams, which have completed a year's production record of not more than 305 consecutive days and produced at least 500 pounds of butterfat, 2x milking on a mature equivalent basis; silver medal is 400 lbs. and bronze is 300 lbs. butterfat. That few bulls win these awards is proved by the fact that only 26 bulls in the entire State were so honored this year.

Northern Kentucky Proved Sire Service listed the following American Breeders Service proved sires used by their organization as gold medal winners: Buckstead Clinton Korndyke John, R. H. daughters av. 725 lbs. butterfat; Winterthur Pobes Posch Yeoman, R. H. daughters av. 653 lbs. butterfat; Pabst Roamer Pondell, R. H. daughters av. 553 lbs. butterfat; Wonderfull Star Luke, R. J. daughters av. 567 lbs. butterfat; Thomas Royal Basil X Sol, R. J. daughters av. 546 lbs. butterfat; High Meadow Hercules, R. B. daughters av. 623 lbs. butterfat. Also, Golden Grange Vigo, R. G. daughters av. 520 lbs. butterfat; Basil X Palatine, R. J. daughters av. 581 lbs. butterfat were awarded silver medals.

Eighteen of the twenty-four proved bulls now in use at the American Breeders Service stud at Carmel, received recognition as Meritorious Sires by the Indiana State Dairy Association, making a total of 45 in 6 years. The American Breeders Service Stud at Carmel will breed approximately 130,000 cows through 54 Indiana county artificial breeding associations. The six ABS studs combined will breed over 600,000 cows in 24 states.

Thirty-Seven Pints Of Blood Collected From Walton Visit

Thirty-Five of Donors Listed As "Repeaters," According To Report.

The Boone County Chapter, American Red Cross extends thanks to all those who participated in any way when the Bloodmobile made a visit to Walton just before Christmas. Thirty-seven pints of blood were taken and it is interesting to note that of this number 35 were "repeaters," people who had given when the Bloodmobile visited Walton and Boone County on other dates. These and the other 12 new donors realized the great need for their blood and gave the greatest gift mankind can give to another, the gift of life.

Henry H. Fowler, Director of Office of Defense Mobilization says "Not all our organization genius and industrial skill can produce one weapon essential to our national defense—human blood. Blood cannot be mined, manufactured or fabri-

cated. It must come from the veins of healthy men and women."

Right now blood is saving lives at the front in Korea, and in hospitals far behind the combat areas. That's why your blood donation is needed now. And when you give it, this you can be sure of: Wherever it goes... this priceless, painless gift will some day save an American life.

Nothing would suit the Communists better than this blood from America would stop coming. Then American servicemen would die, when wounded, instead of being given renewed life by this saving blood from people back home who care. Don't make the Communists happy. Remember the boys who are fighting for you and for all the world don't want to fight, but they are fighting because they are patriotic American citizens and the way we can back them up is to give them blood.

Watch the television program "See It Now" each Sunday night on Channel 7, WCPO at 6:30 p. m. and you will realize what a great sacrifice the boys overseas are making. The greatest thing we can do for them is too small in comparison to the great sacrifice they are making for us.

Don't let these servicemen overseas and in veteran's hospitals down. Give your blood when the Blood-

mobile returns to Boone County again.

New Stamp Issued

The United States Government has issued a new stamp honoring the International Red Cross, and Mrs. Alan Gaines, Chapter Chairman of the Boone County Chapter, American Red Cross has been selected to receive the stamp in Boone County on its first day of issue with the following citation:

"Dear Mrs. Gaines—In recognition of the world-wide significance of the International Red Cross, the United States Government has issued today a special postage stamp honoring this great humanitarian movement. Because of your leadership in the American Red Cross—an integral part of the international organization that now embraces societies in 71 nations—it is my pleasure to send you this first day cover of the new stamp.

"As the design signifies, the Red Cross is indeed a symbol of hope and compassion in a troubled world. Under this symbol let us continue our efforts to make common-cause with all men and women whose willing hands and warm hearts are dedicated to the service of humanity.

"Signed, E. Roland Harrisman, President, American National Red Cross, Washington, D. C."

THE BOONE COUNTY RECORDER

ESTABLISHED 1875

VOLUME 77

BURLINGTON, KENTUCKY THURSDAY, JANUARY 15, 1953

NUMBER 25

Florence Woman Named Chairman Of Polio Campaign

More Volunteers Needed In War On Polio, Says Chairman.

The appointment of volunteer community leaders who have accepted chairmanships or committee posts in the month-long 1953 March of Dimes, which opened January 2 was announced today by Mrs. Geo. Morith, County campaign director.

Facing the consequences of the worst polio epidemic in the nation's history, this year's volunteer force is the largest ever enlisted, the director asserted.

"What happened to the nation last summer and fall," she said, "was more than a violent upsurge of polio incidence. It was a national calamity that wiped out all previous standards of comparison."

"For months and years to come, thousands of men, women and children will require all the skills that money and modern knowledge can muster to help restore them to useful lives. Add to this the total of those stricken in other years and it becomes apparent what an enormous financial burden is now carried by the National Foundation for Infantile Paralysis."

Mrs. Morith announced the following precinct chairmen:

Walton—Chas. Worthington and Mrs. Sturgeon.

Burlington—A. D. Yelton.

Verona—Mrs. Hayden.

Principals of the various high schools will assist in the various sections of the county, Mrs. Morith stated.

In making the announcement, the director emphasized that all commitments still are in need of volunteers, both men and women, and that enlistments will continue even during the campaign if necessary.

This, she said, is due to the unparalleled need of carrying the March of Dimes appeal to every business, organization and individual in the county.

A "Mothers' March" is planned for Walton and Florence January 29th, Mrs. Morith stated.

MEYERS OPEN NEW PHOTOGRAPHIC STUDIO

Mr. and Mrs. Elmer Meyer have opened a photographic studio at 35 West Pike St., Covington. They will make a specialty of small photos—for identification purposes, etc., and of babies. They are offering a very low price in their initial advertisement in The Recorder. "All work is guaranteed," the management states.

Rev. Sam Hill, Jr., and Albert Weaver, were the Saturday evening dinner guests of Mr. and Mrs. Noel Walton and family and Rev. Hill was the Sunday guest of Mr. and Mrs. Frank Tanner and family.

Boone Farmers Urged To Place Fertilizer Orders

Critical Losses In Fertilizer Production Threatened.

Boone County farmers were advised to take immediate action if they want to be sure of having on hand the fertilizer they will need for 1953 planting operations.

"Critical losses in fertilizer production are threatened due to the slow movement of plant food from factory to farms thus far this year," reports the Middle West Soil Improvement Committee. "Overcrowded storage facilities are causing bottlenecks at factories."

"Already the output of essential materials used in fertilizer manufacture has been cut back. Reductions are reported in superphosphate schedules and in the production of sulfuric acid, a commodity that was critically low last year. Potash storages are filling up back to the mines."

"Losses in fertilizer production cannot be recovered later, for during the spring busy season, plants are running 24 hours a day."

"Farmers cannot afford to gamble again with the weather, as they did last year. Then a serious shortage of plant food was averted by a rainy spring season which delayed corn planting several weeks. That enabled factories to catch up on production."

"By taking delivery now farmers will have the choice of the kinds and amounts of fertilizer they want, in prime condition. Shortages during the rush period may cause some farmers to get no plant food at all, or to take whatever is available."

New Haven Tigers Chalk Up First Victory of Season

Florence Take Measure Of Crittenden; Walton Bearcats Trim Hebron.

Coach Norman "Red" Perkins and his New Haven Tigers had plenty to rejoice over in basketball last week-end as the Red and Black won their first game of the season, after ten consecutive setbacks, by defeating the Dry Ridge Bulldogs by a 34-61 score at the winner's court.

Florence's Knights, rebounding after taking a beating at the hands of Hebron in the recent county tourney, added two games to their win column, the past week-end. They won over Silver Grove, of the Northern Kentucky Conference 86-71 and trimmed Crittenden 85-63. The two wins moved Florence into second place in the "all games" standing in the county.

Cats Over Cards

Hebron's Cardinals, recent winners of the Boone School News tournament and generally considered the top quint of the county took second best in a game with Walton's Bearcats last Friday night at Walton. The score was 75 to 65. The Cards, playing the entire first half and three minutes of the third quarter without their high scoring center, John Crigler, were never able to match the inspired Bearcats. Crigler, injured in practice early last week, tallied ten points during his sojourn but wasn't able to control the boards in his usual manner. Walton, playing one of its top games of the season, was paced by Billy Smith who tallied 30 points and cleared the boards at both ends of the court.

Eagles Lose

Burlington's Eagles, playing a listless game, dropped a 56-48 decision to the Holy Cross Indians Saturday night at the winner's floor. The loss dropped the Eagles to third spot in the over-all standings of Boone teams.

Covington Woman Injured In Accident On Burlington Pike

Saturday Night; Left Elbow Fractured, According To Reports.

Mrs. Lillian Haley, sister of Luther Smith, Burlington grocer, suffered a left elbow fracture Saturday night when an automobile in which she was riding with her husband collided with another vehicle on the Burlington Pike, about two miles from Florence.

Chester Henderson, state trooper, who assisted Sheriff Easton in investigating the accident, said Haley told him the manure spreader was veering from side to side behind the truck and that when he attempted to pass, it crashed against his automobile.

When arraigned in Judge C. L. Cropper's Court Wednesday afternoon, Fox was fined \$104.50 and his driving rights revoked for a period of six months. He was charged with operating a motor vehicle while under the influence of intoxicants.

Built with features usually reserved "for big trucks only" —that's why GMC's last longer!

THERE'S extra value in a GMC pickup, stake or panel truck because there's extra quality in the way it's built—a long list of heavy-duty features that are usually reserved by other manufacturers for their "big trucks only."

First, there's the sturdy, truck-built valve-in-head engine—protected against wear and breakdown by the same features you find in the big 200-H.P. GMC's: Tocco-Hardened crankshaft, airplane-type main and rod bearings, full-floating piston pins

and rifle-drilled connecting rods carrying full-pressure lubrication all the way to the piston pins.

There's extra stopping power in a GMC's burly brakes, extra strength in its deep truck frame—extra comfort in a GMC's larger "pillow-action" springs, extra ease in a GMC's recirculating ball-bearing steering.

They're features usually reserved for "big trucks only"—yours in a GMC at no extra cost. You won't find a better truck on the market!

Elmer W. Rice, of Erlanger, was a caller here Monday morning, and while in town called at The Recorder office having his subscription moved up another year.

The Friendship Class will meet in the church basement on Saturday, January 17th at 8:00 p. m. Members are urged to support their new officers with a large attendance at this meeting.

Among The Recorder's recent new subscribers is Robert Craddock, Route 1, Union. Mr. Craddock has accepted a responsible sales position with Hicks Motor Co., Third and Madison, Covington, where he will be pleased to greet his many Boone County friends.

The church roll was revised in March, 1918, with sixty-two active members. All delinquent members were to be notified and if not heard from by August 1st their names were not to be added to the revised list. Rev. Lucas resigned July 10, 1918. Succeeding pastors were Rev. H. M. DeMoss, Rev. H. M. Gartner, Rev. John Barker, and Rev. A. R. Abernathy. In August, 1919, it was voted not to rent the church yard any more for grazing stock.

In May, 1928, the church was again pastorless and the District Board sent Field Worker W. A. M. Wood as missionary pastor and to assist in erecting a new building. The building committee was composed of Cecil Gaines, C. W. Meyers, and J. A. Lucas, with Rev. Wood as chairman. The new church, a beautiful brick building, was erected at an initial cost of \$18,400.00 and was formally opened April 27, 1930, and dedicated on Sunday, May 4th, with W. D. Powell preaching both morning and afternoon. Revival services began that evening and continued through May 11 with Rev. T. C. Sleet the evangelist and D. I. Tanner in charge of the music.

There were 113 members when the church was dedicated and the church officers were: Pastor, W. A. M. Wood; clerk, W. M. Long; treasurer, J. F. Surface; deacons, A. S. Lucas, W. N. Long, J. F. Surface, and Emmet Baxter; Chorister, D. I. Tanner; pianist, Marie Tanner; assistant pianist, Arch Marie Lucas; Lewis L. Stephens was superintendent of the Sunday School. Mrs. Wood Stephens was president of the Woman's Missionary Society and Mrs. Ed Snyder was president of the Ladies' Aid.

The members worked very hard, many giving sacrificially, to reduce the debt on the building. In 1931 Rev. R. F. DeMoisey was called as pastor. In 1934 Mr. Owen Bradford, who had been a member of the church since 1909, died. He since his wife had preceded him in death the previous year, by his last will provided that the residue of his estate, after payment of claims, should go to the Florence Baptist Church.

This generous gift aided in the removal of the existing debt, in finishing the basement and other improvements. T. C. Crume, Jr., was ordained a minister of the Gospel at the church on January 24, 1937.

In November, 1937, the church leased unto Mrs. Emma Cleek a parcel of ground in the church yard upon which to erect a dwelling and live the remainder of her life with the provision that upon her death the dwelling with any improvements that had been erected should descend to the church.

Rev. DeMoisey resigned in January, 1942, effective ninety days later. The church membership had grown to 247 during his eleven-year pastorate. Rev. Harold Wainwright came to the Florence Baptist Church as pastor in June, 1942. Under his leadership the first Vacation Bible School was held in 1943 and one has been conducted every year since. Rev. Wainwright entered Southern Baptist Seminary in September 1944, but was retained as pastor, making the trip from Louisville to hold prayer service on Saturday nights and worship services on Sunday.

In November, 1945, the deacons erected a bulletin board on the front lawn to better advertise the church program. Two rooms were partitioned off in the basement and equipped for a nursery in the spring of 1946.

In November of 1946, the church started in April. In November of the same year a house at 58 Dortha Avenue was purchased from Mr. and Mrs. Krumpelman for a parsonage and the Wainwrights moved into it after he graduated from the Seminary in May, 1947. The Training Union was reorganized in February 1948, with Seward Abbott as director.

Miss Jean Bach, daughter of Dr. and Mrs. Luther Bach, while attending Southern Baptist Encampment at Ridgecrest, North Carolina, felt called of God to be a missionary and there dedicated her life to service in foreign fields. Jean resigned her position as teacher in Covington schools and entered W. M. U. Training School in Louisville, graduating in June 1948. A special

yard was rented for grazing stock and in 1912 the sum of \$5.00 was received from this source.

During these years the church maintained strict discipline, being no respecter of persons in doing so.

The peace and fellowship of the church was called for at each business meeting and if anyone was reported as walking unworthily, he or she, was visited by a committee and asked to come before the church to show cause why the church should not withdraw fellowship or to vindicate himself.

In 1913 it was voted that every member of this church report to the church at least twice a year in person, by letter, or by subscription. A Woman's Missionary Society was organized in May, 1913. Rev. G. R. Douglas was called as pastor in November, 1913, and again the next year. He was succeeded by Rev. Elmer Lucas, of Georgetown, Ky., in December, 1915. Electric lights were put in the church in August, 1917. J. D. Mitchell, who had been church clerk since the reorganization, died on February 16, 1918, and E. L. Aylor was elected to this office.

Boone County 4-H Member Describes Chicago Visit; Talent Representative to National Meet

Vera Dean Scott, daughter of Mr. and Mrs. Lillard Scott and a senior at Burlington high school, describes a recent trip to Chicago where she attended the 31st National 4-H Club Congress. Miss Scott won her trip as a talent representative from pictures and tape recordings of her organ music which were entered in the Congress contest. Vera Dean has been in 4-H Club work for nine years and has had many state and county honors in the work. She was accompanied on the Chicago visit by Mrs. Stanley Aylor, Boone County Home Demonstration Agent.

By Vera Dean Scott
November 28, 1952 brought to me my first glimpse of Chicago. It was on that day that I found out why it is known as the windy city, because from the first step out of the plane it was "hold your hat or chase it down the street."

Most of the first day was spent getting acquainted with the other forty-seven members of our 4-H talent group. We forty-eight young people, ages 9-17, were representatives of sixteen states and eighteen different areas.

On Sunday a church service was held for all 4-Hers and leaders in the Grand Ballroom of the Conrad Hilton Hotel. On the program were such people as George Blanda of the Chicago Bears, who gave the welcoming address, and Fran Allison who sang the "Prayer of Thanksgiving."

The entire Kentucky delegation to the 4-H Club Congress stayed in the Harrison Hotel. The Congress headquarters were in the Conrad Hilton, but since the talent delegation was not considered regular delegates to Congress, our main headquarters were in the Blackstone where we held all rehearsals and had our meals.

I couldn't possibly tell of my trip without mentioning the food. It was tops!

One of the very interesting highlights of our trip was the visit to Wilding Movie Studios where we

not only saw the movies being made but were a part of the "United States Rubber Company Friendship Breakfast Movie."

The "Friendship Breakfast" was attended by state leaders and agents, twelve of the National Leadership Award Winners acted as Masters of Ceremonies and the entertainment was furnished by our 4-H talent group. The act presented were dance acts including hula, acrobatic, doll dance, and a tap dance duo; singers; instrumentalists, trumpet trio, violinist; and a ventriloquist.

One morning the 4-Hers were entertained by the Firestone Company Breakfast and program. Furnishing part of their music was the well known Firestone Chorus. The following day the Wilson and Company Dinner was held at which several celebrities were interviewed, among them Allie Reynolds, of the New York Yankees.

The farewell party began with a lovely dinner followed by music and dancing during which extemporaneous numbers were presented.

It was indeed an unforgettable experience and I say to all 4-Hers it is certainly something worth while to look forward to when you are rippling out those stitches, and to hold in mind when that first tobacco crop falls.

Welcome Back

Miss Mary Jane Nusbaum, secretary and bookkeeper in the office of the superintendent, has returned to her position after an illness of several weeks. The News welcomes her back to her duties and we are especially glad that she is once again in good health.

4-H Membership Increasing; Boone Club Plans Mapped

Four-H club membership is on the upward swing for '53. Four-H members are living up to their motto "To Make The Best Better."

The 4-H club program in Boone County is designed to make good citizens of the rural youth. The 4-H club county council has planned a yearly program full of activities for 1953. The following activities are included: participation of the National 4-H Week, Spring Rally, District Demonstration Contest, 4-H Club Week at the University of Kentucky, District 4-H Club Camp, 4-H Club tours in July, County 4-H Club Fair, District 4-H Dairy Show, County 4-H Achievement Jamboree, District Achievement Day, and District 4-H Tobacco Show and Sale. These activities are planned in the interest of 4-H club members and their needs and carried out by the members, parents, and leaders.

Four-H club work is a fine illustration of democracy in action including voluntary membership, volunteer leaders, much free will support. Through the local club meetings the rural young people plan their activities, work together, sing and play together and select their own officers and leaders to help them carry out their program of work.

Boone County club members may follow the ten "Guide Posts" to the goal of being good members.

1. Developing talents for greater usefulness.
2. Joining with friends for work, fun, and fellowship.
3. Learning to live in a changing world.
4. Choosing a way to earn a living.
5. Producing food and fiber for home and market.
6. Caring better homes for better living.
7. Conserving nature's resources for security and happiness.
8. Building health for a strong America.
9. Sharing responsibilities for community improvement.
10. Serving as citizens in maintaining world peace.

There is a challenge to 4-H club youth in Boone County:
"Thou, too, sail on, O Ship of State, Sail on, O Union, strong and great, Humanity with all its fears, With all the hopes of future years, Is hanging breathless on the fate. Sail on, nor fear to breast the sea, Our hearts, our hopes, our prayers, Our faith triumphant o'er our fears, Are all with thee—are all with thee!"
—From "The Building of the Ship" Henry Wadsworth Longfellow.

Miss Schram and Mrs. Markesbery's rooms enjoyed giving a play at Christmas entitled "Why the Chimes Rang."

Mrs. Westermeyer's room still has pupils out with the mumps but they hope to have them back soon.

Mrs. Pettit's sixth grade has enjoyed making booklets of Christmas poems. They also had fun making Christmas decorations for their room.

Miss Allie Watts' first grade has made some new year resolutions. They are planning an activity unit about birds. They are also going to have a Better Breakfast Club.

Miss Moseley's second grade lost two pupils and gained one during the Christmas holidays. The new girl's name is Ida Russell and she is from Manchester, Indiana. This month the room is going to study about Good Manners.

Mrs. Jones' third grade children enjoyed the holidays more because they shared with the sick and crippled children by a sending a gift of \$10.00 to the WLW Christmas Fund.

Knight Footballers Entertained At Trails

By Lorraine Utzinger
A delightful 6:30 p. m. dinner was served for the Florence football team and cheerleaders at Southern Trails Restaurant on Dixie Highway, where fried chicken and the trimmings to go with it were served.

Everyone retired from Southern Trails and departed to the movie "Prisoner of Zenda" at the Albee.

Enjoying the dinner and movie with the team and the cheerleaders were four men teachers.

New Mail Box

A new pigeon-hole type mail box for distribution of teacher's mail has been installed in the office of the Burlington school. The box was made by Meredith Carriagan, sophomore.

EXCHANGE STUDENTS

The News received a letter last week from a student suggesting that the schools have "A Student Exchange Day." The plan as outlined called for a student selected from each class of grades nine through twelve visit for an entire day with another school and sit in on his respective classes. The letter went on to say "it might be a tonic for both the student and the teachers as well." THE NEWS LIKES THE IDEA AND WE PROMISE TO SUGGEST IT TO MR. OKERMAN AND THE PRINCIPALS.

NEXT ISSUE

In the next issue of the News a story will appear about the first basketball game ever played in Boone County... where it was played... the players who took part... and who introduced the game in the county.

A BOY

Definition of a Boy: Between the innocence of babyhood and the dignity of manhood, we find a delightful creature called a boy. Boys are found everywhere—on top of, underneath, inside of, climbing on, swinging from, running around or jumping to. Mothers love them, little girls hate them, older sisters and brothers tolerate them. A boy is Truth with dirt on its face, Beauty with a cut on its finger, Wisdom with bubble gum in its hair, and Hope of the future with a frog in its pocket.

CONTEST OPPORTUNITIES

Students are reminded to contact your teachers for details on the current contests being offered by various organizations to the schools. At present time there is a limberick contest on the subject of "Thrill" for all students in grades seven through twelve. First prize in this contest is a \$50.00 savings account.

Also the Eighth Annual NSFA National High School Photographic Awards contest is on. The contest is simple and there is a total of \$4,000 in prizes. Ed. Note: Ask about these or contact the News.

"Santa Visits Mother Goose" Presented by New Haven 1st Grade

The first grade presented the annual Christmas program at New Haven on December 19. The play was under the direction of their teacher, Mrs. Maud Tinscher. The play, "Santa Visits Mother Goose," told a story of Santa Claus and all the children who lived in the shoe. We all enjoyed it very much.

The mixed chorus, under the direction of Mrs. Leming, also contributed to the program. They sang several songs, including "Sleigh Ride" and "A Christmas Carol." There was also a quartet and a trio number. The service was by candlelight.

After the program, all the classes had parties in the home rooms. The students exchanged gifts and served refreshments.

Y-Teen History Reviewed; Events Of Florence Listed

By Irene Hoffman

The Y-Teen Club was first organized in 1921 at Oakland, California as a part of the Y. W. C. A. It was originally known as the Juvenile Christian Association. It kept that name until 1918 when they renamed it Girl Reserves. In 1946 they adopted a more descriptive name for the teen-age program which was Y-Teens.

The Y-Teen goals are taken from the Y. W. C. A.'s Purpose. These goals are as follows: To grow as a person, to grow in friendship with people of all races, religions, and nationalities and to grow in knowledge and love of God.

The Y-Teen insignia is an elongated globe across a blue triangle. This symbolizes membership in a worldwide organization, the Y. W. C. A.

The Florence Y-Teen Club has fifty-five members coming from the Freshman through the Senior class. The sponsor is Miss Clara Watts. The club officers are Barbara Denham, president; Lois Howard, vice president; Ira Abbott, secretary, and Irene Hoffman, treasurer.

The Florence Y-Teen Christmas program this year will take gifts, cookies, and candy to the people in the Infirmary at Burlington, Kentucky. There was a gift for each person and the cookies and candy were passed around for all to enjoy. The entire club sang Christmas Carols and Reverend Andres read the Christmas story.

The Y-Teens always look forward to the Mother and Daughter Banquet which is given every year. The favors and centerpiece represent a different state each year.

The Y-Teens are invited by the Hi-Y every year to go to a football game at the University of Kentucky.

The Y-Teen Club is a project that helps every member grow in Christian fellowship and every girl that has an opportunity should belong.

Hebron FFA Boys To Sell Tobacco Seed; More Plans

The F. F. A. boys plan to sell certified tobacco seed through the F. W. Rickard Seed Company, Winchester, Kentucky. They have all varieties available to Boone County farmers. These can be bought from any F. F. A. member.

The F. F. A. big chain, started last year, is paying off. The chapter received two gifts from the sow that was given to Richard McGlasson last year. The gifts were given to Bill McWhorter and Duward Fryar.

On the 10th of December, 1952, the chapter elected junior officers to assist the regular officers and to give the boys experience. They are Bill McWhorter, president; Don Puller, vice president; Howard Parsons, secretary; Bobby Johnson, treasurer; Harvey Pelley, reporter and Bob Sims, sentinel.

The agriculture boys expect to have farm shop beginning the second semester. Things they will study are: Construction of farm buildings, electrification of farm buildings, servicing farm tractors, farm plumbing, and simple forge work.

The F. F. A. will have a fish fry at 7:30, February 14, at the Hebron High School lunchroom. All the F. F. A. members and their parents will attend. The menu consists of fish, tartar sauce, potato salad, baked beans, pie, milk, coffee, and soft drinks.

The P. T. A. met at the schoolhouse Wednesday evening, December 17th with several members in attendance. The group enjoyed a Christmas party, and refreshments were served. The next meeting will be Wednesday evening, January 21. Everyone is invited to attend.

The Intermediate Room's Citizenship Club elected the following officers: Ralph Wright, president; Katherine Pennington, vice president; Wayne Sprague, secretary; and Herb Ginn, treasurer.

The following committee was named: Flag, Hope Ellis, Linda Joseph, and Danny Turner; Health, Leah Ray Cotton, Sheila Hankins and Wayne Davis; Map Study, Raymond Reeves, Joe Klassner and Lowell Ginn; Safety, Carroll McGlasson, Paul Berry, John Moyer; Better English, Ronnie Davis, Roy Lee McNichols, and Judy Kotmyer; Decorations, Millie Berry, Sharon Ginn, Diana Prael; Library, Shirley Masters, David Davis, and Frankie Dolwick.

The club sent Hallowe'en, Thanksgiving, and Christmas cards to the brothers and relatives of the members in the armed services and to several orphan homes in Korea. Several replies have been received. The following letter is one of the replies:

France
December 1952
Citizenship Club
Constance School
Dear Girls and Boys:

I want to thank you for the nice cards that I have received in the past. Enclosed you will find a few picture post cards of Europe. We travel through many countries and my buddies in the tent and myself will try to send more cards of the different cities. Hallowe'en and Thanksgiving are celebrated only in America. The only holidays we have over here are the days that some country is liberated from a conquering nation.

American soldiers, sailors, airmen, and marines are sent all over the world, but we surely don't mind it as long as we see that you are free and happy back home. I hope that all of you were nice "pooks" on Hallowe'en, that you sent all you could send on Thanksgiving Day, and the coming Christmas will be your merriest. In Europe Santa comes the 5th of December, but Christmas Day is still the 25th.

I must close for now—a big sergeant is coming around to turn out the lights.
Sincerely,
Cpl. Merrill Caldwell,
U. S. Air Force

The Citizenship Club received a football and basketball from their teacher, Mrs. Caldwell, for a Christmas present. More about our club next time.

In Florida

Mrs. Sibbia Reimer, Boone County school supervisor, spent the past week vacationing in Florida. Mrs. Reimer is expected to return to her office next week.

Local Talent To Present Program At Petersburg School

Local talent will present a program of hillbilly music at the school auditorium Saturday, January 31, at 8:00 p. m. Admission prices for the event will be twenty-five and fifty cents.

The pupils and teachers at Petersburg school are back at work after what was apparently a very enjoyable Christmas vacation. Every day toys are brought to Mrs. McWhorter's and Mrs. Toadvine's rooms to be displayed by their proud possessors. This year's crop of dolls is especially intriguing.

The McDaniels children have transferred to the Burlington school.

The Petersburg P. T. A. supper and parcel post sale given Dec. 13 netted slightly over one hundred dollars. Many generous friends helped make this event a success.

The "Aladdin Books" which Mr. Ockerman sent to the schools just before Christmas are very good. The sixth graders at Petersburg are enjoying them very much.

New Haven Tri-T Group Sponsor Tryouts For Cheerleaders

The New Haven pep club has a new, and we think, a novel idea. Since there were so many girls interested in cheerleading for the reserve team, Mr. Perkins divided them into groups of five. Each group was put under the supervision of a first team cheerleader. The cheerleaders taught them several cheers and practiced with them for a few days. Then each group selected a date on which a home game was to be played and led the cheers at that game. After each group has performed, Mr. Perkins and the regular cheerleaders will select five from the entire group to cheerlead at the remainder of the home games this season and at the Reserve Tournament. The selections will be made this week.

The selection will be made on the qualities of (1) Dependability, (2) Service, (3) Leadership-Personality and (4) Patriotism.

Cherokee Bill Entertains At F. H. S.

By Lorraine Utzinger
A very enjoyable program was presented by Cherokee Bill at Florence High School, December 11, 1952. He was from Muskogee, Okla.

His presence has delighted many schools and theaters throughout the United States. Cherokee Bill has traveled in circuses since he was a young lad of twelve. While traveling with Buffalo Bill in shows for a number of years, he became experienced. Shortly afterwards he began performing tactics of his own. The program consisted of rifle and pistol shooting, knife throwing, a whip act, and balancing a 15-ft. step ladder and a boy on his chin at the same time.

Assisting Cherokee Bill in his sharp tactics were three of the lower grade students from Florence, Betty Boyers and Ofungate were his two assistants, who were traveling with him.

Ransom, Jergens Take School Board Posts

Two new Boone County school board members were sworn into office last week. The new members were James Ransom, Bellevue, and Elmo Jergens, Hebron. The new members replaced Bruce Ryle, Hamilton, and Hubert Conner, Hebron. The board held its first meeting of the new year Thursday night, Jan. 8th.

Denham and Luck Crowned Knight's Queen and King

By Lois Caudill

On December 19, 1952, in the Florence High School gym, the annual crowning of the Florence basketball king and queen was held after the reserves game with St. Henry High.

The spotlight played softly upon the attendants as they slowly walked in and spread out, fan-like, to make a path for the royal couple. Charles Utz and Barbara Hodder were the first attendants to appear; next came Bernard Hudson and Eleanor Finkle, followed by Billy Maddox and Alma Clifton, and the last attendants to march in were Jerry Denner and Lorraine Utzinger.

Janet Dolwick continued the lovely, "God of Our Fathers," as the king and queen, Irvin Luck and Barbara Denham, walked slowly up the aisle toward the elegant white throne. Irvin wore his basketball uniform and Barbara was bedecked in a lovely white gown with a corsage of red roses. Skipper Foscoe and Cathy Hudson, the young crown bearers, completed the royal procession.

George Maines, basketball coach, crowned Irvin as basketball king. Then Irvin, now the Florence Basketball King of 1952 and 1953, crowned Barbara Denham as the P. H. S. Basketball Queen.

"Our Miss Buckler"

By Ann Wilson
Last month we talked about Mr. Perkins. Now we'd like to tell you about our other new teacher at New Haven, Miss Charlotte Buckler.

Miss Buckler made her debut on June 10, 1929, at Wilmore, Kentucky. She attended grade school and two years of high school at Wilmore. Then she journeyed to Florence to finish high school and perfect that southern accent.

After she finished high school our home town lover went back to Wilmore, where she enrolled at Asbury College. She majored in Biological Science, which we're sure must have something to do with teaching the sixth grade.

After college, Miss Buckler worked as a surgical receptionist at the Lexington Clinic. Getting her experience for her sojourn at N. H., no doubt.

This is her first year of teaching, and we think our sixth grade is pretty lucky. She also coaches the cheerleaders and is co-sponsor of the pep club.

She likes to read and travel, which may have something to do with her pet peeve—Greenline buses.

This was supposed to be a parallel to the life of "Our Miss Brooks," but Our Miss Buckler betrayed us. She prefers music teachers to biology teachers. The N. H. music teacher is Mrs. Leming, so maybe we're back to that hobby again—travel.

We'd like to say that whether it's music or biology she prefers, we're awfully glad to have Miss Buckler at N. H., and we hope she stays even longer than Miss Brooks. We think she's swell.

A LOT OF CABBAGE

It took only 56 words for the Lord's Prayer, 266 for the Gettysburg Address, 297 for the Ten Commandments, and 300 for the Declaration of Independence. . . . But it took the O. P. S. 26,911 words to put the price on a head of cabbage.

A GOOD TEACHER

Letter from new inductee to Mom: "Dear Mom—Remember how you spent 20 years trying to teach me (1) to get up early in the morning, (2) to keep my room tidy, (3) to eat sensible food, and (4) to go to bed early? Well, I learned all of 'em in the Navy in two weeks."

"What is steam?" asked the science teacher.
"Water goes crazy with the heat," replied the student.

A Freshman stood on the burning deck
As far as I can learn
He stood with perfect safety—
He was too green to burn.

The average annual salary for elementary classroom teachers in Kentucky last year was \$2,180. For high school classroom teachers it was \$2,915.

LEST WE FORGET

In order that all shall know, and that it be duly publicized, and ignorance of the order shall not be an excuse . . . and so on . . . this is SEMESTER EXAMINATION WEEK.

WHICH ARE YOU?

A squeak is a sharp, shrill sound, usually rather short. A squawk is a loud, harsh cry usually longer than a squeak. Probably squawk is variation of squeak. A squawk may be a squeak with emphasis and a squeak may be a squawk that has fizzled. To fizzle is to splutter and to splutter is to hiss. Squeaking, squawking, spluttering, fizzling and hissing represent failure in some measure. Now we ask: If any, which do you do?

THIS 'N THAT

Hebron

What has happened to June and Jim? Who's going to make up first? We see the love-bugs bitten Myrna B. What about it, Donald C.?

Looks like Shirley D. is "East Bend bound."

What is it about the Burlington boys that sets the Hebron Sophomore girls' hearts fluttering?

Constance

The boys have talked so much about rabbit hunting with Mr. Lents during the holidays that the girls have wanted to go along too.

Wonder why Shirley Masters and Mille Berry are feuding? Could it be over Bobby Herrington?

Gail Houp is a new pupil in the seventh grade. She has created a little excitement among the boys.

Bob Austin deserted Jean Ann Davis for Gail, and Anthony Duerling deserted Barbara Crutchee for her, but Gail fell for Ronnie Crutchee, and now some boys are hunting for new girl friends.

Jimmy Hankins has been going to the waste basket a lot, and he passes to the rear of the room instead of putting waste in the basket near him. Wonder if it could be that he has to make eyes at Louise Keaton?

Jackie Coyle seems to have found something interesting at Hebron. She says it is basketball, but James Klassner is afraid that it is Frankie Joseph.

Selma Jean McGlasson and Mary Beth Hempling are such close pals that they eat from the same dish, chew each other's gum, and have the same boy friend, Richard Daulton.

Better look out Pat Joseph. Charles Masters and Aneta Hempling have been seen together several times recently.

Betty Moyer and Ronnie Crutchee run up and down the steps a lot. Could it be because of our new concrete steps?

—Jackie Coyle, Reporter.

Hebron

What senior girl comes to the basketball games with her lipstick smeared? Could it be that it was too dark to see in the mirror, Anna?

Seems June Kruse has a bad case of shyness when it comes to a certain US Freshman from Hebron.

Looks as if Joe Stephens can't decide between a red-head, a brunette, or a blond. How about it, Joe?

Wayne Schneider is becoming pretty popular with the girls. Could it be because of his ability to be on the first team?

I wonder who writes love notes to Dick Anderson in his English book? Maybe one of his "secret admirers."

What Junior and Senior girls think Jack Ziegler, a Hebron graduate is a "dolt?"

I wonder if Lowell Sorrell got his flat tire fixed from late New Year's Eve while taking June Kruse and Audrey Massey home.

Where did "Maters" get all of his talent for spooning, all of a sudden?

Why does Piggy often ask to be excused from class at the period when Jim is in the gym practicing basketball all alone?

We know that Gene certainly wasn't blind when he took a certain Junior girl to the blind tourney. WOW!

Florence

By Newell Graham and Charles Cox
Beaks of being different, we discuss the Florence "Dirt" in this way. Let's put our imaginations to work and assume that we are in a small, romantic, French cafe. The smoke is dense and the smell of wine is overpowering except for the delegation from Florence High School, who are not indulging in wine. No Sir-ree, they drink!

As we look around the cafe, we recognize some of our friends. Oh yes! Over there at a small corner table we see our number one play boy and lover, Duncan, in a fond caress with his new flame "Butterball."

Wait! The lights are dimming, the crowd is silent and when greeted by a loud ovation, out comes the irresistible, the sultry torch singer, Miss Mary Hughes. The crowd grows silent and Mary sings her famous torch song "Can't Help Loving That Thirty-Five Chevrolet."

Oh! But the show is not over, here comes the can-can dancers. First comes "Shoulders" and next "Wiggles" and then the crowd sits up and takes notice, especially "Fud." Here comes the toast of Florence High, "Miss Cuddles of 1953." Guess who?

We look around at the other tables and first we see a tall girl in a fur coat sitting with a blond-headed wonder from New Haven. Then we see the prominent Mr. L. Yelton, who seems to be much infatuated with a new addition to the Freshman class from Holmes High.

And there's Bonnie and she is alone and has that far away look in her eyes. Hey fellows, come to the rescue!

Burlington

We hear that Frank Thaman got stuck in the snow on the Walton Hill . . . and that's not the "B" Walton Hill, either.

There for a while, it appeared as though B. Black couldn't decide between Hall and Finn. Then, some-

thing happened . . . someone else stepped in.

From the rings, it appears that many B. H. S. freshmen and sophomore girls are graduating.

John Fair hasn't missed a Sunday at church for months. Could it be to see the piano player. How about it June?

Jerry Lustenburg has become a great basketball fan . . . or should we say a great basketball cheer-leader fan.

What happened to Joyce Jones at the RAM's Grill about two weeks ago. Why did you leave feeling so badly? (And we know it wasn't the food).

Theme Songs

H. Truman: "I Must Say Good-bye."

M. L. D. to Ray H.: "Half as Much."

Age makes no difference to J. Peifrey and Lelah Wolfe, but they say "They tried to Tell Us We're Too Young."

H. Adams to B. H. S.: "So Long, It Has Been Good To Know You."

The Seniors: "Last Roundup"

Jeff Wilson and S. S. R. are getting extra chummy recently. Those interested take notice in Algebra class.

Eddie Brown seems to be doing o. k. with the Hebron girls. He seems to be centering his interest on K. A.—Eddie, what will Portland think of that.

A WARNING: Those couples who patronize the balcony at every opportunity, begin other plans . . . the wrath of certain teachers is being fired. A friendly hint.

High school students at B. H. S. were alarmed at how young a child can be and still be affected by misletoe. Some of the grade youngsters made the high schoolers look like "wall flowers."

We Predict: A slow burning feud within the senior class will explode like a hydrogen bomb someday soon . . . Several seniors are going to be short a one-half credit, beginning their final semester of work . . . A big change in the Eagle basketball team starting line-up soon . . . we don't think the coach is happy over some recent performances . . . we also predict that there will be a manager involving a high school student before school is out next spring.

THE EIGHTH GRADE has a good basketball team. They defeated the ninth grade recently in a game.

THE FIRST GRADE honor roll for the past six weeks is as follows: Roger Conrad, Ronald Lee Smith, Kenny Graham, Dennis Vice, Johnny Akin, Helen Richardson, Joy Ryle, Tommy Ryle, Donnie Kirkpatrick, Peggy Figgins, George Stephens, Peggy Wilson, Barbara Carrigan and Dorothy Hamon.

There are three new children in the first grade. They are Walter Matyske, Richard Knipfer and Susie McDaniel.

Rev. R. C. White visited the first grade at our Christmas program. He read stories and sang for the class.

The first grade children are working on a winter time unit since returning from the holidays. They just completed "Frosty."

Following are class officers of the Seventh Grade: Gary Kinnman, president; Linda Jones, vice president; Mary Jo Akin, secretary, and Helen Biddle, treasurer. Resignation of the class president, recently, and Jane Snellman has been elected vice president. Libby Kelly is sergeant-at-arms.

Eighth grade students who have recently withdrawn from school are Jane Williams, Doris Troxel, Tim McGough and Ardis Moore. Wayne Ragland, a new student, recently enrolled in the class.

The class is making an "all-out" effort in English. Mrs. Dorothy Caldwell, teacher, reports that an improvement has been shown.

The class had a candy sale and an exhibit at the Fall Festival. Class-made dolls were also sold at the Carnival. Money from these sales was used to buy a new globe for the room.

At Christmas time the class enjoyed making a manger scene and writing and giving a play, "The First Christmas."—Arlene Sue Akins.

The Fifth Grade honor roll: Margie Lou Gullion, Margie Ann Reeder, Tommy Ryle, Shirley Tanner and Beth Ann Vice.

The fifth grade bought a few books and games with their part of the circus proceeds. They plan to buy more books and games soon.

With money received from the circus program, the class purchased a clock, a soccer ball, games, and other supplies for the room.

The eighth grade recently lost two students, Janet Akins and Howard Adams. Both are now enrolled at Hebron. (Just ask D. L. R. about Howard, she can tell you how he is missed.)

The eighth grade has a good basketball team. They defeated the ninth grade recently in a game.

Sidelites

The Stanton, Tex., Chamber of Commerce is indifferently frank, as this sign, recently put up, shows: "2500 friendly people and a few old sore heads welcome you to Stanton."

WORDS OF WISDOM: From a Statistical Survey issued by the State of Maryland: "If more men lived longer, it would increase the total number of them in the population."

Bulletin, U. S. Dept. of Labor: "As employment increases, unemployment is expected to decrease."

Nebraska Conservation Report: "Only one of Nebraska's 93 counties is completely devoid of lakes, rivers or creeks. Fish have never been stocked in this dry county."

Children are

What parents mold them;
Small wonder then
That parents scold them.

A college senior dated a young lady from a nearby girls' school a few times. Then some weeks passed, and when she hadn't heard from him, she sent a telegram reading: "Died, delayed or disinterested?"

To which the young man promptly wired back: "Hunting, fishing or trapping?"

Ten Business Commandments

1. Work hard—Take the hardest job first every day.

2. Study hard—The more you know, the easier and more effective is your work.

3. Have Initiative—Ruts often deepen into graves.

4. Love Your Work—There's a sense of satisfaction in doing work well.

5. Be Exact—Accuracy is better than haste.

6. Have Courage—A stout heart will carry you through difficulties.

7. Be friendly—Only friendly people become successful leaders.

8. Cultivate Personality—Personality is to the man what perfume is to the flower.

9. Wear A Smile—It opens the door into the sunshine beyond.

10. Do Your Best—For if you give to the world the best you have, the best will come back to you.

Experience is what we get when looking for something else.

Man is the only animal that can be skinned twice.

A dictator state is one in which everything that is not forbidden is compulsory.

Teamwork

You can pitch a no-hit ball game. But it's just another loss. If the errors of your teammates' Put opponents' runs across.

You might be a brilliant runner, Pass and kick with easy grace, But you'll miss the winning touchdown.

If a teammate's out of place. In the sporting world or business, In the office or mill, Nothing can produce a winner. Like a little teamwork will.

Hickory, dickory, dock,
Two mice ran up the clock
The clock struck one,
But the other got away.

THE POINT OF VIEW

(Ky. School Journal)
COLLEGE PROFESSOR—Such rawness in pupils is a shame. Lack of preparation in the high school is to blame.

HIGH SCHOOL TEACHER—Good heaven, what a crudity; the boy's a fool. The fault, of course, is the grammar school.

GRAMMAR SCHOOL TEACHER—From such stupidity may I be spared. They send them to me so unprepared.

PRIMARY TEACHER—Kindergarten blockhead!—and they call that preparation. Worse than none at all.

KINDERGARTEN TEACHER—Such lack of training never did I see; what kind of a woman must the mother be?

THE MOTHER—Poor helpless child. He's not to blame. His father's people are all just the same.

DID YOU KNOW?

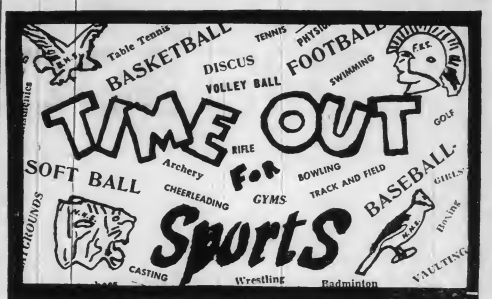

Theodore Roosevelt was the youngest president ever elected.

Thomas Jefferson was the first president inaugurated in the city of Washington.

George Washington never lived in the city of Washington.

Tickets are now on sale for the state basketball tournament. Check your school authorities for prices, dates, and where tickets may be obtained.

The Simon Kenton Pioneers, who for the past several years have been placed in the 34th district tournament, will not participate in the 34th year. They have been transferred into the 35th district by the Kentucky High School Athletic Association.

Answer to Question: The regional tournament sites shall be determined by the Commissioner of the K. H. S. A. A.

THEY SAY IT HAPPENED IN BOONE COUNTY: A football coach put up the following notice on the athletic bulletin board: "There will be football practice this afternoon. If it rains this afternoon practice will be held this morning."

WHICH REMINDS US OF ANOTHER BULLETIN BOARD NOTICE: "Assignment in Physics tomorrow: Begin with lightning and go to thunder."

Someone phoned the News last week and asked if we could find some of the old records of basketball games. We have located quite a few of them. This particular fan wanted to know what the scores were between the Florence girls and Burlington girls (Nightengales and Kittens) in 1933? WE FOUND THEM.

First game Kittens 14, Nightengales 15.
Second game Kittens 16, Nightengales 12.

Burlington lost only two games in the '33 season. The other loss was to New Haven 29 to 23.

We also noticed in looking over scores of the 1933 season that the Burlington (Tomcats) of that year won sixteen games and lost two and that their average points per game was 20.1. (How many games would a team win this age with an average of twenty points per game?) The lowest score we found was a 20 to 6 affair between Burlington and Hamilton.

An old record of a game played in 1915 between Erlanger and Burlington shows the former winner 8 to 4. Ouch! What did they do?

HEADLINE: Can't you see a sports headline in those days: Slim Doe pours in two sizzling fire throws to Pace Podunk High.

NOTE: The above remarks certainly are in fun and not intended as any reflection on the caliber of basketball played. We suspect that many of the present day players could learn some defensive tips from the old timers.

Well, after all is said and done . . . there is more said than done.

Children's Feet

N. TULCH

Foot Comfort Specialist at—
PEOPLE'S SHOE STORE
814 Madison Covington

Ninety-nine out of a hundred babies are born with good feet, even if they do appear to be flat at the start. We say babies are born with flat feet because 'the bony masses in a new-born baby's feet are held in place by fat pads. As the baby starts to stand and walk, these fatty pads are absorbed and muscles take their place. By about the third year the arch of the foot should be pretty well defined if the child is going to have an arch. We say if, because every one isn't intended to have a high arched contour to the foot, any more than every one is meant to have the same color of hair or eyes. Perhaps when the child starts to stand he is overweight, or undernourished or has gone thru a serious illness. In that event the muscles may not develop enough to produce an arch in his foot. He then grows with a natural flat foot. The condition is rarely painful. However, many cases of flat feet can be averted if the child is provided with shoes that hold the weak foot in alignment. Such shoes are usually wedged slightly under the inner border of the heel bone. This prevents tipping in of the ankles and by over correction has a tendency to cause the muscles on the inner border of the leg to shorten. These muscles are the ones which keep the foot arched.—Adv.

CAR Organization Being Formed In Boone County

Work Under Direction Of Mrs. Roy C. Nestor, Of Florence.

In October Mrs. Roy C. Nestor, Organizing Regent of the Boone County Chapter, Daughters of the American Revolution at Florence, received word from Washington that she had been appointed Organizing Senior President of a Children of the American Revolution Society in Boone County and since that time much work has been done toward that objective and the new CAR Society is now on the way toward being a reality.

The National Society Children of the American Revolution was organized in 1895 and was the first National Society devoted to "the Cause of the Child." The objects laid down by the Founders are still the objectives of the CAR. Namely, the acquisition of knowledge of American history; to help to preserve places made sacred by the men and women who forwarded American Independence; to ascertain the deeds and honor the memories of those who rendered service during the American Revolution; to promote the celebration of all patriotic anniversaries; to hold our American flag sacred above every other flag on earth; and to love, uphold, and extend the institutions of American liberty and patriotism, and the principles that made and saved our country.

Any girl or boy under twenty-one years of age may be eligible for membership in this Society who is lineally descended from a man or woman who, with unfailing loyalty, rendered material aid to the cause of American Independence as a soldier, sailor, civil officer, or recognized patriot in one of the several Colonies or States, or of the United Colonies or States.

The CAR encourages its members to emulate rather than "worship" their ancestors, but they must know about them before they can emulate them. As soon as children can talk they can be taught the Pledge of Allegiance to the Flag and the American Creed. Having been taught when young, these lessons remain with them and are of value when they are older.

The organization meeting will be held in the near future as application is now pending in Washington and the new society will receive its name at that time.

He leaves his mother, Mrs. Paul Johanneman; a brother Richard; a sister Carol Ann Johanneman; maternal grandfather Benjamin Hogan, all of Columbus, Ohio.

Several Important Basketball Games Scheduled This Week

Burlington and Hebron Tangle; Florence Will Meet Hebron Saturday.

Some very important basketball games, as far as the Boone County Conference is concerned, are on tap for local fans this week-end. One game—which has been a natural since basketball began in Boone County—Burlington vs. Hebron, finds both teams in unusual situations. The Cards, who have been running rough shod over most of its opposition since an early season defeat at the hands of the Newport Wildcats, have been having their troubles the past few games. Their troubles, or most of them, are that John Crigler, elongated pivot man and one of Northern Kentucky's highest scorers has been crippled and unable to play much during the past three games. In those three games, the Cards lost to Walton 75-65 and to Crittenden 74 to 46 while defeating Holy Cross 71 to 52.

Burlington's Eagles, who were not accused of being too much at the beginning of the season, got off to a good start winning two conference games over Walton and New Haven plus several other wins over better than average competition. However, the Eagles, though without any injuries, haven't played a good game for almost a month and only the arrangement of the Conference schedule has kept them on top of that listing. The Eagles lost to Holy Cross two weeks ago and then dropped a 61-54 game to Gallatin County last Friday night.

But even with these poor showings, fans can be assured that the S. R. O. (Standing Room Only) sign will be out Friday night at the Burlington game, and that a real thriller will be in the offering.

Florence Has Two
The Florence Knights, hottest team in the County, has two important "Conference engagements" this week-end. Coach Maines' outfit take on the Walton Bearcats at Florence Friday night and Hebron at Hebron on the following night. The outcome of these two games and the Eagle-Card contest will likely shake-up the team standings. Should the Knights win two games they will take over undisputed lead of the Conference which they now share with Burlington at two wins and no losses. Two wins for Hebron in recent weeks, and they defeated a 3-1 record for both the Cards and Knights and would drop Burlington to at least third with a 2-1 record.

Other Games
New Haven's Tigers, who are winless in the Conference with a 0-5 record, take on Gallatin County at New Haven Friday night. The Tigers seem to be on the upgrade in recent weeks. They defeated Dry Ridge two weeks ago and since have added a win over Covington Catholic and played the Walton Bearcats a close 64-54 game, though losing.

Walton, besides their conference clash with Florence, will play Simon Kenton Tuesday night at Walton. Burlington will play Ludlow at Ludlow on Tuesday night to round out the week.

Youths Arrested After Car Breaks \$1300 Glass Window

Two 17-year-old Northern Kentucky youths were arrested Saturday by Patrolmen Sparkey Strange and William Stewart for questioning in connection with the breaking of a \$1300 plate-glass window. A display in the window, consisting of two sewing machines, an electric range, a water heater and a sink were damaged, it was reported.

The window was broken early Friday at the William Hagedorn Maytag Service Store, 954 Dixie Highway, when an automobile apparently backed through it. A piece of red glass from the automobile's tail light was found at the scene.

Strange and Stewart found the car of the youths parked in Erlanger and apprehended the youths when they noticed that the piece of glass fitted its broken tail light.

The youths were held under \$1500 bonds in Kenton County court.

Crop Problems Will Be Outlined At Farm-Home Week

Automatically Controlled Tobacco Curing Will Be Explained.

A report on automatically controlled tobacco curing will be made at the annual Farm and Home Convention at the University of Kentucky at Lexington Feb. 3-6. Visitors also will see the "curing barn" in which the system is being used.

Irrigation of tobacco and other crops will be given special attention at the farmer's meetings. The University has reports on irrigation in 36 counties. Irrigation of tobacco proved exceptionally profitable last season.

Tobacco growing, insect and disease control, curing, grading and marketing will make up the entire program for farmers on the last day of the convention.

Other sectional meetings at the convention will deal with soils and crops; the raising of cattle, sheep and hogs, dairying, poultry raising, seed production, the use of machinery on farms, fruit and vegetable growing, the business side of farming, and the rural community and church.

A general program for all men and women will be given the first day in Memorial Coliseum. Then, for three days, homemakers will have sessions to themselves, while farmers will divide into sectional meetings.

Organizations to meet during the convention include the Kentucky Seed Improvement Association, Kentucky Federation of Homemakers, dairy cattle clubs, Kentucky Milk Goat Association, poultry and turkey association, 4-H club association and the Bluegrass State Sheep Association.

For further information see or call your County Agent, Joe Claxon.

Tommy Ryle and Peggy Wilson are on the sick list this week.

Boone Taxpayers Will Contribute Total Of \$4,785,948.30

In Federal Taxes As Their Share of the Federal Spending Program.

Boone County taxpayers will be required to pay out approximately \$4,785,948.30 in Federal taxes as their share of the Federal spending program of \$78,600,000 proposed by President Truman for the fiscal year 1953-54. The Kentucky Chamber of Commerce released these figures today after an analysis of the President's budget recommendations which were recently submitted to Congress.

Kentucky's 120 counties must bear the staggering load of \$25,163,000 as the State's share in the President's proposed spending program. This share for Kentucky is based on the fact that Kentucky now bears 1.05 per cent of the total Federal tax burden.

The Kentucky Chamber's estimate of \$4,785,948.30 as Boone County's share of the proposed new budget is based on the proportionate share each county in Kentucky bears of State income taxes, ratio of county sales to State sales, and other factors.

Boone County's tax burden under the Truman-proposed budget is four times the \$1,374,000.00 spent by the citizens of this county in 1950 for food. The tax take is only \$402,051.70 more than all retail sales in Boone County in 1950—the latest year for which figures are available.

Schadler-Todtenbier

Miss Marjory Schadler, daughter of Mr. and Mrs. A. J. Schadler of 4 East 43rd St., Latonia, and Reynold Todtenbier, son of Mr. and Mrs. E. C. Ruppert, of Burlington were quietly married at Lawrenceburg, Ind., December 4th, 1952. Rev. William Brenden, pastor of Lawrenceburg Baptist Church officiated.

The bride is a graduate of Holmes High School and attended Miami University, Oxford, Ohio for three years. She is now employed as a stenographer of the firm of Baxter & Bailey, Cincinnati. She is residing with her parents in Latonia while her husband is serving with the U. S. Armed Forces.

The groom is a graduate of Burlington high school, and is well known thruout Boone and adjoining counties having starred on the basketball teams of Lloyd High and Burlington High. He enlisted in the regular army in January 1950. He received his training at Ft. Knox, Ky., and at present is serving with the U. S. Army in Korea.

The Recorder joins their many friends in wishing them much happiness and success together through life.

Three Local Men Will Receive Induction Orders

Three Boone County men will receive their induction orders within the next few days, according to C. G. Kelly, Clerk of Draft Board 108. Induction date has been set for February 17th.

Mr. Kelly stated that twelve men will receive their preinduction examinations on Tuesday, February 10th.

Long-Term Polio Patients Look To Dimes For Release

Many Victims Require Extensive Treatment, Says County Director.

Thousands of polio victims are depending on all-out 1953 March of Dimes as their only hope for getting crippled limbs back into action, according to Mrs. George Morith, Boone County campaign director of the 1953 March of Dimes.

"Youngsters paralyzed by polio undergo expensive braces, crutches and other orthopedic devices with the same speed normal children undergo shoes," she stated. "Many polio victims recover quickly and completely but too frequently the disease leaves its crippling trademark on children and adults who may require several years of treatment before they are able to return to even a near-normal way of life."

Some Still in Hospital
Mrs. Morith pointed out that a few patients stricken in 1952 and former years are still receiving some measure of March of Dimes assistance from the Boone County Chapter. Their needs range from continued hospitalization to outpatient visits at clinics or treatment centers.

"Polio cases, skyrocketing to a new high in 1952, included an enormous increase in respiratory cases," she reported. "This is the most expensive type of polio to treat."

"Medical expenses for iron lung patients usually assumed by the March of Dimes, may amount as high as \$20,000 in one year—a debt that would stagger all but the extremely rich."

Advances in Treatment
Mrs. Morith spoke of advances in treatment methods and equipment that are reshaping the lives of respirator patients. With proper care many iron lung patients leave their respirators after only a few months of confinement. Dismal futures are brightened for numerous patients who regain their breathing strength enough to transfer from an iron lung to a reshaping respirator. These latter, comparatively new, devices allow more freedom than the convention respirator.

"Now more than ever, the March of Dimes needs generous support to continue important programs of polio patient care," Mrs. Morith stressed. "Your dime assures help is needed. Join the March of Dimes. Make your contribution today."

Importance of History Stressed By D. A. R.

The Daughters of the American Revolution requested the Governor of our State to set aside one month of the year for American History.

So, last year Governor Wetherby proclaimed February as American History month in Kentucky.

February is the most appropriate month of the year, as two of our greatest presidents were born then, George Washington who fought to

free our country and later became president, and Abraham Lincoln, whose birthplace is Kentucky, who became president and abolished slavery. While in office he was assassinated by John Wilkes Booth. "We cannot stress too much, the teaching of American History every year in our schools. Subversive influences are rampant in our country and even in some of our schools. We must impress upon our teachers and students the importance of the salute to the flag, the creed of our country and our American history," said Mrs. C. Davis Gaines, chairman Americanism Committee of the Boone County Chapter D. A. R.

Mothers Needed At Florence and Walton

Organization of the Mothers' March on Polio in Walton and Florence scheduled for Thursday evening, January 29, between the hours of 6:30 and 7:30, as the grand climax of the 1953 March of Dimes, will be headed by about 50 prominent volunteer community workers, according to Mrs. John Kyle, of Florence and Mrs. Chas. Holder, of Walton.

The town area has been divided into districts with a captain in charge of each district.

Each of these areas will be further divided into smaller sections. The sections will be broken down into blocks and the blocks into segments of ten dwelling units each. It is hoped to enlist a mother from each parcel of ten dwelling units to call on each home whose porch light is lit on the evening of January 29 to accept a contribution to the March of Dimes. Mrs. John Kyle and Mrs. Holder said.

It is estimated that 100 mothers will be required if every home in the towns are to be visited on January 29. All women who would like to join the fight on polio in their own block on that evening are invited to call the following: Mrs. John Kyle, Mrs. G. Mount, or Mrs. Chas. Holder, Walton.

Buying an automobile is an expensive proposition, requiring an investment of money that has been carefully saved over a period of time. Why gamble this money in an automobile purchase, when you can have a guarantee on your investment by buying your car from a registered dealer of new cars? A new car dealer does not have buyers who go around auctions. His used car source are the cars that have many satisfied, repeat customers turn-in on new cars. Most of the profit of a new car dealer is in his new cars, thus he does not have to charge sky-high prices for his used cars.

Castleman Pontiac has, for years, built and enjoyed an honest reputation in a valid and legal written guarantee on its used, recondition automobiles.

Mr. Bolte calls attention to the fact that Social Security coverage for self-employed people is compulsory, not optional with the individual. Many self-employed persons will be filing their social security self-employment returns this month, so if you have any questions regarding your reporting, it is suggested you see Mr. Bolte.

Hunting Season Closed Sunday, January 18th

The hunting season in Kentucky closed Sunday, January 18th. The season opened on November 20 and reports from throughout the State indicate a generally good season for the hunters of both rabbits and quail. In many sections, reports show, the rabbit population has been at an all-time high, while quail populations have been spotty, says the Department of Fish and Wildlife Resources. There will be no open season for hunting in Kentucky until the squirrel season opens, and the date for that season has not yet been set. The duck season ended on January 10th.

Although the game population in some sections of the state is reported as good, Boone County's population is reported as thin, to very scarce. In some sections of the county sportsmen report that game is almost completely absent. Probably a good restocking program in Boone County would help to replenish the supply.

Walton Man Arrested On Rustling Charge

Isaac Stephens, of Walton was arrested Saturday in Cincinnati and placed in jail Monday to await a Federal hearing on a cattle rustling charge.

In a complaint filed with William Seidenfaden, U. S. commissioner in Newport, Stephens is accused of stealing two calves from his sister, Mrs. Mary Robinson, Walton, November 17. Stephens sold the calves at the Cincinnati Stockyards, the complaint said.

History of The Florence Baptist Church

By Mrs. Blanche Beemon

(Continued from Last Week)
Pastor—Aware of the great sacrifice she is making
People—We pledge our support to her and to all missions
Pastor—Realizing her need of help from our Lord
People—We pledge our prayers.
Pastor—Knowing full well her need for fellowship
People—We pledge our communion.

The church gave Jean an Argus 3-C camera to take pictures of her work so the slides and strip films might be shown upon her return from the mission field. She was presented with checks from the church totaling more than \$700.00 to be used in preparation for her stay of three years in West Africa. She sailed in October, 1948, to serve as a missionary teacher in the Ida Aha Girls' School in Abeokuta, Nigeria.

The resignation of Rev. Harold Wainwright was accepted with regret at the business meeting on December 8, 1948. He had served the church 6½ years. Dr. W. L. Stanfield, teacher of Homiletics at Southern Seminary, was secured as interim pastor and endeavored himself to the hearts of the membership during the six months he was here.

Rev. C. L. Leopold, pastor at Cincinnati, was recommended by the pulpit committee and called as pastor on May 29, 1949.

New office equipment was purchased and the balcony remodeled so that it could be used for a Sunday School class room and that more people could be comfortably seated during church services. In February, 1950, a Brotherhood was organized with A. C. Mager president. Because of increased Sunday School attendance modern folding doors were purchased to convert the basement into five more class rooms at an approximate cost of \$1500.00.

Fourteen years of effort and conference with town trustees and highway department were finally rewarded when the sidewalk in front of the church was elevated and rebuilt; thanks going to Dr. Leopold and to Judge C. L. Cropper and to the men of the church who did the work in laying the walk.

In July, 1950, the church purchased the adjoining lot having a 76-foot frontage on Main street and being the same depth at the church lot for \$7,000.00 from the Charles Tanner heirs. This same property was conveyed to Wm. H. Tanner by Bernard and Willemina Von Boken on October 2, 1879, for the sum of \$500.00. The lot has been cleared, graded and sown in grass and adds greatly to the appearance of the church property as well as providing some parking space.

On Sunday evening, October 22, Dr. Leopold submitted his resignation effective November 5, 1950, having accepted a pastorate at Swainsboro, Georgia. Dr. Stanfield was again secured for interim pastorage.

Rev. Howard Gordon of Louisville was recommended by the pulpit committee and on December 17 he received an unanimous call to the church. The parsonage was redecorated and occupied by the Gordons on February 1, 1951.

A church-type Hammond organ was presented to the church by Mr. and Mrs. John Delahunty on May 27, 1951. It was dedicated July 15 with beautiful and appropriate services. The Methodists, Christian and Lutheran churches dismissed their evening services to be present and members of their choirs joined with the Baptists in a glorious service of song led by Mr. Paul Chaney with Mrs. Harold McKibben playing the organ.

The same day at the morning service, the note for money borrowed from the Florence Building & Loan Association to help in purchasing the adjacent lot was burned, the entire amount having been paid.

Marvin Jones was issued a minister's license and enrolled at Georgetown College in September, 1951, to prepare himself for a preacher of the Gospel.

In November, Carillon Bells were purchased and installed and are used to carry the Gospel in music to the whole neighborhood. In December, Jean Bach returned home on furlough. She has spoken and shown pictures of Baptist work in Nigeria in many churches in Kentucky and in other states during the year. She will sail for Nigeria on November 21 to renew her work there.

Mrs. Emma Cleek, (Aunt Emma to the entire church) who for fourteen years had lived in her little house in the church yard and who by her personality and fine Christian spirit had endeared herself to all, quietly and peacefully slipped away to her heavenly home on March 18, 1952. The house, then becoming property of the church, was converted into much needed Sunday School rooms and the Junior and Intermediate girls' classes convene there. Judge Groves donated a piano for their use.

A record player was presented and connected with the bell amplifiers and twice weekly a program of music is played by it.
Rev. Gordon resigned August 3 and went to a church in Marietta, Georgia. Florence church was fortunate in securing Dr. George Redding, teacher of Bible at Georgetown College to supply until another pastor was secured.
A call was extended to Rev. Roy

T. U. director; Ira Owens, Brotherhood president; Blanche Beemon, W. M. U. president; and Jean Bach, missionary.

When Neighbors WORK TOGETHER They Find the BEST ANSWERS

Before farmers began working together in their national farm loan associations they were at the mercy of the money lenders. Interest rates were high, renewals were expensive if available at all, commissions were expensive, loans were made for short terms—everything was in favor of the lender.

Then, in 1917, farmers began working together cooperatively through their national farm loans associations and Federal Land Banks to get the BEST in farm loan service. In the years since the Federal Land Bank system was established there have been more improvements in the farm loan service available to farm families than in all the history of the United States up to that time.

It is generally recognized that every major improvement in farm mortgage loans during the past 35 years has been pioneered by the Federal Land Banks and national farm loan associations.

One of these improvements is our low 4% interest rate. Many lenders have raised their interest rates but the Federal Land Bank of Louisville still maintains its rate at the same low 4% that has been in effect since 1935. And the long-term without renewals, the privilege to prepay any amount at any time without penalty, no application fees, no appraisal fees, the future payment fund program, loans based on normal agricultural values—are other improvements.

It gives them an opportunity, by working together, to continue pioneering in making "The BEST farm loan in America" an even better loan.

Social Security Notes

Most persons who work at their own trades or business must pay social security taxes on their net self-employment income before March 15th. Many of them will pay these taxes now or in the very near future. The Social Security Administration calls attention to these important points:

1. Make sure you have the right to pay these taxes. If you are self-employed as a lawyer, doctor, accountant, clergyman, architect, engineer, farmer, funeral director, or in certain other professions, you cannot pay social security taxes.
2. You cannot pay social security taxes if your income is derived from rents, dividends on stock or interest on bonds, unless you are in the business of renting real estate or a dealer in stocks and securities.
3. You cannot pay social security taxes on your gross income from business. You must subtract the cost of the goods you sell and such business expenses as rent, labor, interest, and depreciation. Even a self-employed carpenter or electrician has the expense of purchasing tools and transportation to his various jobs. You can pay social security taxes only on the net income from your business, and only if this net income throughout the past year was at least \$400.
4. If you are a partner, you pay social security taxes only on your share of the partnership's profits and only on that if it is at least \$400 a year.
5. File your social security tax at the same time you file your income tax, but file it on Schedule C. If the Internal Revenue office did not send you a Schedule C, request one. You must fill one out to get credit for your net income for self-employment.
6. Fill out all of Schedule C including the bottom portion, even if you seem to be giving the same information twice.
7. Be sure to give your Social Security number. This is the same kind of number as that used by employees. It has three digits, a dash, two digits, a dash, and four digits, like this—000-00-0000. Do not use any other kind of number. If you

do not have a social security card, or if you have had one and lost it, or if you changed your name by marriage or divorce, go to the nearest social security office and secure a card with your correct number and name thereon.

8. Describe your occupation correctly. Do not say "Odd Jobs" if you really contract for carpenter work. The Social Security Administration has had to write and visit thousands of taxpayers to make certain they were really self-employed persons who had the right to pay

social security taxes.

9. Finally, the payment of your social security taxes is not voluntary. Unless your income is derived from a profession exempted by law, you must file Schedule C and pay Social Security taxes. You must do this even if you do not have to pay income taxes. Unless you pay your personal income taxes on a fiscal year basis, you must file Schedule C and pay a tax of 2 1/2% of any self-employment income from \$400 to \$3600 inclusive, on or before March 15.

When you pay self-employment Social Security taxes, you receive credit on the books of the Social Security Administration just as if you were paid wages. If you were in business all of 1951 and 1952 (and in many cases an even shorter time), you will be entitled to monthly retirement benefits if you are 65 years of age and no longer substantially engaged in business. If you die, your young children, widow and in some cases dependent parents and widower may receive important benefits.

For further information about social security, visit, write or telephone the Social Security office for Northern Kentucky located in the Post Office Building at Seventh and Scott Streets, Covington, telephone HEMlock 3274.

Traffic Lights Are Authorized At Eastern Ave., and Kentaboo Dr.

The State Highway Department has authorized placing of traffic lights on the Dixie Highway at Eastern Avenue, Elsmere, and Kentaboo Avenue, Boone-Kenton line, it was announced Wednesday night of last week.

In a letter to William Fitzgerald, Florence city clerk, state department officials promised the lights will be installed as soon as materials are available.

The Tri-City Council has been urging the state for months to put lights at the two intersections, which have been considered danger spots on the highway.

Walton Bearcats And Hebron Cards Conference Leaders

Burlington and Florence Suffer Defeat In Games Last Week.

Walton's Bearcats and Hebron's Cardinals replaced the Burlington Eagles and the Florence Knights at the top of the heap in the Boone County Basketball Conference as results of last week's games were tallied.

Hebron, going into the week-end's play had a record of one win and one loss, but they moved to the top with wins over the Eagles and Knights. The Bearcats had a two-one record and increased this to three-one with a win over the Knights. New Haven lost a non-conference tilt with Gallatin County in the only other game involving county fives.

Cards 84-Eagles 71

Hebron piled up a 21-10 first quarter lead over Burlington in their game at the loser's floor Friday night and though the Eagles played them on even terms thereafter they were never able to overcome the Card lead. Halftime score was 40-29 and the third quarter ended 60-49. The Cards, as usual, were paced by Crigger who potted the nets for 32 points. Braultigan with 16 and Anderson with 12 points aided the winner's cause. Jerry Ryle, Eagle forward, kept the Eagles alive with 36 points for the night. John Fair added 18 points for the losers. Hebron's Reserves won 38-35.

Bearcats 73-Knights 64

Florence took a 15-9 lead over Walton in the opening period, but the lead was short lived as the Cats poured in 28 points in the second period while the Knights scored 14 for a halftime score of 37-29 in favor of the winners. The Cats picked up four more points in the third quarter as they outscored the home team 17-13. Vest led the winners' attack with 21 points. Smith had 16 and Roberts 15 for the winning visitors. Luck with 19, Markesbery 14 and Hudson 10 paced the Knight attack.

Cards 72-Knights 61

Hebron took a 13-9 lead over Florence in the first quarter, but the Knights bounced back to outscore the home team 17-14 in the second period and thus cut the winners' lead to 27-26 at halftime. The Cards decided the game in the third period while scoring 21 points as the Knights were gathering only six. The losers held a 29-24 advantage in the last quarter. John Crigger had 37 points for Hebron and Anderson and Tanner divided 24 tallies. For Florence Markesbery had 22 points, Utz had 15 and Hudson 11.

Results of the New Haven-Gallatin County game were not received by this paper.

Arrangements are being made for an attendance of several thousand farmers, farm women and others interested in agriculture at the annual Farm and Home Convention at the University of Kentucky Feb. 3-6. This will be the 41st annual convention.

A general session for both men and women will be held Tuesday, the first day, in Memorial Coliseum. Three Given Fines In Boone County Court

Three motorists were given fines in Judge C. L. Cropper's Boone County Court Monday when arraigned on traffic violations.

Relford Reed, Cincinnati, was fined \$104.50 and his driving rights suspended for six months; after he pleaded guilty to a charge of driving an automobile when under the influence of liquor. He was arrested Saturday on U. S. 25 south of Florence, by Chester Henderson, state trooper.

Two other motorists were fined \$150 each when charged with reckless driving. They were cited into court by State Troopers.

Now Is Time To Test Soils, Says County Agent

County Laboratory Set For Use Of Local Farmers.

Have you had your soil tested? Boone County has a soil testing laboratory which has been set up for the farmers' use. S. R. Eichholz is the county testing technician and the fertilizer recommendation and the fertilizer recommendation will be given by the County Agricultural Agent, Joe Claxon.

Now is the time of the year to get a soil test, so that you may take immediate action if you want to be sure of having on hand the fertilizer you will need for 1953 planting operations.

Most soils will not supply all the plant food needed for good crops, additional plant food may be supplied in fertilizers. To buy and use fertilizer wisely is very important.

A soil test will give you the amount of plant food needed and you will be able to buy and use your fertilizers wisely. The test will give you the amount of lime, phosphate, and potash in your soil. Each test will cost 70c, this covering the cost of chemicals and testing.

Boone Co. Pupils Given Polio Dime Cards

Children Urged To Return Cards Before Close Of Campaign.

Parents of school children in Boone County were urged today to encourage small fry to fill their School Dime Cards and return them before the close of the March of Dimes on January 31st.

Pointing out that children under fifteen years of age constitute polio's principal targets, Mrs. Geo. Morith, county campaign director, cited the annual distribution of some 40,000 copies of Polio Precautions to school children as evidence of the interest which the National Foundation for Infantile Paralysis has in the nation's younger citizens.

Funds Work All Year

"The School Cards they fill and return to their teachers in January work all year round in providing the necessary care and treatment for every patient, in financing scientists who seek polio preventive, and in bringing information regarding possible polio safeguards to every boy and girl in the nation," Mrs. Morith said.

The campaign director emphasized that the card should be filled in even if not completely filled.

"We feel that through participation in a health crusade of special interest to them," she added, "children will learn the importance of personal and public health and be more ready to assume the responsibilities of citizenship."

The March of Dimes gives children an opportunity to help other children, not only in Boone County, but throughout the nation. Grown-ups can set an example for their children by joining with them in the March of Dimes.

Income Tax Man Will Visit County Feb. 11-12-18-19

Gray, announces that Agent from his office will visit Walton, February 11 and 12 and Burlington, February 18 and 19, 1953 for the purpose of assisting taxpayers in filing their final 1952 returns and their estimated returns for the year 1953. Their returns should be filed by March 15, 1953.

The Director of Internal Revenue urges that taxpayers desiring the above service list and total items relating to their income and their deductions, including allowable expenses, so that information necessary in the preparation of a return be on hand when availing themselves of this service which is absolutely free.

Mothers' March On Polio Planned For Three Local Towns

Will Climax 1953 March Of Dimes Campaign, Chairman Reports.

Porch lights will be burning for an hour thru Walton, Florence and Burlington tonight (Thursday), Jan. 29 when the Mothers' March on Polio will be launched as the climax of the 1953 March of Dimes. It was announced Tuesday by Mrs. John Kyle, Mrs. Holder and A. D. Yelton, chairmen of the March.

The burning lights in hundreds of homes will be the signal to an army of volunteer mothers that they will be welcome to receive contributions to the March of Dimes.

The March of Dimes Committee has designated the hour between 6:30 and 7:30 as the time for this dramatic windup of the campaign against infantile paralysis, the chairman declared. The local Mothers' March on Polio, they continued, is part of an identical nationwide movement in which hundreds of thousands of mothers will participate.

"Turn on your porch light to fight polio is the theme of this special appeal by the members of the nation on behalf of the men, women and children who have suffered from infantile paralysis," the chairman said. The lights of American homes, she continued, will serve as a symbol of hope to those who may be stricken in the future.

"Here's the way the Mothers' March will work," they said. "Between the hours designated, every resident in the three communities will be asked to turn on his porch light or to burn a light in his front window—if he wishes to make a contribution to the March of Dimes."

"Then the mothers will march, street by street, block by block, house to house receiving contributions to this year's campaign against polio."

Minimum Education Program Discussed By Groups Tuesday

H. N. Ockerman Is One Of Committeemen To Discuss Plans.

H. N. Ockerman, Boone County Superintendent and member of the 20-man Chamber of Commerce Committee on education met with the Legislative Committee in Louisville Tuesday to discuss plans for a "minimum educational program" in the 120 counties of Kentucky.

Mr. Ockerman, only member of the committee from Northern Kentucky stated that plans are being made to work out a minimum education program for the state, whereby every school will be required to reach a specified goal.

The Chamber of Commerce Committee is composed of four county superintendents and two city superintendents and noted educators throughout the state.

The four major points discussed by the group, Mr. Ockerman stated were teachers salaries and qualifications, school buildings, teaching supplies and transportation. "If the minimum education program can be worked out," Mr. Ockerman said, "many of the smaller schools throughout the state will be greatly benefitted."

Buying an automobile is an expensive proposition, requiring an investment of money that has been carefully saved over a period of time. Why gamble this money in an automobile purchase, when you can have a guarantee on your investment by buying your car from a registered dealer of new cars? A new car dealer does not have buyers who go around auctions. His used car source are the cars that have many satisfied, repeat customers turn-in on new cars. Most of the profit of a new car dealer is in his new cars, thus he does not have to charge sky-high prices for his used cars.

Castleman Pontiac has, for years, built and enjoyed an honest reputation in a valid and legal written guarantee on its used, recondition automobiles.

PROCLAMATION BY GOVERNOR WETHERBY

Due to request of the Kentucky Society of the Daughters of the American Revolution, Governor Wetherby issued the following proclamation—

TO ALL TO WHOM THESE PRESENTS SHALL COME: WHEREAS, the strength of our Nation depends upon the great principles of life, liberty and the pursuit of happiness for all people; and

WHEREAS, such goals can only be achieved if the youth of our Nation is educated and indoctrinated in these principles; and

WHEREAS, such education is now imperative because of the growing force of communism with its oppression of small nations which look to us for help and inspiration;

NOW, THEREFORE, I, Lawrence W. Wetherby, Governor of the Commonwealth of Kentucky, do hereby proclaim the month of February, 1953, as

AMERICAN HISTORY MONTH IN KENTUCKY and urge all homes, schools, colleges and universities and the people of Kentucky generally to especially emphasize American history during the month and to impart knowledge of the pledge of allegiance to the flag, the Declaration of Independence, and the Constitution of the United States.

Done at Frankfort, Kentucky this the ninth day of January in the year of our Lord, one thousand nine hundred and fifty-three, and in the year of the Commonwealth, the one hundred and sixty-first.

LAWRENCE W. WETHERBY, Governor

Kentucky is the only state in the union having such a proclamation although the societies in other states are working diligently to have the Governor of their states issue the same proclamation.

The Boone County Chapter Daughters of the American Revolution would like to see this proclamation carried out in all the schools and homes in the county.

Mrs. C. Davis Gaines, Americanism Committee, Boone County Chapter D. A. R.

Farm Facts FOR KENTUCKY FOLKS

by Wm. C. Johnstone
AGRICULTURAL REPRESENTATIVE
KENTUCKY BANKERS ASSOCIATION

Profit Facts

Farm profit is the difference between the price farmers get for their products and the cost of producing them. In 1953 the cost of production is expected to be up and farm prices down. Even though there is little the farmer can do to increase the price for his products, there are many things that he can do to hold down the production costs. As a rule, the higher the acre yield the lower the unit cost.

The Kentucky farmer that produces just average yields in 1953 will find the "going tough." So, throughout the year this column will touch on facts that tend to increase yields and lower costs. Most important of these are fertility, varieties, and "doing the right thing at the right time."

Fertilizer Facts

Supplies of fertilizers in 1953 are expected to be about 10% more plentiful than in 1952, which is fortunate because about 20% of our present day production is the result of added plant food.

The Kentucky Experiment Station says that lime, phosphate and potash, used in addition to manure on

experiment fields outside the Blue Grass, increased corn yields 35 bushels, wheat 16 bushels and hay almost 1½ ton. At the present prices of fertilizer and crops, each dollar invested in fertilizer returned \$7.00 in products. Higher yields and greater net returns would probably have been obtained from larger fertilizer applications and the use of nitrogen. The dollar returns from fertilizer on tobacco is usually at the rate of 10 to 1.

In 1935 Kentucky farmers used 55,000 tons of fertilizer. In 1951 they used 557,000 tons.

Variety Facts

For early seeded crops here are the recommended varieties: Oats, Andrews and Columbia; Burley tobacco, Ky. 16, 26, 35, 41A or 57; Red Clover, Kenland.

Census Facts

For the past 30 years the number of farms in Kentucky have been declining at the rate of 2,000 per year. During the past decade 78 Kentucky counties lost population, the greatest reduction taking place in Lyon, Trigg, Wolfe and Livingston Counties.

The number of farm workers declined at the rate of 10,000 per year during the past 15 years. In spite of this, Kentucky farmers are producing more than ever—a big factor being the increase in tractors—from 12,000 in 1940 to 59,000 in 1950.

Livestock Facts

Kentucky's 3.9 million head of livestock (exclusive of products) are valued at one-third billion dollars. But, Kentucky farmers are doing little to aggressively promote the improvement of livestock. Only 14 counties have organized Livestock Improvement Associations. Such local associations can do much to improve livestock quality and production methods. How about your county? If you do not have such an association, why don't you help organize one?

LEGAL HOLIDAYS

It is not generally understood as to the reason banks observe all legal holidays.

If a bank stays open on a holiday it takes certain risks in cashing checks on a depositor's account, notes must not be dated on a holiday and various other transactions would be illegal if handled on that day. For these reasons banks observe all legal holidays in order to avoid any liability.

This bank will not be open for business January 30th, Roosevelt's birthday, which is a legal holiday.

Children's Feet

N. TULCH

Foot Comfort Specialist at—
PEOPLE'S SHOE STORE
814 Madison Covington

I want to talk to you about your children and shoes they wear.

Maybe you never realized that the wrong shoes could be the cause of nervousness in your child.

I say "It is the duty of parents, school teachers and family physicians to help bring stability and strength to nervous systems."

Symptoms of nervousness in children are often forerunners of organic disease. From the physicians standpoint ONLY there are many things that make us nervous. The most important are:

1. Wrong diet. 2. Over fatigue and 3. Poor posture. Let me repeat the last and most important, POOR POSTURE, because you cannot have good posture unless your feet are fitted with proper shoes.

We all know how important posture is to the physical and mental development of a child. At home we teach our children to stand straight, to sit straight and to walk straight. . . that is we try to teach them how important it is. But sometimes, do you find that you are constantly reminding Billy or Mary to "SIT UP" or "STAND UP STRAIGHT"—almost to the point of nagging and even to the point of scolding.

If your child has poor posture—and it seems hard for him to remember to stand straight—I suggest that you take a look at his feet. And remember, when you want to scold him for drooping, that the child is no more responsible for his posture than for the food he is given to eat. There is some reason WHY he isn't standing straight and that reason may be weak, poorly constructed shoes that do not properly support body weight.

It's just in the last few years we have learned how important correct shoes are to our general health and especially to the health of a growing child. You see nine out of ten of us are born with good healthy feet that are able to carry our body weight properly on the outer weightbearing parts. It's only when we wear weak shoes that are not strong enough that our feet begin to roll in and arches flatten out, and when arches flatten out, nerves and blood vessels in the bottom of the feet are cramped, causing nerve reflexes and poor circulation that is the beginning of more serious trouble that may affect your entire body. And don't forget that during childhood is the time to protect feet so they will grow strong and healthy and not cause trouble later in life.

If you're the least bit suspicious or just to be on the safe side, bring Billy or Mary in, and our Foot Comfort Specialist will make a free foot analysis, and advise you as to the proper shoe your child should wear.—Adv.

When Neighbors WORK TOGETHER They Find the BEST ANSWERS

Before farmers began working together in their national farm loan associations they were at the mercy of the money lenders. Interest rates were high, renewals were expensive if available at all, commissions were expensive, loans were made for short terms—everything was in favor of the lender.

Then, in 1917, farmers began working together cooperatively through their national farm loan associations and Federal Land Banks to get the BEST in farm loan service. In the years since the Federal Land Bank system was established there have been more improvements in the farm loan service available to farm families than in all the history of the United States up to that time.

It is generally recognized that every major improvement in farm mortgage loans during the past 35 years has been pioneered by the Federal Land Banks and national farm loan associations.

One of these improvements is our low 4% interest rate. Many lenders have raised their interest rates but the Federal Land Bank of Louisville still maintains its rate at the same low 4% that has been in effect since 1935. And the long-term without renewals, the privilege to prepay any amount at any time without penalty, no application fees, no appraisal fees, the future payment fund program, loans based on normal agricultural values—are other improvements.

It gives them an opportunity, by working together, to continue pioneering in making "The BEST farm loan in America" an even better loan.

THE BOONE COUNTY RECORDER

ESTABLISHED 1875

VOLUME 77

BURLINGTON, KENTUCKY THURSDAY, FEBRUARY 5, 1953

NUMBER 28

Mobile X-Ray Unit Will Take Pictures Here Feb. 17-20th

Four Days Will Be Devoted To X-Rays In Boone County.

The T.B. mobile unit will visit Boone County for the purpose of taking chest X-rays February 17 through 20th, it was announced this week.

The mobile unit will be located at the Community Center in Florence on February 17th and 18th and at the courthouse in Burlington on February 19th and 20th.

Boone County residents have taken advantage of this service during past years, and it is expected that this year will be no exception. This service is free to public, it was announced. Persons having chest X-rays on the above dates will receive a report, concerning their picture. If picture shows any indication of being positive for tuberculosis, another appointment will be arranged and other pictures made.

This service has been highly beneficial in combatting tuberculosis throughout the state during recent years, and all Boone County residents are urged to visit Burlington or Florence on the above dates and have chest X-rays made.

Farm Report Must Be Filed Not Later Than February 15th

At Office of PMA In Burlington, According To Walter Brown.

Farmers participating in the 1952 Kentucky Agricultural Conservation Program are required to file reports by February 15, 1953, on conservation practices adopted on their farms last year in order to qualify for ACP payments, Walter Brown, clerk, announced this week.

On the use of materials supplied through the ACP, such as lime, phosphate, and cover-crop seeds, a report is required whether a payment is due the farmer or not, according to Mr. Brown.

Mr. Brown states that farmers in this county have been very slow in filing their reports. They are given special warning to have their reports filed not later than February 15th, if they desire to collect benefits from the program.

Receipts for materials used are required as a part of the farmers' reports on the kind and quantity of conservation practices adopted.

In 1952, for the first time, Kentucky farmers were required to designate in advance the soil and water conservation practices they planned to adopt to obtain ACP aid, either materials or payments. Farmers are eligible for 1952 ACP aid only on these designated and approved practices.

CONGREGATIONAL MEETING PLANNED

The congregation of the Richmond Presbyterian Church will hold a special congregational meeting next Sunday, February 8th after the morning worship service. Members are urged to attend.

Bloodmobile Will Visit Airport On Friday, Feb. 20th

Donors From All Sections Of County Urged To Contribute.

This visit will be a countywide collection Mrs. Nestor stated. Any person in the county desiring to contribute at this time should be present at the airport on the above date.

Mrs. Nestor reports that blood is urgently needed by the armed forces, and urges citizens of Boone County to keep this date in mind and plan to give a pint of your blood to help save the life of someone who is fighting for your freedom.

Notes and Comments

From the Editor's Desk

A Big Job

The Eisenhower administration is committed to go all out in eliminating and punishing official corruption, in reducing the cost of government and eventually cutting taxes, and in heavily slashing the tremendous public payroll.

It looks as if this last matter offers a fertile field for achievement. As everyone knows, the number of government employees grew almost incredibly during the Roosevelt and Truman administrations, entirely aside from those in the armed forces. And there is plenty of evidence that many of them are not needed, are overpaid by any reasonable standard in the light of the jobs they hold and the work they do, and have very dubious qualifications and abilities.

Early in January Senator Johnson of South Carolina, who is a Democrat, returned from a seven week foreign tour. He had gone abroad as head of a special congressional committee created to study American government personnel stationed in Europe and North Africa. And some of the statements he made to newspaper interviews should be of considerable interest to the taxpayers.

According to an AP account, Senator Johnson said that committee workers were shocked by the high salaries and luxurious living of federal employees in foreign lands. Some workers live in extremely expensive homes and apartments, with three or four servants. Stenographers earn as much as \$6,000 a year, with the foreign service allowances which are tacked on to their salaries, and have personal maids. Some officials, the committee found, put their European girl friends on the U. S. payroll, and took them along when they were moved from country to country.

Also, the interview went on, some of the highest paid and responsible overseas jobs had been dealt out on a political basis, to people who were woefully lacking in ability and experience. In many cases employees were kept on the payroll months after their work had been completed and there was no longer any need for their services.

If Senator Johnson and his committee are right, here is one place where waste is rampant. There is still another unhappy phase of the problem too—one which more and more European and American writers and editors have been commenting on. It is found in the fact that Europeans get an extremely distorted view of American life and the American people when they see our representatives abroad going in for plush high-life.

At any rate, the Eisenhower administration undoubtedly will soon get down to work on the problem of payrolls and overstaffed government bureaus at home and abroad.

There are large numbers of bureaucrats of high and low degree, without civil service status, who can be dispensed with if it is decided they aren't an asset which is worth the cost to the taxpayers.

Is Economy For Others Only?

"Everybody wants government spending reduced—except when it cuts into his own pet project." That is the theme of an article in National Business, written by George Cline Smith, aptly entitled "Economy Is For Others."

Mr. Smith cites case after case where this has been true. Farmers, business men, labor groups, veterans, state and local government officials and organizations—all are for strict economy as a general principle. But, more often than not, when some proposed reduction in federal spending will cut into what they consider their share of the pie, they howl to high heaven. We saw a sad example of this when the Hoover Commission's reports on government reorganization were made public. As Mr. Smith observes, "Everybody was for the Hoover recommendations in general. But on any specific point, powerful opposition developed." As a result, many of the most needed and most logical reforms recommended by the commission are still hanging fire.

Here is one big reason why today's federal tax bill averages \$1,389 for each and every American family—and why that family's share of the national debt is \$5,650. And it also is a reason why, believe it or not, the Treasury in one week of 1952 took in more money in taxes than in all of 1940!

The point is simple. The drive for economy in government must begin at the grassroots. It must begin with an overwhelming public demand for economy regardless of whose ox is gored—and regardless of selfish interests and special privilege.

Most Burley Marts Will Close This Week, Is Word

New Drop Noted In Average Price During Past Week.

Most burley markets throughout the state will close today (Thursday) according to reports.

With marketing of the record size 1952 burley tobacco crop virtually complete, only six markets remain open in the belt. Season gross sales stand at \$76,254,480 pounds. Last year \$50,296,939 pounds were marketed.

Sales last week dropped to 18,054,611 pounds as quality was poorest of the year. The weekly average was \$4.38 a hundred, a seasonal low. The season average is \$5.28. Covington will be the only one of six burley markets to remain open this week, with Carrollton and Lexington remaining in the open group. The Carrollton market will close Friday, while no date has been set for closing of the Lexington market.

A "cleanup" sale will be held at the Covington Independent and Kenton Loose Leaf houses today (Thursday) according to officials of the warehouses.

Although price averages are running behind those of last year, farmers this season have sold more tobacco for a greater gross return.

Local Farm Bureau Membership Drive Now Under Way

Benefits of Organization Outlined At Meeting Last Week.

The Boone County Farm Bureau membership drive got under way last week. Mr. Charles Wallace, director of research of the Kentucky Farm Bureau Federation in his talk to the membership committee outlined what Farm Bureau has done and is doing for the rural people, and stressed the need for an educational program to bring these facts to the attention of Farm Bureau members and prospective members.

The membership committee will make an effort to contact all members who have not renewed their 1953 membership to date and as many prospective members as possible and complete the membership drive by February 10. The membership committee serve without any pay and again urge your cooperation so that the 1953 membership goal of 800 may easily be reached.

The 1953 directors elected at the annual meeting on January 19, are as follows: J. C. Aylor and Sterling Dickey, Hebron district; Vaughn Hemphill and Gilbert Dolk, Constance district; M. K. Toadvine and Charles Allen White, Petersburg district; John T. Stevens and Robert Rogers, Bellevue district; H. E. White and Frank Maurer, Burlington district; L. H. Longtong and Grant Maddox, Florence district; J. Lassing Huey and S. W. Eichholz, New Haven district; J. B. Jones and D. E. Ogden, Hamilton district; Joseph C. Rouse and Harold Rosentel, Verona district; Beckham Shields and Ben F. Dixon, Walton district.

The amateur contest staged as a part of the annual Farm Bureau meeting on January 10 was very entertaining and successful. Ten contestants took part, which included singing, piano solo, instrumental music, band and acrobatics. First prize went to the Jumping Jacks, an acrobatic act from Verona, second prize went to the Charles Flynn trio, a boys band from Florence, and third prize was awarded Kay Ellen Arnold, who sang and yodelled, from Florence.

Yelton, Burlington; Sturgeon Electric, Walton; Mrs. John Kyle, Florence; John Crigler, Hebron; Mrs. George Morith, Florence; and any of the principals of the various schools in Boone County.

Although reports are incomplete, Mrs. Morith stated that early indications point to a successful drive this year.

The charge to the young minister was delivered by Rev. Schantz and the ordination prayer was led by Robert's grandfather, Lewis Jarrell, honorary elder of the church. Also participating in the service was the father, Mr. Hannan and other elders of the church.

Mr. and Mrs. Hannan entertained with a dinner in their home afterward. Their guests were Terry, Abernethy and Howard Montcastle. Robert's fellow classmates at Cincinnati Bible Seminary, Omer Schmeltzer, Miss Shirley Hannan, Mrs. Dale Nowlin and Mrs. Donald Hannan.

When Neighbors WORK TOGETHER They Find the BEST ANSWERS

Before farmers began working together in their national farm loan associations they were at the mercy of the money lenders. Interest rates were high, renewals were expensive if available at all, commissions were expensive, loans were made for short terms—everything was in favor of the lender.

Then, in 1917, farmers began working together cooperatively through their national farm loan associations and Federal Land Banks to get the BEST in farm loan service. In the years since the Federal Land Bank system was established there have been more improvements in the farm loan service available to farm families than in all the history of the United States up to that time.

It is generally recognized that every major improvement in farm mortgage loans during the past 35 years has been pioneered by the Federal Land Banks and national farm loan associations.

One of these improvements is our low 4% interest rate. Many lenders have raised their interest rates but the Federal Land Bank of Louisville still maintains its rate at the same low 4% that has been in effect since 1935. And the long-term without renewals, the privilege to prepay any amount at any time without penalty, no application fees, no appraisal fees, the future payment fund program, loans based on normal agricultural values—are other improvements.

It gives them an opportunity, by working together, to continue pioneering in making "The BEST farm loan in America" an even better loan.

**Social Security
Benefits Tax Free**

Joseph T. Ware, manager of Social Security office at 7th and Scott Streets, Covington, states he has received many inquiries regarding the taxing of beneficiaries' wages and incomes. Social Security benefits are tax free, but if the beneficiary earns money in covered employment, he must pay Social Security taxes on this if it amounts to \$400 or more.

Beginning with September, 1952, a retired worker or business man over 65 is permitted to earn up to \$75 a month and still receive his Social Security payments. He can also receive his Social Security payments for every month if his net income from self-employment does not exceed \$800 a year, or if he is not rendering substantial services in connection with his business. These wages and profits, however,

are not tax free. Even if the beneficiary's income is so small he does not have to pay ordinary income taxes, the employer must deduct Social Security taxes from his pay, and he himself must pay Social Security taxes on his business profits unless they amount to less than \$400 per year. After a worker or self-employed person is 75 years old, he may receive any amount of wages or self-employment income, no matter how great—and still draw his benefits. The benefits will be tax free, but the wages and self-employment income will be subject to Social Security taxes unless, in the case of self-employment income, it is less than \$400 a year.

The Division of Weights and Measures of the State Department of Agriculture is charged with the responsibility of checking all weighing and measuring devices in the state—from grocery scales to gas-line pumps.

Mr. and Mrs. Ed Peel, son and daughter, of Hebron, were Sunday guests of Mr. and Mrs. Lehman Hollis. Mrs. Bertha Huff called in the afternoon.

Mrs. Goldie Crisler called on Mrs. Thos. Huff Tuesday. Mr. and Mrs. Garland Huff called Saturday.

Mr. and Mrs. Arch Redding called on Mr. and Mrs. Dewey Crisler, Saturday.

Mr. and Mrs. Dewey Crisler called on her mother and brother Mrs. Kate Drysdale and son Ernest in Erlanger, Sunday.

Attention was first focused on the breeding possibilities of the Blue-grass in 1775, when Daniel Boone asked the Virginia Legislature to do something about improving the quality of the horses in what was then the county of Kentucky.

Boone County Residents Urged To Give Pint of Blood When Bloodmobile Visits Airport Friday, February 20th

Unit Will Be Stationed At Local Airport From 1:00 P. M. to 7:00 P. M.; Donors Urged To Call Workers and Make Pledges.

Mrs. Alan Gaines, county chairman of the Boone County Chapter, American Red Cross is again asking that as many people as possible give blood when the Bloodmobile makes a visit to the Boone County Airport on February 20th from 1 to 7:00 p. m. Blood is urgently needed.

Don't forget those boys who are fighting so valiantly for you, so that you may stay in the warmth and privacy of your home while they are living in fox holes and the snows of the winter in Korea, waiting—waiting for what? For the thrust of a Communist gun or a grenade thrown into their midst. Can anyone who is in good health and able to give blood deny this precious gift to these fighting men?

The Cincinnati Enquirer of Sunday, February 1 stated that there are several young American men who are walking around today with only Japanese blood in their veins. This is due to war in Korea and the need for blood to save lives of wounded fighting men. "Sorry to say," the Enquirer goes on, "that blood donors in the United States are not sufficient to meet battlefield demands. When a soldier gets a leg blown off or is chopped up by a machinegun, it takes a lot of blood to save his life. So, if there's not enough American blood, the wounded soldier gets Japanese blood. More than 7000 Japanese blood donors have donated blood to save the lives of fighting men in Korea even though the Japanese have no troops in the war."

Thirty-four Japanese who voluntarily donated more than a gallon of their blood have been specially cited by Major General William E. Shambaugh, chief surgeon of the U. S. Far East Command. Fourteen of the "galloneers" are women who gave it in eight one-pint takes in about two-month periods. Heading the list is a 19-year-old law student, Mitsui Uehara who gave 13 pints. He said he had given his blood "not for the sake of an international incident, but for the sake of human-

Florence Planning-Zoning Commission Completes Work

Plan Is Adopted At Meeting of City Council Last Week.

After many months of study the Florence Planning and Zoning Commission has completed its work in preparing a proposed Zoning Ordinance for the City of Florence.

This proposed ordinance was presented to the Florence Board of Trustees at its meeting on February 3, 1953, with the recommendation that it be adopted.

After some discussion the plan was adopted as Florence City Ordinance No. 250. Enforcement of the provisions of the Ordinance will be under the direction of Mr. Clarence Weing, the Florence Building Inspector.

Copies of the Ordinance are being posted on the Town Hall, on the corner of Main and Youell streets and in front of the Florence Post Office. Copy is being filed with the Boone County Clerk and will also be available at the City Clerk's office at his home on Dorthe Avenue.

A map showing the different zones into which the city has been divided has been prepared. At present only one map is available. Others will be published as soon as possible.

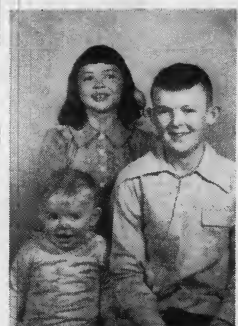

Mr. William Meiners is chairman of the Planning and Zoning Commission and William Fitzgerald is secretary. The ordinance provides that the chairman of the Florence Board of Trustees shall appoint a Board of Adjustment to consider any appeals from the provisions of the ordinance. Announcement of the appointments will be made at a later date.

Other members of the Planning and Zoning Commission are G. R. Scott, Al Becker, Frank Trego, W. E. Morgan and Wilmer Osborne.

Boone Health Dept. Gives Tips On How To Prevent Flu

Seven Steps Outlined As Preventive Measures.

The Boone County Health Department has listed tips on how to prevent influenza. The seven steps listed by the department are as follows:

1. Stay out of crowds. Flu goes from one community to another. It spreads rapidly. Don't try to contact the virus.
2. Avoid direct contact with anyone who sneezes or coughs carelessly.
3. Build up your body resistance by eating properly. Eat those foods that make you strong. Perhaps you can counteract any flu germs thrust in your direction.
4. Avoid chilling the body. Be careful of sudden weather changes. Stay out of drafts.
5. Wear suitable clothing that's warm and dry. Bundle for the breeze.
6. Get enough sleep and rest. Don't overdo when you are tired.
7. Exercise and inhale a little fresh air.

Influenza in itself is not dangerous, but it opens the channels for more serious complications. If influenza becomes an unwelcome visitor to your home, call your family physician, go to bed and remain until you are well again. Persons desiring further information concerning the above subject should contact the County Health Department.

Cropper, Joe Rouse, Raymond Combs, Watson Craft, Mrs. John Hill, Elmer Justice, Duncan Huey, Mrs. Sibbi Reimer, Frances Seebree, Vaughn Hemphill, John Conner, Lloyd Siekman, Lillard Scott, D. E. Ogden, V. V. Hill, Robert Slayback, Mary Hood Lutes, Walter Scott, Sam S. Hill, Jr., Emerson Smith and Mrs. William Hill.

A meeting of the committee will be called at a later date, Mr. Ockerman reported, at which time everyone will be acquainted with the entire program.

Construction Work On New School Progressing Nicely

Brickwork Will Begin During Spring Months, According To Report.

Construction work on the new Florence high school building is progressing nicely, it was announced last week by H. N. Ockerman, superintendent of Boone County schools at a meeting of the board. Contractors on the project are now ready for steel and brickwork but due to the weather, work on this phase of the project will not begin until the spring months. This was a mutual agreement between the architect, H. Richard Elliston, the general contractor Derby Construction Co., and the school board. Mr. Ockerman reported that 2222 pupils were attending school in the Boone County school district. This does not include pupils attending school in the Walton-Verona independent district.

Resignations Accepted
The school board voted to accept the resignations of David and Edith Caudill, now teaching at the Hamilton school, effective at the close of the sixth school month. Mr. and Mrs. Caudill are resigning to devote their full attention to the management of their farm near Waterloo.

It often seems to parents that children are little one minute and are grown up the next, so fast does a child's growing stage pass. Here is a splendid opportunity to catch a likeness of your child or children at this present stage for the pleasure you will enjoy in seeing it in print. You will want to clip it from this, your home town newspaper, and preserve it for the youngster when he or she grows up. There is absolutely no charge or obligation for taking the pictures. Parents don't even have to be a subscriber to The Recorder, nor even a reader. You do not have to purchase pictures either, though you may obtain additional prints by arranging direct with the Studio representative if you want them. That is entirely up to you!

The Woltz Studios representative will be at Florence Friday, February 20 from 10:00 a. m. to 6:00 p. m. at the Florence Motel.

Fire Destroys Elsmere Home

Fire destroyed the interior of the one-story, three-room frame home of Mr. and Mrs. Clifford Brown, 568 Palace Avenue, Elsmere early Sunday, causing damage estimated at \$2000. The fire was caused from a defective flue.

Mr. Brown awakened his 18-year-old son, who was asleep in another room and they escaped without injury. The two were the only occupants of the home at the time of the blaze.

The intense heat prevented firemen from saving furniture and clothing.

Neighbors of the family assisted the Browns in finding clothing and furniture to replace the lost articles.

When Neighbors WORK TOGETHER . . .
... They Find the **BEST ANSWERS**

Before farmers began working together in their national farm loan associations they were at the mercy of the money lenders. Interest rates were high, renewals were expensive if available at all, commissions were expensive, loans were made for short terms—everything was in favor of the lender.

Then, in 1917, farmers began working together cooperatively through their national farm loan associations and Federal Land Banks to get the **BEST** in farm loan service. In the years since the Federal Land Bank system was established there have been more improvements in the farm loan service available to farm families than in all the history of the United States up to that time.

It is generally recognized that every major improvement in farm mortgage loans during the past 35 years has been pioneered by the Federal Land Banks and national farm loan associations.

One of these improvements is our low 4% interest rate. Many lenders have raised their interest rates but the Federal Land Bank of Louisville still maintains its rate at the same low 4% that has been in effect since 1935. And the long-term without renewals, the privilege to prepay any amount at any time without penalty, no application fees, no appraisal fees, the future payment fund program, loans based on normal agricultural values—are other improvements.

It gives them an opportunity, by working together, to continue pioneering in making "The **BEST** farm loan in America" an even better loan.

Mr. and Mrs. James (Pete) Carpenter and two small sons departed February 3 for Gainesville, Fla., where he will continue studying for his goal of Doctor's Degree in Agriculture. He previously attended the University of Kentucky and received his Master's degree in January. Mr. Carpenter's education is rather outstanding in that he was never afforded the opportunity of attending high school due to a hospitalization period of almost a year for burns and plastic surgery following which he entered World War II serving in Japan where he was stricken with typhus and malaria.

When he returned to the states hospitalization was again necessary for a repeat of plastic surgery and during this period he took a short course of high school and received his diploma from Florence High. Mr. Carpenter will teach while attending school in Florida. His experience proves the adage, "Where there's a will there's a way." His friends join in wishing him the best of luck.

Mr. and Mrs. Clyde Arnold entertained with a family dinner party Sunday honoring their son Buddy, who was celebrating a birthday. Other guests were Mrs. Buddy Arnold and Deborah, Mr. and Mrs. Verne Arnold and family, Mr. and Mrs. Walter Kirkpatrick and son and Mrs. Charlotte Wilson.

CARD OF THANKS

We want to express our thanks to all our friends and neighbors for their kindness at the time of the illness and death of our beloved husband and father,
Morton J. Brady
We feel unable to put into words how much we appreciated your expressions of sympathy or to mention by name all those we remember with gratitude; but we especially want to thank the Rev. Bro. Johnson for his consoling words and prayers; Dr. Nunnally for his untiring services; and the pall

bearers and the W. Ralph Stith funeral home for their sympathetic help.

HOG, LAMB PRICES MAY SHOW INCREASE

A farm outlook report of the University of Kentucky indicates that seasonal price increases may be expected to continue through much of February for lambs, hogs and vegetables.

High level of business activity and rising wages should hold up the strong demand for all kinds of farm products, it is stated.

A large number of cattle are being fed this winter, and prices may be lower for the top grades of prime and choice animals. Lower grades may remain about steady, as the number of such cattle on wheat and other pasture in the Midwest is below normal.

Hog prices are expected to work higher, as receipts drop off, due to heavy selling of spring pigs early in the season. The short corn crop, low hog prices and high prices for corn and mixed feeds have caused a decline in hog-raising in Kentucky. Farmers have reported they planned to farrow almost a third

fewer sows than a year ago. Heavy supplies of beef may hold down pork prices.

Prices received by Kentucky farmers for milk and butterfat are expected to decline for a month or more yet. In fact, prices already have dropped as a result of favorable production conditions following the drought last summer. However, farmers in this state got higher prices for graded milk during the latter part of 1952 than they did a year earlier.

Egg prices may be expected to stay around present levels. Steady to lower prices for broilers and steady to higher prices for hens are

in prospect for the period just ahead. The report says lamb prices should rise during February as market supplies decline. As few sheep and lambs are on feed than a year ago, marketings during the remainder of the fed-lamb season will be lower than in the same period of 1952.

Florence Youth Drowns In Ohio River Sunday

Boat Is Swamped By Waves Of Passing Barge, Report.

William Dalton, 17, of Kentaboo Drive, Florence, drowned Sunday night in the Ohio River near Gunpowder Creek, when the rowboat in which he and two companions were was swamped by waves from a passing tow of barges.

His companions, Harry G. Dames, 19, and William Henneman, 18, both of Florence, told William McEvoy, County Attorney of Boone County, they were coming into shore when the tow passed them.

The small rowboat sank immediately when the waves swept over the side. All three started swimming in the swiftly moving water. The Dalton youth was within 15 feet of shore when he sank.

His companions made an effort to reach him but were unable to because of the swiftness of the current and cold temperature of the water.

Robert Brugh, Boone County coroner, state police and deputies from the sheriff's office searched until 4:30 a. m. Monday without a trace of the body.

Hoop Conference Race Tightens As Season Progresses

Walton, Hebron and Burlington Tied For Top Position.

The Boone County Basketball Conference race is getting "tighter" than the proverbial sailor on his first leave. As a result of last week's league tilts three teams, Walton, Hebron and Burlington, are holding on to a share of the top spot with identical 4-2 records. Florence's Knights are only a step behind with a 3-2 total and they are riding on a six-game winning streak. New Haven seems to make trouble for their opposition in practically every contest but just can't seem to get into the win column.

Important Contests Coming Several very important games are on tap this week, any of which could and probably will have a terrific bearing on the Conference title. Friday night Coach George Gaines will take his red-hot Knights to Walton to battle John Durham's Bearcats. Walton holds an earlier win over the Knights. On the same night Hebron's Cardinals will entertain Red Perkins' and his New Haven Tigers. Burlington, the other conference quint, goes out of the county to play the Covington Catholic Colonels at Covington. The Eagles hold an early season win over the Colonels.

Eagles vs. Knights On Saturday night, Feb. 21, after the Burlington Eagles take part in the crowning of the Basketball Queen, Miss Peggy Kelly, they will attempt something they have been unable to do in two other tries this season - defeat the Florence Knights. The visitors defeated Burlington in the mid-season School Newspaper tourney and three weeks ago they trimmed the Eagles at Florence. The outcome is extremely important to Coach Maurer's quint and depending on the Walton-Florence game of Friday night it may even be more important to the Knights.

In games last week Walton defeated New Haven by a 60-00 score at the losers floors, Burlington upset the Hebron Cardinals 55-54 at Hebron and Florence trimmed Gallatin County 67-54 and Williams-town 70-65. Earlier in the week Hebron took a 78-74 decision over Beechwood at the losers floor, Florence defeated Ludlow 55-45 and Erlanger Lloyd dethroned Walton, Verona 67-60. New Haven dropped a 66-54 loss to Covington Catholic Saturday.

Remaining Schedule

Feb. 20: Florence at Walton; New Haven at Hebron; Burlington at Covington Catholic.
Feb. 21: Florence at Burlington.
Feb. 24: Hebron at Ludlow.
Feb. 27: Burlington at Walton; Hebron at Florence; Holy Cross at New Haven.

State Will Honor Commitments With Indiana Officials

Kentucky Will Not Take On Additional Projects Being Asked By Indiana.

Commitments made in a contract signed by the Governors of Indiana and the Bluegrass for improvement of the Boone County outlet from the planned Lawrenceburg-Petersburg bridge will be honored, it was reported last week by W. F. Curdin state highway commissioner.

Kentucky will not take on additional projects now being asked by Indiana, Mr. Curdin reported. Kentucky has agreed to improve the connecting roadway between the bridge approach in Kentucky to the Greater Cincinnati Airport road, and will eliminate several narrow bridges along that Kentucky 20 stretch.

Mr. Curdin admitted Indiana, apparently faced with problems of financing the new bridge, recently has asked Kentucky to carry the additional expense of approach work on the Kentucky shore.

Kentucky is not in position to take over work on the actual approach—a project which Indiana agreed to undertake in the initial contract, Mr. Curdin said.

Work for which Kentucky is committed, with the Indiana Bridge Commission's construction of the span, is to cost an estimated \$100,000 according to Mr. Curdin.

New Standard
in all-round usefulness

The Allis-Chalmers Rear-Engine Model G does all the usual field jobs . . . plus many others that regular farm tractors are not designed for. Here's truly a new standard in usefulness.

Look at these features: Engine in the rear; more weight on drive wheels for better traction. All implements front-mounted, clearly in view of operator. Large assortment of quick-hitch implements to choose from.

In addition to general work, the creeper gear and tools-in-front design make the Model G ideal for truck crops, strawberries, and all types of farming where power tools must work with the precision and skill of a hand hoe.

We'll be glad to demonstrate.

Brotherhood Dinner Planned At Florence Christian Church

Many protestant bodies in the U. S. are again promoting "One Great Hour of Sharing" on Sunday, March 8th. The Disciples of Christ is one of the cooperating bodies, but will make its offering during the "Week of Compassion," February 15-22.

In cooperating in this "One Hour of Sharing" Christian Churches will again help to reflect a united voice for the ecumenical fellowship in Christian sharing.

Preparatory to the "Week of Compassion" services at the Florence Christian Church, the pastor, Rev. Richard White gave sermons on compassion Feb. 8 and Feb. 15. On Friday, Feb. 20 in connection with the "Week of Compassion" program a Brotherhood dinner will be served in the basement of the church and the speaker for the occasion will be Rev. Ben Hobgood, who was born in the Belgian Congo and who is now in training to return on the field as a missionary.

Rev. Hobgood's parents were Disciple Missionaries in Africa.

To this dinner an invitation is extended to members and friends of the church. Everyone is to bring a covered dish and be on hand Friday evening.

The total goal set for the "Hour of Sharing" for all the churches of the Brotherhood is \$500,000. This sum is to be used for the purpose of giving new hope to the disillusioned people of the world and for the strengthening of universal Christian witnessing.

On the home field the churches carry on a cooperative ministry with the Committee on Military and Veterans' Services in seeking to establish new churches in major defense area.

Local Boy Stationed At Fort George Meade

Fort George G. Meade, Md.—Pvt. Paul E. Feldhaus, 19, son of Mr. and Mrs. Charles Feldhaus, residing at Burlington R. 2, has arrived at the 2053 Army Reception Center here, where he will receive his initial indoctrination into the Army.

He will receive his uniforms, be classified as to skills and aptitudes, and will be selected for that branch of the Army for which he is best qualified. From here he will be sent to an Army installation for basic training in that branch of the Army for which he is selected. After basic training he will receive advanced training at installations of the Army Technical Services or schools; or he may be assigned to the Army Field Forces.

The 2053rd Reception Center is part of Fort George G. Meade, Md. Col. F. M. Harris, Commanding.

East Bend Baptist Church Progressing

On Sunday, February 8, 1953, the East Bend Baptist Church, of which Rev. Donald White is pastor, held its first services in the new pews which have been installed in the church auditorium. Recently the church has undergone a redecorating process. The two front doors have been replaced by a vestibule with one large double door placed in the center front. A bell tower, with bell installed, has been added. New hardwood floor has been placed in the church auditorium and all new church furniture has been purchased. The interior of the church has been newly painted.

While a contract was let for the building of the church vestibule and bell tower, all the other work has been done by faithful and interested members.

The change made on the interior of the church by the new floor and furniture is most outstanding. Not a member of the church could remember the installation of the old pews. They were hand made and were characterized by the built-in partition up and down the middle of the auditorium.

The church is yet looking forward to a few other improvements, one of which is the purchase of a rug. Dedication services will be held as soon as is convenient.

Not only is the church making great strides in physical improvements, but also spiritual growth is manifest in the fact that a Baptist Training Union has been inaugurated and is under way at the church each Sunday evening. The Sunday School and Missionary organizations of the church also show a steady growth and attendance upon the worship services of the church shows an increase. The members of this church are rightfully proud of their recent achievements.

Missionary To Speak At Florence M. E. Church

Miss Lillie Mae Ammerman, a missionary from the British East Africa field will be a guest speaker at the Florence Methodist Church, Wednesday evening, February 25th at 7:30.

Miss Ammerman is a native of Cynthiana, Ky., and a former resident of Asbury College. She is an interesting speaker and has inter-

esting stories to tell of incidents on the field, of experiences with children and of the working of the Lord among the natives there. Her messages are an inspiration to those who hear her and her humble spirit will be a blessing to everyone with whom she comes in contact, and she also will show motion pictures of the work in Africa.

We cordially welcome all churches to come and hear this young missionary.

In a certain City a poll was taken of 20 people to list a dozen positions they would prefer if they had to change jobs. Not one listed banking.

When Neighbors WORK TOGETHER . . .**. . . They Find the BEST ANSWERS**

Before farmers began working together in their national farm loan associations they were at the mercy of the money lenders. Interest rates were high, renewals were expensive if available at all, commissions were expensive, loans were made for short terms—everything was in favor of the lender.

Then, in 1917, farmers began working together cooperatively through their national farm loan associations and Federal Land Banks to get the BEST in farm loan service. In the years since the Federal Land Bank system was established there have been more improvements in the farm loan service available to farm families than in all the history of the United States up to that time.

It is generally recognized that every major improvement in farm mortgage loans during the past 35 years has been pioneered by the Federal Land Banks and national farm loan associations.

One of these improvements is our low 4% interest rate. Many lenders have raised their interest rates but the Federal Land Bank of Louisville still maintains its rate at the same low 4% that has been in effect since 1935. And the long-term without renewals, the privilege to prepay any amount at any time without penalty, no application fees, no appraisal fees, the future payment fund program, loans based on normal agricultural values—are other improvements.

It gives them an opportunity, by working together, to continue pioneering in making "The BEST farm loan in America" an even better loan.

Doing an injury puts you below your enemy. Revenging one makes you but equal with him. Forgiving one sets you above him.

Sad News

School was opened Monday morning with the sad news of the drowning of William Thomas Daulton, of Kentaboo Drive. He was born December 6, 1935.

He attended Florence High School and was a member of the ninth grade class. Very popular among the school fans, he played basketball for the reserve team, was a regular play on the football team, and was associated with the H-Y club.

Constance Club Begins Work On Boone Co. Booklet

The 345 Citizenship Club (3, 4, and 5 grade) is working on a Boone County booklet which will contain facts about the county, such as the towns, schools, county officials, creeks, roads, industries, churches, and other organizations.

The "Better English" committee sent out ten Valentines to boys in the armed services.

The third, fourth, and fifth grades had a doll show and a kite flying contest in connection with the Valentine party last Friday.

Dianna Prabel won first prize and Judy Kottmyer second prize in the large doll group. Patsy Loze was the winner of first prize and Beverly Romans second prize in the small doll group. Mr. Lents sponsored the contest.

The entire school enjoyed the Valentine party at the school Friday afternoon. Refreshments were served.

The school was fortunate to have seen the inauguration of President Eisenhower on television, thanks to Mr. and Mrs. James Kottmyer, who were kind enough to lend their set to the school.

The P. T. A. met at the school Wednesday evening February 18th. A large crowd was present. The men are more interested in the P. T. A. now as the meetings are in the evening. Refreshments were served.

The flu bug has bitten several pupils, and they were absent from school several days. Among those absent were Donald Souder, Joe Klassner, Jimmy Caseldine, Roy McGinnis, John Moyer, Roberta Hardin, Jack Moyer, David Davis, Danny Turner, Frankie Dolwick, Ernie Mobarly, Jackie Coyle, Betty Moyer, Charles Masters, John Loze, Jimmy Klassner, Edgar Herrington, Gene Hankins, Bobby Austin, Billy Herbstreit, Karen Kimich, Judy Klassner, Billy Ballinger, Ronnie Herbstreit, Jane Kottmyer, Gary Sprague, Lonnie Fugate, and others.

Among the visitors to visit the school recently were: Supt. H. N. Ockerman, Mrs. Sibbia Reimer, Ruby Caldwell, Pvt. Charles McNichols, Mrs. Ruth Kottmyer, Mr. and Mrs. Harold Prabel, Corp. Wm. Moyer, Elmer Adams, Mrs. Katharine Hankins, Harry Klassner, Mrs. Vera Masters, Mrs. Reba Ellis, Mrs. Ralph Sprague, Mrs. George Sprague, Mrs. Gloria Mobarly, Mrs. Elsie Romans, Mrs. Melvin Dolwick, Mrs. Frank Davis, Mr. and Mrs. Leo Cotton, Joe Klassner, Sr., Marion Rose Caseldine, Ruth Reeves, Mary Sue Reeves, Paul Mc-

Glasson, June Snelling and others.

Sense and Nonsense
Anthony Duerring has been talking to Barbara Crutchleo. Could it be that Gail Houpp has changed to Bobby Austin?

Nancy Morehead seems to have taken Richard Daulton away from Selma Jean McGlasson, and Selma Jean has been down in the dumps about it.

Milk must be rationed. Edgar Herrington and Mary Beth Hemphill drink milk from the same bottle.

Jimmy Caseldine and Emma Lou Daulton seem to be agreeing about many things recently. Look out Shirley Masters, you will lose him.

Ronnie Crutchleo has been trying to interest Gail Houpp since Betty Moyer has been absent from school on account of the flu. Better hurry back, Betty.

Jimmy Klassner seems to have taken a lot of interest in the Florence basketball team recently. Could it be a Florence girl has captured his attention? Jackie Coyle wants to know.

Emily Rudisell, Aneta Hemphill, and Pat Joseph are trying to get Charles Masters' attention, but up to now, Pat Joseph seems to be the only one that has had any success.

Mary Ballinger says that she did not worry about anybody taking Don Tunning from her.

Louise Keaton seems to have lost interest in Jimmy Hankins. Could it be because his brother, Lewis is older and sits close to Louise?

What is the matter with Billy Herbstreit and Elva Ann Dolwick? It could be that Bertha Rudisell has cut in.

Jackie Coyle, Reporter.

Safety Patrol Members Take Oath In Special Program at Burlington

The Safety Patrol Program of Burlington School is well underway and working out successfully.

A special meeting was held on January 20, before the entire High School, for the installation of the Trooper members. The meeting was held and conducted by Cpl. Robert Moser, of the State Police.

The Trooper members sworn in at this meeting were Jean Ryle, Bonnie Cook, Marelena Faulkner, Lillian Johnson, Shirley Portwood, Charles Bodie, John Sebastian, Carl Cave, Billy Hill, Donald Carpenter and Neil Voshell.

The duties of the School Troopers are to assist school children when crossing streets or highways, especially boarding and leaving school buses and various other duties such as assisting during assembly and fire drills.

We believe with each Trooper doing his duty and the cooperation of the driving public, that we can avoid accidents to all school children.

4-H, UN Contest and March of Dimes Features News

Attendance for the fourth month was 97% and for the fifth month 94%. Honor roll pupils for the third period were Lawrence Webb and Shirley Frazier of the sixth grade and Fay Etta Webb of the eighth grade.

The 4-H Club has been organized with 10 boys and 9 girls enrolled. The officers are Mary Gertie Miller, president; Joyce Ann Duvall, vice president; Blanch Utz, secretary; Shirley Frazier, song leader; and Mr. W. E. Strader, Community leader. Project captains are to be chosen at our next meeting which is to be February 18th.

We are grateful to the parents and friends who helped us in the March of Dimes campaign. Estimating 17 dimes to the foot, the amount of money we raised in terms of feet would determine a line over 9 feet long. (The amount \$15.35). Blanch Utz of the seventh grade reported the longest segment of the line, almost 2 feet. (The amount \$3.00). We are taught, it is not what one gives, but what one shares that makes for real happiness.

Elizabeth Strader, one of our graduates, who is now a Senior at Lincoln Institute of Kentucky, has been selected as one among the top five to represent the school in an essay contest sponsored by the Louisville Board of Education. The contest is pertaining to the United Nations. The first prize is \$500.00 or a trip to Europe. The next sixteen prizes are four-year scholarships in any college in the U. S. A.

Harry Hart, the famous Irish tenor, will present a program February 27 at 10:30 a. m. at Burlington High School, it was announced by Edwin Walton, principal.

The program is filled with one surprise after another, sparkling with humor, novelties and originality.

Mr. Hart does songs in national character and language . . . but which can be understood by everybody. He brings the melodies and voices of ten different countries in many languages and to all points of the musical compass.

It was also announced by Mr. Walton that Gus and Casey Augsburg will present their Jungle Wonders March 12 at 10:30 a. m. It is a program of fun, science and excitement.

Goad Committee

The News commends those in charge of selecting the Boone County Committee for the Minimum Education Program of the state of Kentucky. The program itself seems, to say the least, a step forward for education in Kentucky. The Boone committee is composed of a genuine representative group both geographically and from public interest standpoint. Most of the professions and many types of business leaders were named.

We trust that this committee of capable men and women will go beyond and above their call to duty to render a service to the youngsters of our state.

A REMINDER

The News would like to remind Boone Counties that the Bloodmobile will make a visit to the Boone County Airport on February 20 from one to seven o'clock.

Great Loss

Boone County Schools lost a lifelong friend and supporter in the death of Mr. Hubert Conner, of near Hebron. Mr. Conner had served as a member of the Boone County Board of Education for thirty-five years, besides being active in many other fields of civic endeavor.

Supt. H. N. Ockerman, in speaking of Mr. Conner's death, told the News that he felt Boone County had lost one of its most valuable citizens. Mr. Ockerman said Mr. Conner had always showed a keen interest in school problems and that he displayed an unusual knowledge of the school programs.

This paper, speaking for the school system, extends sympathy to the family.

Florence Writer Says Everyone Can Enjoy Music

By Newell Graham

When Mr. Victor Bruner, the School News Supervisor at Florence High School, came to me and asked me and asked me to write a "feature article," I must admit I was rather, shall I say, at a loss. I was at a loss both for something to write about and how to put it across. I was faced with the problem of preparing an article that would be both beneficial and something that would appeal to high schoolage people. After a long session of thought I decided to write about the "universal language" as music is sometimes called.

We all have our favorite kind of music whether it be popular, classic mountain style or last, but very definitely not least, the higher classic such as opera or symphonic music. I would doubt whether any of us really "go for" the latter type of music. This is not wrong but we should try to broaden our vocabulary to include fields of music.

It was once said that everyone can enjoy music. This is true, but unfortunately all of us don't take advantage of this privilege.

In trying to give an explanation of music in general, I offer a sort of tone poem that gives in my opinion, the true meaning of music.

Music is something that changes your mood. It can make you happy, Or it can make you blue, Music is the story of love, The story of hate, The story of anger, The story of fear, The story of suffering, The story of happiness, Music is life set to music.

The blues—it can be a rainy day, Or a broken romance, All music symbolizes a mood, Music is people.

Right about now, you are thinking that yours truly had better have another session of thought. Maybe so, but I believe music is a mood. In the symphonic type of music, it is easily noted that every individual composer has his own style which shows up greatly in his music. Perhaps you can recognize that the composer's disposition is cold and harsh or happy and gay. It is rather easy to recognize traits in music.

Future Homemakers Thru The Keyhole Group Reviewed By News Reporter

By Billie Jo Brown

The Future Homemakers of America is a great organization. Please let me call to your attention that it is Homemakers not Homebreakers.

To inform you more fully of the background of F. H. A. in general I will attempt to tell you about the emblem, motto, flower, and colors. The emblem of the Future Homemakers of America is octagonal in shape and bears the name of the organization. Future Homemakers of America, around the top of the plane, while around the lower side of it is the motto, "Toward New Horizons." In the center there is a house supported by two hands symbolizing that the future homes of America are in the hands of Youth. The red rose is symbolic of vibrant, glowing health which contributes to happiness and efficiency in home and group life. The colors red and white are symbolic of youth—youth which has courage and determination to succeed, yet has innocence and purity. Also it is symbolic of home life, the success of which is of utmost importance.

As in other organizations the Future Homemakers of America have their leading workers, the officers. At Burlington the hard working girl which has to bear the headaches is the president Janice Kinman. Her assistant or Vice-President is Peggy Kelly. Next comes the one who has to keep all the arguments and agreements the secretary, Mary Lou Kelly and then the lucky one who carries all the money around, the treasurer, Jeanetta Maynard. Then there is the one who plans all the fun, Leta Purdy, the history writer not Boak, Slosson, and Anderson, but June Brown. Last but not least the song leader, Shirley Hodges, who takes over when the parliamentarian Hazel Batchelor can't stop her ears. Naturally everyone of the members work very hard. On special occasions there are committees who figure out the problems.

Future Homemakers of America are women, and you know women need a lot of money. To collect a few dollars the girls at Burlington have candy sales. This seems to keep the organization wiggling. And then out of the clear blue sky Burlington Future Homemakers decided to pick a glowing star as their Sweetheart. The five brightest stars were Jerry Ryle, Jerry Lustenberg, Donald Ritchie, Warren Ryle, and Kenneth Beil. The brightest of these five stars was Donald Ritchie. Don the sweet heart of Burlington F. H. A. was crowned by Janice Kinman the president on the night of February 14, 1953. There was great entertainment before the crowning. Group singing, radio programs, a sales girl, pantomime, jazz band, violin pantomime, Bobo act, magic man, and the playing of a saw, provided the hilarious entertainment. Even Homemakers (girls) like refreshments. For the comforting of the empty stomach sandwiches and soft drinks were served.

Just think after this great evening there will be no posters in the hall with boys pictures and announcement of elections. I wonder which is the worst—posters all over the hall which reminds you of a political campaign or all the girls running around singing "Let Me Call You Sweetheart," to the F. H. A. Sweetheart?

Florence 8th Graders Enjoy Skating Party

The eighth grade of Florence had a skating party at Jimmy's Roller-drome in Erlanger, Tuesday, January 27. The chaperones for the party were Miss Bonnie Schram, Mr. Maines, and Mr. Revel. Everyone was amazed at the skating exhibition Mr. Maines gave. He only fell down about four times and he proved to be a fairly good skater. Almost everyone fell down at least once and some hardly ever managed to get up at all. When the game of "Crack-the-Whip" was played, the poor people on the end of the line were practically demolished. Although everyone was bruised and crippled by the time the party was over, a wonderful time was had by all.

Thru The Keyhole

While peeking through the key-holes,
While no one was around,
I listened to some gossipers,
And this is what I found.

By Irene Hoffman

WARNING! Be on the lookout for a blue Chevie driven by Susie with Glenn along as chaperone. She has had several accidents, received a few tickets, and knocked down some mailboxes and we are beginning to wonder what could be the cause of them. Is she really a bad driver or is there someone more interesting in the car that takes her attention away from the road? We wonder?

Lois H. must have had a real nice Christmas vacation this year because Dayton seems to enter her conversation quite often. We also hear that she has received several letters bearing the postmark, "Dayton." What is his name, Lois?

It must be true love because it is still Bonnie and Bobby. We sometimes wonder what Bonnie has that the other girls seem to lack. Is it her charming personality, Bobby?

What does Mary Lou find so interesting at the basketball games? Does she just like the sport or is it a certain redhead on the second team? We think it is the redhead that she finds so interesting. Why not let us in on the secret, kids?

What is this we hear about Fuzzy losing his head over a cute Freshman girl? In fact she has even taken his mind away from the basketball world. Could this cute Freshman girl be Bonnie Sue? We think so, so you might as well tell us the truth, Fuz.

We wonder if it could really be true that some New Haven boy has finally won Janice's affections. It seems that a red Chevie is always seen parked in the driveway when you pass by her house. Say, Janice, tell us what the New Haven boys have that the Florence boys seem to lack. Could it be his charming personality and elegant manners? We think so and Janice says "By all means, yes!"

Why is Judy so inquisitive about Dan's condition? She seemed very concerned about his health since he had to go to the hospital the other night. Could love be the reason for it all? We think so. What would you say about the matter, Judy?

If you see number 78 on the Florence basketball squad with a cute Freshman girl down at Stringtown, it will be the latest couple at Florence High School. They seem to be making headlines with everyone. Can you guess who it is, kids? If you haven't guessed who it is by now, we will tell you a little more about them. He is often seen in a green truck. That is when he is not with Evie.

We hear that after several years a certain senior girl has finally

attracted the attention of a certain senior boy. Tell us how you did it, Ellie. Mr. Cupid must have hit you hard.

Is Frankie really heartbroken because Lorraine jilted him? He seems to be losing all of his girl friends, lately. What is the matter, Frankie, losing your technique with the females?

REQUEST OF A HIGH SCHOOL TEACHER—One man bearing this description: Tall, dark and handsome. Must not be short, sour, and gruesome.

A bit of advice: The world is full of men who started out helping girls with their homework and wound up doing their housework.

Burlington "Dirt"

It looks like P. C. is a pretty popular boy with the grade school girls. How about it Jean and Audrey?

How come Shorty Ryle becomes so excited every time B. H. S. and New Haven play?

We notice that a certain senior girl sits with Mr. and Mrs. Fair at ball games.

Hazel Batchelor seems to be taking a new interest in the second team now. For reference check with Billy Ogden.

Martha and Billy (at last) Jimmy and Betty (Too young)

Eva Lou to all the boys (Undecided)

Chas. and Ock (Mr. Touchdown U. S. A.)

Mrs. Tolin to sophomore class (Its in the Book)

Mr. Walton to algebra class (Slow Poke)

A certain senior girl appears at most of Florence's basketball games. B. J. B. is it because of Billy M.?

Bobby Black has changed girls again... this time it seems to be Woolper road.

NEW HAVEN GOSSIP

Seems as if Sociology is getting more interesting every day, especially when you can pick who you want on your own side so P. G. says. Will the rest of the Sophomore girls drop their steadies to be free for the big event at the end of the year? (Junior and Senior Prom).

Overheard: No female is going to ever get in my new football jacket (Senior Boys). Result: Oh, No? (Girls).

Teachers can follow directions, can't they? It was proven otherwise by a Sociology test given throughout the high school. Miss Buckler, the sixth grade teacher has a new admirer! Aye D. B.?

They say, Jackie Johnson and a little redhead from Verona are getting along pretty good. In answer to the first four words of the following question, "How would you accomplish keeping the teachers from being so strict?" we heard these replies:

Mr. Edmonson: I would make

them pay the water bill. Frieda Stephenson: Put one in a pen and let the other one go.

Mr. Perkins: Call them up on the telephone, send them a box of candy, take her out, compliment her all evening long, then find out if she has any money and then if she had some the problem would be solved.

G. W. Baker: I would make it bigger.

Booger Moore: Take up their corners and sweep the edges.

Connie Burkett: Put them in your mouth and chew them.

Mr. Justice: Boil them for 10 minutes, cover them with sugar and bake them in moderately hot oven.

Seniors "Lost In Rush," What? So Soon?

Most of the members of the class are lost in the rush of activities that are facing them, but even with this variety of activities their accomplishments are mounting.

They received their calling cards from the Herff-Jones Company last Monday, February 9.

If you haven't been around a group of seniors when they receive something, then you don't know the confusion they can cause in the entire school.

All the seniors seem very well satisfied with cards and all have exchanged with their classmates.

Of course "all the seniors are burning that midnight oil studying" but June Brown, Janet Jones, Peggy Kelly, and Janice Kinman were the only ones that studied enough to make the honor roll for the third period and the semester.

This is all that's new with the Burlington seniors, so until next month, goodbye, good luck, and let the good Lord be your guide.

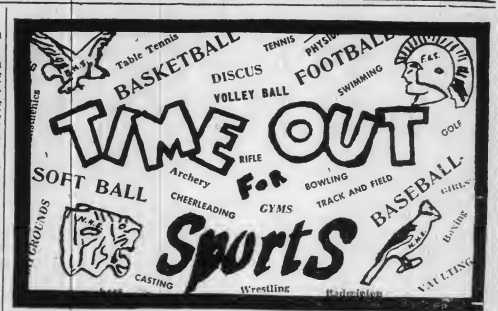

BOONE COUNTY TEACHERS ENROLLED AT U. K. EXTENSION

Mrs. Cropper is a graduate of the University of Kentucky and is doing post-graduate work at the University of Cincinnati.

Did You Know That—

1. At the beginning of school this year 25 elementary teachers in Kentucky had an enrollment of more than 70?

COACHES AND PRINCIPALS: What about a Reserve Team tournament?

The New Haven Boosters Club has announced that their annual invitational midwest team basketball tournament will be held March 26, 27 and 28.

Youngsters interested in learning to swim should be interested in the series of swimming instructions beginning with this issue of the News. Clip and save these because it won't be many weeks before the water will be "warm enough."

RESULTS OF LAST WEEK'S BASKETBALL WILL BE FOUND ON FRONT PAGE OF THIS PAPER.

The first step in the art of friendship is to be a friend; then making friends takes care of itself.

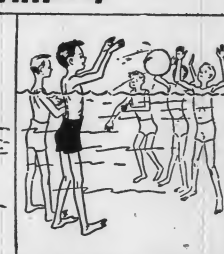

The News herewith presents the first two of a series of lessons on "How to Swim." We trust that even tho it is still too early for this summer sport that you will clip these authoritative lessons and make use of them later. Ed Note: Additional importance has been added to this News feature since the sorrowful news reached us of the drowning of one of our fine county students Sunday evening of this week.

Learn to Swim---1

1. Swimming water is generally cool, and sometimes cold. Before getting in it is a good idea to rinse the body a little at a time, to adjust to the lower temperature and to minimize the shock of complete immersion later.

Getting Acquainted

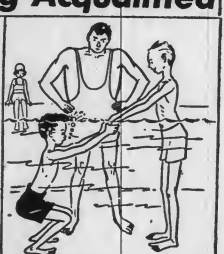

2. In shoulder deep water it is more difficult to breathe because of pressure against the chest. Stay a little while at this depth and you will soon become adjusted to this new condition.

Learn to Swim---2

3. To get a "fish-eye" view, take a good full breath of air, hold it, put your face in the water and open your eyes. You will find that holding the breath under water becomes almost automatic, and you can see quite well.

How to Float

4. Exhaling under water is very important. It should be practiced until it is easy to do. Inhale above the surface, submerge and blow "bubbles" when the face is under. Use the mouth entirely—forget that you have a nose.

Learn to Swim---2

1. Your body with the lungs filled with air is light enough to be suspended in water. Fill the lungs with air and slide the hands down the legs to the ankles. Before you reach your ankles the feet will come off the bottom and you will be floating like a jelly-fish.

How to Float

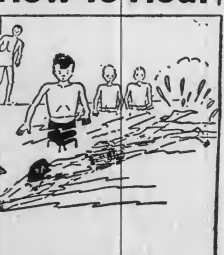

2. The "jelly-fish" position is not a good one in which to swim. To learn how to float in a swimming position, do another jelly-fish float, only this time extend your legs backward and your arms forward and lie stretched out on the surface.

How to Float

3. Now forget the "jelly-fish" and concentrate on the prone glide. Crouch low, submerge the face, and push off from the bottom with the feet. With only a little practice you will be able to glide along the surface for some distance.

How to Float

4. To get more distance on your glide thrash the legs slowly and flexibly up and down after you have pushed off. This is the beginner version of the flutter kick which later on will be a good and useful part of the "crawl."

Boone County Boy Killed By Auto On Lower River Road

Was Riding Motorbike When Struck By Automobile.

Elwood Ronald Kleintank, 18-year-old son of Mr. and Mrs. J. Kleintank, Jr., Box 96, Lower River Road, near Constance was killed on his motorbike in sight of his grandfather, shortly after 6 p. m. Friday when he was struck by an automobile on Lower River Road one-half mile west of Bromley in Kenton County.

The boy had been visiting his grandfather John Kleintank, Sr., who was standing in front of his house when the accident occurred, not more than 100 feet from the youth.

Kenton County acting coroner Robert C. Dorsey said the boy suffered fractures of his neck and skull. He was dead on arrival at Booth Hospital, Covington, where he was taken by the Bromley life squad.

Mr. Kleintank was taken to Booth Hospital where he was suffering from shock as a result of the accident.

Frank M. Wilson, of Ludlow R. 2 was the driver of the car. He told police that the boy was riding on the shoulder of the road and suddenly turned to his left, onto the roadway and into the path of the automobile.

Besides his parents and grandfather the youth is survived by three sisters, Jean Carol, Arlene Louise and Nancy Lee Kleintank.

The Bullock funeral home, of Ludlow was in charge of arrangements.

Woolper Man Injured By Power Saw Wednesday

Henry Sebastian, Woolper farmer suffered a deep cut in his right side above the hip Wednesday afternoon, when a power saw which he was operating on his farm tilted and struck him. He was removed to St. Elizabeth Hospital, Covington, for treatment.

Boone County Takes Top Place In Economic School Bus Operation

Boone County heads the list in economical operation of school buses in Kentucky, according to report of H. N. Ockerman, Boone County School Superintendent. Figures compiled by the state department revealed that Boone County operates its transportation program for the low figure of 11 cents per mile. The average for Kentucky is 19c per mile, while several counties reach as high as 37c per mile.

Mr. Ockerman stated that this low figure is maintained through purchasing of new buses, and the efficiency of the County maintenance man, Raymond Holbrook.

Hebron-Burlington Hold Top Position In Hoop Conference

Hebron To Play Florence And Burlington Will Meet Walton Friday.

A four-way tie for a Conference Basketball Championship in a conference made up of five teams is staring Boone County Basketball enthusiasts in the face. These are the possibilities: If—on Friday night of this week Hebron's Cardinals (5-2) lose to Florence's Knights (4-3) and Burlington's Eagles (5-2) lose to Walton's Bearcats (4-3), the season would end with all four teams having 5-3 records. On the other hand, a win for either the Cards or Eagles, who now share the top spot, would clinch the crown. If they both win, each will have to be satisfied with the divided honor.

In overall games Robert Huey's Cardinals are well out in front with a 17-4 standing and as this article is written it appears the Cards will add one more win to their total. They play the Ludlow Panthers at Ludlow on Tuesday night and the home team has been able to win only one contest the entire season. Florence has the best won and lost record for years for all-season play with a 15-8 accounting. Burlington, starting slow this year, has now pulled up to the respectable standing of 12-7 due to a five-game

winning streak. They have not lost since the Knights defeated them late in January.

Walton has split even in 22 games for the season and New Haven has been able to cop but three of twenty tussles.

Last Week

In games last week Hebron had a close shave in winning 62-60 over a scrappy New Haven Tiger five at the winner's court. Florence's Knights ran roughshod over Walton Friday night by a 91-71 score at Walton, but lost a heartbreaking 44-42 overtime game to the Burlington Eagles Saturday night at the winner's gym. The Eagles also defeated Covington Catholic 62-40 on Friday night at Covington.

Games Remaining

Tuesday, Feb. 24: Hebron at Ludlow.

Mission Day Program Planned By Florence Baptist Church March 1

The Florence Baptist Church, Rev. Roy Johnson, pastor and the Visalia Baptist Church, Rev. Bob Brown, pastor have planned special services for Sunday March 1st.

Dr. Huga Culpepper, missionary from South America and a group of four young people from Georgetown College will be in charge of services both morning and evening. Dr. Culpepper will speak at the Florence Baptist Church at 11:00 a. m. and the four from Georgetown College will have charge of the services at Visalia. At the evening service Dr. Culpepper will speak at Visalia and the young people will be at the Florence Baptist Church.

The pastors of these two churches wish to extend to all a very cordial invitation to attend these services, which will be known as Mission Emphasis Day.

Dr. Culpepper was in a concentration camp for four years in Japan, as well as serving in the mission fields a number of years.

The young people will present a very fine program of music, singing, testimony and sermon.

The Florence Baptist Church has designated the month of March to be known as "Church Loyalty Month" and feel that this will be a great beginning for this purpose. We wish to urge every member of the church to be present in every service possible.

"May we place the Lord first in all that we do and may the month of March be the greatest month in the history of the Florence Baptist Church," Rev. Johnson stated in urging special attention in attendance for the month.

Chairman Is Named At Boone Meeting Of Education Group

Committee Will Assist Legislative Research Commission.

The Boone County Educational Committee named H. N. Ockerman superintendent of Boone County Schools as chairman of the group at its first meeting held at Burlington School Monday night. Vaughn Hemphill of Constance was named vice chairman and Mrs. Sibbia Reimer, of Hebron, secretary.

The primary purpose of the committee in Boone County is to assist the Kentucky Legislative Research Commission in formulating plans to provide a minimum educational program for Kentucky.

Joe Rouse, Verona, representative of the 54th Legislative District, composed of Boone and Gallatin Counties, said the commission wished to learn what the people of Kentucky desired in the way of public education in order that it could plan a comprehensive educational program and devise the means for paying for it.

Questionnaires covering five phases of education in Kentucky, including the school program, teachers' salaries, transportation, building and facilities and finances.

Monday night's session was devoted to answering a questionnaire covering the school program. Many interesting highlights in the questionnaire brought lengthy discussion by the group.

Kentucky has 559,715 children enrolled in public schools and 88,724 school-age children not enrolled in any school.

At present the state school funds are distributed 25 per cent according to need, and 75 per cent on the basis of student-age population. On November 3 a referendum will appear on the ballot to give the Leg-

Wildlife Department Will Furnish Plants For Living Fences

Most of Plants Will Be Distributed Through Conservation Officers.

To increase food and cover for game, the Kentucky Department of Fish and Wildlife Resources will give lespedeza bicolor, multiflora rose, and other plants to interested farmers in Boone County.

Multiflora rose will make an effective living fence in as little as three years, with proper care. It is about eight feet high and eight feet wide, and does not spread into cultivated or grazed land. It requires no maintenance and is excellent for contour fences. To songbirds and small game it furnishes food and protection against enemies.

Bicolor lespedeza will produce enough seed on one-eighth acre to winter a covey of quail. (One-fourth acre is better, especially during unfavorable years like 1952). Much of the seed will fall in January and February, when other quail foods are scarce and covered with snow. Bicolor will not withstand grazing, but will grow on very poor soil, and along woods borders.

Other plants include black walnut, Russian olive, and Russian mulberry, which is a good post tree.

Most of the plants will be distributed through the Boone County Soil Conservation District and Mr. Floyd E. Kells Soil Conservation Service Technician will advise farmers on where to make plantings and how to care for them.

Mr. Ollie Herrington, Conservation Officer for Boone County and Mr. C. M. Smith, District Biologist, will deliver plants to individual farmers. They will also advise farmers on where to make plantings and how to care for them, or on any other problems regarding wildlife.

Mr. Nelli Rowland, of Kentaboo Drive, Florence, announces the engagement of her daughter, Jean, and Mr. Donald B. Stephenson, son of Mr. and Mrs. B. Stephenson, also of Kentaboo Drive.

The wedding will be an event of July.

Engagement Announced

Mrs. Nelli Rowland, of Kentaboo Drive, Florence, announces the engagement of her daughter, Jean, and Mr. Donald B. Stephenson, son of Mr. and Mrs. B. Stephenson, also of Kentaboo Drive.

The wedding will be an event of July.

Thirty-Fourth District Tournament Promises Plenty of Excitement For Boone County Basketball Fans

Florence Gym Will Be Center Of Attraction March 3-7 When Seven Teams Battle For Championship Honors.

Regardless of the closeness of the Boone County Conference basketball feud, the coaches, players and fans have their interest focused on the 34th District schoolboy tourney which will be held at the Florence gym March 3-7. This is the big prize, regardless of a team's record for the season, and to the winner here goes the glory and further play in the Ninth Regional.

The writer is sure that most fans have their favorite and that many have picked what they think will be a winner. But being a bit journalistically cautious, we think any one of the seven teams entered

have a good chance. A look at the lower bracket, which games will be played Tuesday night, March 3, beginning at 7:00 p. m., it will be Burlington's giant-killing Eagles who seem to have taken on new life against potentially strong Walton, always a strong tourney team, and last year's district champs. The second half of the program for Tuesday night pits Hebron's Cardinals, the tourney's most feared team among the coaches and last year's runner-up team, against always dangerous Paul Champion and his Lloyd Juggernauts.

New Haven's Tigers don't have much of a season record to pit against their opposition, but they have played some excellent ball in the past few weeks and Coach Perkins' Red and Black Tigers, who drew a first round bye, have plenty of supporters who vision a upset which would duplicate their last year's win over Simon Kenton in the 34th.

On Wednesday night Florence's Knights will tangle with St. Henry in the other quarterfinal game. The Knights hold two wins over the Crusaders and might figure to do it again, except that tournaments are not run on form and anything can and usually does happen. The winner of this game will play New Haven on Friday night. The two winners of Tuesday night will tangle on Thursday night.

Rector A. Jones, principal of Florence school and tournament manager, has announced that all sessions will begin at 8:00 other than Tuesday night's double header which will start at 7:00. Ticket doors will open one hour before game time each session Mr. Jones said. Admission price will be seventy-five cents straight.

Referee for the tourney will be Paul Weisbrodt and Bob Braun. The official scorer will be Mr. Charles Ransler and the official timer will be Garland Huff.

Trophies will be presented to the championship team (donated by Florence, Drug Store; runner-up (donated by Florence Hardware); and members of the all-tournament team (donated by Stringtown Stop).

National Future Farmers Of America Week February 21-28

February 21-28 is the week that Future Farmers of America throughout the nation—more than 350 thousand—and have designated as "National F. F. A. Week"—a week when members rededicate themselves to the purposes of organization, and to do their best to let friends and neighbors know what F. F. A. is, what it does, and why it is important to everyone that the work be continued and expanded.

In Future Farmers of America we have an organization of farm boys who plan to make farming their lifelong occupation. The organization's name describes the membership—The Future Farmers of America.

Membership in F. F. A. is restricted to the students of vocational agriculture, thus providing a close-knit organization of students who have common interests. The local chapter in Hebron High School has 35 members.

They are students regularly enrolled in high school. They are together every day when school is in session and whenever special plans need to be made or committees need to meet to work out their assignments. Regular official meetings for the chapter membership are held during the school activity period.

Each year in October F. F. A. holds a national convention in Kansas City, where two official delegates from each State sit in the delegate body to conduct the business of the national organization.

Each unit of the F. F. A.—the local chapter, state association, and national organization—elects officers from the membership each year.

In addition to leadership from officers, F. F. A. has adult guidance and supervision from people who are specially trained to teach vocational agriculture and lead the F. F. A. As teacher of vocational agriculture in Hebron High School, Mr. W. G. Craft is automatically the advisor of the local F. F. A. chapter, and the school's vocational agriculture department, which he leads, may be said to sponsor the F. F. A. chapter. If a school has no vocational agriculture teacher, it cannot have a chapter of the F. F. A.

On the state level, the F. F. A. is sponsored by the State Board for Vocational Education, which the state supervisor of agricultural education, serving as state F. F. A. advisor, Mr. E. P. Hilton, of Frankfort is state advisor in Kentucky. Other members of his staff also help with the work.

Nationally, F. F. A. is sponsored by the Agricultural Education Branch of the U. S. Office of Education in Washington, and the chief of that branch, Dr. W. L. Spanton, is national advisor.

This year the F. F. A. celebrates its Silver Anniversary—25 years of service to American Agriculture. A quarter century of work dedicated to the development of farm boys

toward leadership, good citizenship and successful farming. F. F. A. is the national organization of, by and for farm boys who are studying Vocational Agriculture in the nation's rural public high schools. The great idea of an organization for these farm boys of common interests came in the early 1920's, shortly after the establishment of the first vocational agriculture courses.

Many local groups organized under a wide variety of names. As the idea spread, county, district and state associations of the clubs were formed, and in 1928 a group of vocational agriculture students and leaders met in Kansas City, Mo., to formally organize a National Union. Provisions were made for the establishment of local chapters, state associations and the national organization, with each unit to have its respective boy officers, to plan and execute its schedule of activities, and with adult leaders in agricultural education for advisors. National membership dues, set at ten cents per boy, have remained the same throughout the years.

Founders called the new organization the Future Farmers of America, a name of significance for the Future Farmers of today are truly the successful farmers of tomorrow.

In years that have followed F. F. A. has continued to grow in membership, in activities, in prestige. Today, more than 350,000 farm boys in all the States, Hawaii and Puerto Rico, proudly wear the colorful emblem of the F. F. A. On the National emblem of the F. F. A. the Owl is symbolic of wisdom and knowledge; the plow is the symbol of labor and tillage of the soil; the rising sun is emblematic of progress, and the day that will dawn when all the farmers are trained and have learned to cooperate; the cross-section of an ear of corn represents common agriculture interests since corn is native to America and grown in every state; and the eagle is indicative of the national scope of the Future Farmers of America organization. Let us close with a prayer that a new era is dawning in agriculture as Future Farmers take their places in home communities with lives dedicated to God and the thought that is embodied in the last line of the National F. F. A. motto, "Living to Serve."

The Aim and Purpose

The primary aim of the F. F. A. is the development of agricultural leadership, cooperation, and citizenship. The specific purposes for which this organization was formed are as follows:

1. To develop competent, aggressive rural and agricultural leadership.
2. To create and nurture a love of country life.
3. To strengthen the confidence of farm boys and young men in themselves and their work.
4. To create more interest in the intelligent choice of farming occupations.
5. To encourage members in the development of individual farming programs and establishment in farming.
6. To encourage members to improve the farm home and its surroundings.
7. To participate in worthy undertakings for the improvement of agriculture.
8. To develop character, train for useful citizenship and foster patriotism.
9. To participate in cooperative efforts.
10. To encourage and practice thrift.
11. To encourage improvement in scholarships.
12. To provide and encourage the development of organized rural recreational activities.

The Motto: Learning to do; doing to learn; earning to live; living to serve.

F. F. A. Creed

I believe in the utility of farming with a faith born not of words but of deeds—achievements won by the present and past generations of farmers; in the promise of better days through better ways, even as the better things we now enjoy have come up to us from the struggles of former years.

I believe that to live and work on a good farm is pleasant as well as challenging; for I know the joys and discomforts of farm life and hold an inborn fondness for those associations which even in the hour of discouragement, I cannot deny. I believe in leadership from ourselves and respect from others. I believe in my own ability to work efficiently and think clearly, with such knowledge and skill as I can secure, and in the utility of organized farmers to serve our own and the public interest in marketing the product of our toil. I believe we can safeguard those rights against practices and policies that are unfair.

I believe in less dependence on begging and more power in bargaining; in the use of abundant and enough honest wealth to help make it so, for others as well as myself; in less need for charity and more of it when needed; in being happy myself and playing square with those whose happiness depends upon me.

I believe that rural America can and will hold true to the best traditions in our national life and that I can exert an influence in my home and community which will stand solid for my part in that inspiring task.

Foot Comfort Specialist at—
PEOPLE'S SHOE STORE
814 Madison Covington

What about the feet? Have you looked at your child's shoes and feet recently? Proper foot care is as essential to your child's health as good teeth and good eyes. If your child's heels are wearing unevenly or the upper of the shoe appears to run over the sole, bring your child to Peoples Shoe Store for a shoe check, and see why.

Many painful foot afflictions which people suffer in later years are actually started in childhood. Proper attention through childhood, in many cases, would have avoided trouble.

Don't let your child grow to maturity with the feeling that "If my mother had only watched my feet, I wouldn't be suffering like this now."

Let People's Juvenile fitters give your child's feet a free check regularly.—Adv.

To aid in the fight on tuberculosis, Kentucky has been divided into six tuberculosis districts, with a hospital located in each district.

Seventy-six Falls, near Jamestown, is so named because that is the number of feet down which the water plunges.

**When Neighbors WORK TOGETHER . . .
. . . They Find the BEST ANSWERS**

Before farmers began working together in their national farm loan associations they were at the mercy of the money lenders. Interest rates were high, renewals were expensive if available at all, commissions were expensive, loans were made for short terms—everything was in favor of the lender.

Then, in 1917, farmers began working together cooperatively through their national farm loan associations and Federal Land Banks to get the BEST in farm loan service. In the years since the Federal Land Bank system was established there have been more improvements in the farm loan service available to farm families than in all the history of the United States up to that time.

It is generally recognized that every major improvement in farm mortgage loans during the past 35 years has been pioneered by the Federal Land Banks and national farm loan associations.

One of these improvements is our low 4% interest rate. Many lenders have raised their interest rates but the Federal Land Bank of Louisville still maintains its rate at the same low 4% that has been in effect since 1935. And the long-term without renewals, the privilege to prepay any amount at any time without penalty, no application fees, no appraisal fees, the future payment fund program, loans based on normal agricultural values—are other improvements.

It gives them an opportunity, by working together, to continue pioneering in making "The BEST farm loan in America" an even better loan.

Fifty-Five Pints Of Blood Donated At Boone Airport

In Bloodmobile Visit Last Friday; Thanks Extended To Workers and Donors.

Fifty-five pints of blood were taken at the Boone County Airport when the Bloodmobile made its recent visit, according to a report from the Boone County Red Cross Chapter.

Much appreciation is extended those who worked so hard for this worthy project. Volunteers from Hebron, Constance, Taylorsport and surrounding areas were given the required orientation course prior to work at a Bloodmobile visit. Mrs. Elizabeth G. Nestor, Executive Secretary gave the Red Cross orientation course and Mrs. Mary Zemo of the Cincinnati Regional Blood Center gave the blood orientation. These two women were introduced by Mrs. Alan Gaines, chapter chairman. Mrs. Jack Caldwell, of Burlington is chairman for Nurses at all Bloodmobile visits.

Have you ever really given serious thought where this blood is finally used? All the blood taken in this area is for defense alone. The minute the blood is taken from the arm of a Boone County resident it becomes the immediate property of the Defense Department, who send it to all parts of the world where United States Troops are stationed.

Try to picture an emergency hospital on the front lines. No lights, as we know them, an improvised building with gasoline lamps, doctors working under the greatest handicaps of supplies and urgency of time, wounded men being brought in constantly on stretchers, some with arms or legs torn off, blind, or gaping wounds in their vital organs, blood soaked clothing, shock and exposure from Korea's severe weather, men screaming in pain and delirium and one thing for the most part—standing between them and death—blood. Yes, folks blood, and my friends you do not give blood to the Red Cross, you give blood "through" the Red Cross.

The Boone County Chapter is humbly grateful that it has been selected by the United States Government to be the agency to collect this gift of life—blood. But the chapter can only get this blood to the fighting men, and yes, the dying men, if you pledge this blood when the Bloodmobile makes its regular visits.

The chapter extends thanks for the blood you gave at the Boone County Airport and urges each to be ready to give blood again when the Bloodmobile visits the County again.

Water Supply From Boone County Wells Unlimited, Word

Drillers Report 24-Hour Test Results Are Wonderful.

With the completion of a successful 24-hour test run of a test well near Taylorsport, Boone County, Thurman S. Posey, owner of the A. R. Posey Drilling Co., Cincinnati, said "The results of the 24-hour test are wonderful. We have struck an unlimited supply of good water and the taste is good coming right out of the line."

The test, which was started at 10 a. m. Thursday of last week produced 225 gallons a minute, all the pump would throw out from the six-inch well.

In 24 hours a total of 324,000 gallons was pumped out on the ground. The well is said to be capable of producing two or three times as many gallons per minute with a larger pump and larger shaft.

The water commission is expected to take action toward forming a Boone County water system, after studying results of the tests.

The local commission is expected to attempt wading away from Kenton Water District No. 1 the tri-city area of Erlanger, Elsmore and Florence. These towns are being supplied without a contract by the Kenton County district.

Reserve Tourney Scheduled For March 16 and 17

At New Haven School; Flem Justice Will Serve As Tourney Manager.

The Boone County Basketball Conference reserve team tournament will be held March 16 and 17 at the New Haven gymnasium, it was announced by Flem M. Justice, principal of the host school, who will serve as manager.

Tournament drawings which was held last week place Burlington and Walton in the upper bracket. In the lower bracket New Haven and Florence will be opponents with Hebron playing the winner.

March 16: New Haven vs. Florence. (Game time 1:00 p. m.)

March 16: Burlington vs. Walton. (Game time 7:00 p. m.)

March 16: Hebron vs. 1:00 p. m. winner. (Game time 9:00 p. m.)

March 17: Finals and consolation. (Game time 7:00 p. m.)

There will be three trophies awarded, Mr. Justice said. Referees for the games have not been announced. Other officials will be George Edmonson timer, and Mrs. Dora Jones, scorer.

Hebron's little Cards are undefeated for the season and Burlington has a 10-5 record. Walton, Florence and New Haven have all developed rapidly the second half of the season and any of the three could go all the way.

Admission prices as announced by the tournament manager will be twenty cents straight for the afternoon session and twenty-five and fifty cents for both night sessions.

Henry Sebastian returned home Sunday from St. Elizabeth Hospital, where he was taken last week after suffering a severe cut from a power saw.

"Boone County is known as one county where professional gamblers and racketeers have been unable to penetrate, thanks to the vigilance of its law enforcement officers. It has been my pleasure and privilege to have been a part of that diligent law enforcement. If the good people of Boone County see fit to elect me to the high office of Sheriff, I solemnly pledge to them my unrelenting efforts to continue to keep Boone County safe from gambling and underworld interests. I will not be bribed. I cannot be coerced.

"I will make a special effort to see each voter in the county during the coming months, but should I fail to see anyone, please be assured that it is unintentional, and that your support is earnestly solicited and will be highly appreciated by me.

District Tourney In Full Swing At Florence School

Semi-Final Game On Tap Thursday Night In Heated Meet.

Results of Tuesday's Games
Walton 64-Burlington 61.
Hebron 72-Erlanger 65.

By this time (Thursday) there is still hope and certainly joy in four of the schools represented in the 34th District basketball tournament which is in session at the Florence school. Semi-Final Tonight

Tonight at 8:00 p. m. the lower bracket winner of Wednesday night's two games will battle for a chance at the championship which will be settled Saturday night. The winner of tonight's contest will be guaranteed a chance in the Ninth Regional tourney which will be held next week at Dixie Heights high school's gym.

Trophies will be awarded Saturday night to the championship team, and runner-up team and individual awards will be presented to a ten-man all tourney team which will be selected by coaches of the seven teams.

Boone County Girls Honored With Awards From Boone D. A. R.

The February meeting of the Boone County Chapter, Daughters of the American Revolution, was held in the beautiful home of Mrs. Wallace Grubbs at Walton, with her daughter, Jeanette as co-hostess.

Mrs. Roy C. Nestor, Regent, presided over the business meeting which opened with the DAR Ritual, collect, pledge to the flag and the American creed. Mrs. Clarence Wolfe read the poem "Teamwork" which stressed "a little less of you and me, a little more of us."

The Regent announced that she had written to Governor L. Weth-

erby thanking him for proclaiming February American History month in Kentucky. Kentucky is the only state in the union having such a proclamation, although the societies in other states are working diligently to have the Governor of their state issue the same proclamation. The Boone County Chapter would like to have American History month stressed in all the schools and homes in the county.

One of the highlights of the meeting was the presentation of Good Citizenship medals by Mrs. Nestor to the five girls who were selected by the faculty of each school in the county for outstanding qualities in dependability, service, leadership, and patriotism.

The five girls chosen were Mary

Florence Ryan, Walton; Ann Wilson, New Haven; Barbara Schriber, Hebron; Jennings Lee Tanner, Florence; and Janice Kinman, Burlington. In the spring these girls will be taken on an all-expense tour of Frankfort, be the guests at a luncheon, and attend a tea given in their honor by Mrs. Lawrence Wetherby at the Governor's Mansion.

Every since 1935, the National and State Daughters of the American Revolution have sponsored the Good Citizen program, and it will always be a yearly event. Mrs. C. Davis Gaines, Good Citizen Chairman, conducted the contest throughout the schools in the county.

Mr. William Albers, of Loring Andrews, jewelers, Cincinnati, O., gave a talk on five thousand dollars worth of fine early American silver and modern Kirk silver.

He presented a colored film, assisted by Mr. Bruce Wallace, a prominent Walton business man, showing the making of Kirk silver. An early silver tea pot was shown made by a woman silversmith costing \$550. The Kirk silversmiths not only make fine tableware, but also ecclesiastical silver. In the making of Kirk silver, the metal is heated and made into bars called spoon bars. From these spoon bars, all types of silverware are made. Many pieces are still wrought by hand, and are finally smoothed to a lustre with abrasives and a touch of rouge to bring out the final brilliance. Kirk's silversmiths make eleven different patterns. The first "Kirk" made in 1824 was

soon followed by the Repouse pattern.

Other members present were Mesdames Frances Berkshire, Aileen Conner, George Baker, William Woodward, Virginia Goodridge, Charles Goodridge, Louis Brown, J. B. Wolfe, Holloway Howes, Harold Conner, Sam Denham, Sr., J. P. Brothers, Sam Denham, Jr., and the Misses Margaret Goodridge, Mary Lee Holmes, and Evelyn Tanner. Guests were Mesdames B. F. Demoisey, Julia Rouse, Wendell Rouse, Anna Hudson, Mattie Hudson, Lottie Tanner, C. Scott Chambers, James E. Falls, Powers Conrad, Lida Jones, C. L. Cropper, Bruce Wallace, Ralph Carpenter, Virginia R. Nestor and Elizabeth Grubbs.

W. S. C. S. NOTES

The W. S. C. S. of the Burlington Methodist Church held its February meeting at the home of Dr. and Mrs. Wm. Schell last Tuesday evening. Mrs. Nell Garrison presided over the business meeting.

Refreshments were served by the hostess, Mrs. Schell to the ten members present.

Early History of Old County Fairs Held In Florence, Kentucky

By Mrs. Elizabeth G. Nestor

The information given in regard to the "old" Florence Fair on Oak Hill, which has been given to me by word of mouth, however, this information was given by people whose word I do not question and I assume it is to be correct until it is proved otherwise. For this part I did not have written record.

In regard to the North Kentucky Agricultural Association, organized in 1895, the details are in every way correct. I have in my possession the original and only minute books of this organization from its beginning to the time it was dissolved. I have much more minute details on this fair and at a later time will expand on this paper.

The exact date of the Florence Fair known as "old" Florence Fair is unknown but I know it existed in 1845 because my father's sister Catherine Goodridge was dressed to go to this fair and her escort, Mr. Gaines Robinson was at her home to take her when she fell dead. Our family Bible states she died in 1845. This fair was located on the farm of Captain Jack Barton. The original house of this farm is still standing and is occupied by Mr. and Mrs. Louis Braun. The original farm comprised what is now Kentaboo. The fair mentioned was located on the ridge just behind the house. There were two entrances to the fair, one through Captain Barton's farm yard and one opening on the creek road, which is now next to Mrs. Chipman's home just beyond Hagedorn's Appliance Store. The land was leased from Captain Barton for the fair which lasted a week. The amphitheatre was round with elevated seats and a promenade around the top. The refreshment stands were octagon shape and served beer, whiskey, cider and lemonade. There were booths under the amphitheatre where families would eat. For days before the fair men would whitewash everything and by fair time all the buildings would be snow white.

Mr. and Mrs. Gaines Robinson lived in the fair cottage. Mr. Robinson was a brother of Mrs. Lucy Martin (Mrs. Jack) and during the fair took care of wash rooms, etc.

The only directors whose names I am certain of were Milton J. Goodridge, Butler Carpenter and Mike Rouse. Two of the best known riders and judges were Alec and Hub Buckner.

The first day was always ladies' day. Quilts, cakes, and candies were shown in the center of the ring, and taken home that night. Mrs. Kate Perry brought potted flowers from Mt. Mitchell. Mrs. Milton Goodridge always showed her fig tree; Mrs. Sally Fulton took a miniature church made of shells under a glass globe. (Which I have seen).

People came by horse back, horse and buggy, hacks, and a stage coach came from Covington. Some money premiums were given, but most premiums were solid silver cups, spoons, knife and fork sets.

The story was told to me that a Miss Lizzie Nichols from Lexington had just won the blue ribbon for riding when someone threw an empty candy box into the ring, striking the horse which bolted, throwing Miss Nichols. She was taken out for dead, but was only stunned and later recovered.

Displays were shown of buggies, surreys, hacks. The buggies had storm fronts, with isinglass windows to see through and holes through which the lines were run. Horses wore handsome fly nets and horse blankets and whip concessions were greatly in demand as these were good sellers.

The fair closed in 1880. The reason for closing was that each director had free admission for himself, his family, and friends. I have talked with people who attended this last fair and they stated that when the fair closed the buildings

showed great age and were falling down which certainly attests to the fact that the fair had been going over a long period.

The North Kentucky Agricultural Association was organized December 20, 1895 at the Odd Fellows Hall, Florence, Ky. First officers elected were B. F. McGlasson, president; E. H. Blankenbaker, vice president; G. J. Allen, secretary; William Perry Carpenter, treasurer; Directors were F. A. Qitz, Orin Percival, W. C. Harris, J. J. Rucker, and J. M. Lassing.

The first seven board meetings were held at the Odd Fellows Hall which they rented for fifty cents per meeting. At the first meeting plans were made to build an amphitheatre on ground rented from William Perry Carpenter at \$102.00 per year and located at the corner of the Union and Lexington Pikes. The show ring inside the amphitheatre was to be 160 feet in diameter with the amphitheatre and ring round to be 10 seats high and to be covered with a roof. A promenade to go around the entire top and four entrances to the amphitheatre 14 feet wide and the entrance to the show ring to be 12 feet wide and 10 feet high; the secretary's and treasurer's office to be located over the stable entrance.

All stockholders to pay their entrance fee at gate and no complimentary tickets were given. The capital stock was \$3,000.00 divided into 480 shares. Twenty-five benches were purchased from the Old Fair Company for \$5.00.

The ground was covered by a heavy woods, and a saw mill was set up. Mr. Carpenter was paid \$2.25 for every 1,000 feet of beech lumber cut. Tom Corbin supplies 500 9 ft. black locust posts at twenty-five cents each and sixty posts seven feet long at seventy-five cents each. The grounds were cleared of bushes, trees, logs, and back bushes. The lumber that went into the amphitheatre and music stand was sawed on the grounds. The music stand was built in the center of the ring and was octagon shaped. The amphitheatre was located 107 feet from the outside property line. Cisterns were built. I might add here that large barrels were placed at intervals for drinking water with a spout at the bottom. As a child attending the fair, I remember we were all supplied with collapsible tin drinking cups, which we saved from year to year for fair use only and I well remember that the water barrels were covered with a green moss collected over the years and filled at random from any source of water that was available. The water ran into our cups and was full of tadpoles and ugly worms. This did not bother us in the least, we just stuck our finger and took them out and drank the water. Now we would be certain we would die if this occurred.

Fifty stalls for stabling animals were built for seventy-five cents each, the lumber was on the grounds, also fourteen box stalls. Those of us who remember these stalls know they were located to the right of the amphitheatre in a straight line running from the road to the back of the property. The stock gate entrance was located just in front of these stalls, across from where Mr. Sam Denham, Jr., now lives. The main gate was located across from the Christian Church on the corner of the Union and Lexington Pikes. The first annual fair was held September 3, 4, and 5, 1896. For this fair Mr. J. J. Rucker was instructed to buy 9 wash pans, 3 dozen towels, 6 combs, 6 hair brushes, 6 buckets and one flag. The washpans, etc., were used in the cottage and everyone dipped the water to wash their hands and the combs and brushes were a community affair. The flag was raised over the music band stand.

Plans had been made to build a cottage and at the first fair, both amphitheatre and cottage were unfinished, but were able to be used and were finished before the coming winter.

The first day of the fair there was a ladies' bicycle race with premiums of \$10.00 and \$5.00. The second day was a men's bicycle race with the same size premiums. These were in addition to the regular showing of stock, floral hall, etc. Mr. Milton Goodridge, who was then living in Oldham County, came up each year from LaGrange, Ky., to judge the fruits and vegetables. This he continued to do each year until his death in 1929. Sometimes others would assist him. In 1914 Mrs. Recter, Mrs. Perry Allen, and Mrs. Cowen had a hard time trying to decide to whom to award the blue and red ribbons. The floral hall was built under the amphitheatre.

Admission the first year was twenty-five cents for adults and all over 10 years old. Over 10 years were admitted free. 21,000 tickets were printed. Gate receipts on the first day were \$413.90, second day were \$1,187.19, and third day were \$856.10 with total receipts for the fair \$2,457.10. Booths were built. The privilege of renting booths was auctioned to the highest bidder. R. R. (Hank) Tanner was hired as ringmaster at \$1.50 per day. How thrilling to remember Mr. Hank Tanner, tall and rawboned, announcing each entry, standing with a large whip in his hand. He was my hero and if, as a child, I could get any recognition from him or a pat on

the head, my day was complete. This sometimes occurred as he was a friend of my father, who was a stockholder in the fair. Mr. Hank Tanner continued as ringmaster until the fair was discontinued.

Also who does not remember Albert Cleek and his mother, Ellen? These were fine colored people. Allen was the matron at the cottage and received \$5.00 for four days work. Albert, her son was commonly called "Biscuit" and was a tall, well-built colored man who was everybody's friend. He stayed in the ring and held all the wild animals. When everyone else was afraid (including men) he was brave. This was before the mechanical age, everything was done with horses and mules and the type of animals that were shown at the Fair were the best and very spirited. These, "Biscuit" somehow managed to subdue. He also restored lost children to their mothers and all such sundry things.

Minutes—October 12, 1896: Permits were given to rent grounds for \$100.00 for a barbecue and political speaking. The speaker was William Jennings Bryan, known as the "Silver-Tongued Orator," who was running for President of the United States.

Minutes—October 30, 1896: Cottage completed and rented to Joseph L. Allen. At this time J. Perry became secretary and J. M. Lassing became treasurer. Mr. Hank Tanner's salary was raised to \$2.00 a day. Gatekeepers received \$1.25 and \$1.50 per day according to importance of gate. Publicity for the fair was published in the Cincinnati Enquirer, Ohio Farmer, Commercial Tribune, Times-Star, Post, Covington Commonwealth, Cincinnati Volksblatt, Boone County Recorder, Williamstown Courier, and Warsaw Independent. Fair privileges were rented out for basket room, feed room, barber shop, and melon room. Also for minstrel and vaudeville shows, dock rack, African dodger. Mr. W. C. Harris came before the Fair Board and said he was due a \$4.00 gasoline stove for first prize on a quilt. Total receipts for the fair September, 1896 were \$14,689.30. Often 10,000 people came in one day.

May 1, 1897—Premiums to be given at this time. One case wine for best display of fruit; gold spectacles for display of preserves; five pounds of gunpowder tea for display of flowers and a wood churn for display of five pounds of butter.

Minutes—July 31, 1897: Ten experienced policemen were hired for \$2.00 each per day, during the fair.

April 2, 1898—At this time the fair was growing, 18 more sheep pens and a checkroom were built.

Minutes—August 13, 1898: Germania Medicine Company received privilege of selling medicine and running a minstrel show; bicycle privileges were granted to Ben Osborn.

September 17, 1898: The Fair Board declared a 25% dividend on stock.

April 1, 1899: Some of the premiums to be given at the fair were gold spectacles, 1 case communion wine, mahogany rocker, one hat or bonnet, one bull calf, one folding bed.

August 12, 1899: Hank Tanner's salary as ringmaster raised to \$2.50 per day. Also the Southern Railroad said they would give reduced rates for all points north of Junction City to Cincinnati for those attending fair, and half rate on all cattle shipped which would enter the show ring at Florence.

Minutes—November 6, 1899: A suit for damages was filed by Mr. Crow of Walton for alleged fine arrest made during the Fair by police officers to prevent persons from gaining entrance to the grounds by climbing fences. J. M. Lassing was employed to defend the suit. As this is not again mentioned in the minutes I assume it was settled out of court.

June 2, 1900: Dining hall and kitchen built by Dave Brown.

July 6, 1901: At the death of R. J. Perry, secretary, Alvin Perry was elected to this office. The treasurer at this time being A. M. Rouse. Mr. McGlasson continued to be president. This year the fancy turnout was won by Mr. John Feagan, with his lady companion being Miss Virginia Finch, now Mrs. Virginia Goodridge. Miss Finch wore a pale blue lace and pique dress made by Mrs. Nannie Rouse; this was floor length and in Gibson girl style. She also wore a leghorn hat covered with pink roses and carried an imported lace parasol.

August 2, 1902: Tintype privileges were sold for \$10.00. Extra dividends of 10, 15 and 14% were declared on stock during these years. Again Mr. John Feagan won the fancy turnout with his companion again being Miss Finch. At this time she wore a white muslin dress with Valenciennes, entredoux lace, a leghorn hat lined with black velvet and covered with pink ostrich plumes.

1905: Premiums for the roadster ring were \$100.00, \$50.00 and \$25.00 respectively.

April 7, 1906: Time was marching on. Things were changing. Flying Dutchman with privileges rented for \$25.00, was now called the Merry-Go-Round and the privilege was rented for \$75.00. During these years horse drawn "buses" had plied between the train stop at Erlanger and the Fair at Florence.

In 1906 moving pictures in tents made their appearance at the fair. N. E. Riddell became secretary.

1908: The admission was raised to thirty-five cents for adults and

children eight to twelve was twenty-five cents.

June 4, 1909: Meeting to discuss the proposed building of a street railway to be built to Florence. The board decided to subscribe \$200.00 for this to be paid when the first car was on the line in regular schedule.

In 1911 the admission fee went back to thirty cents for adults and children eight to twelve to twenty cents.

September 3, 1913: Hubert Conner became secretary and continued in that position until the fair was discontinued. This year they first gave recognition and premiums to the sum of \$50.00 for school exhibiting.

In 1914 Mr. W. P. Carpenter was killed with a hay fork. Mr. McGlasson had remained as president during this entire time. Plans to buy the grounds were discussed.

September, 1915: The fair was reorganized and incorporated with J. E. Williams, president and Hubert Conner, secretary, and the ground on location previously rented was bought from the Carpenter heirs. The cottage was rented to John Conner.

In 1918 Coca-Cola made its appearance and paid \$550.00 for all refreshments, privileges and the next year paid \$1,050.00 and also sold dinners at forty cents per meal.

In 1922 S. C. Hicks became president. June, 1923: Plans were made to hold first night fair for three nights. H. R. Leidy wired the grounds for lights. Admission, fifty cents for adults and twenty-five cents for children.

On June 28, 1924, the Ku Klux Klan had a large meeting at the fair grounds. A dance hall was built, costing \$4,708.00 and the date for the opening dance was Saturday, May 30, 1925, 2:30 p. m. to 11:00 p. m. Previously an open dance floor had been built near the Dixie Highway on Lexington Pike. Charles Carpenter was in charge of this for a time for the fair board and later the concession was rented to Dan Young of Erlanger.

In June, 1931, J. B. Respass bought the corner lot 175 feet square on the corner of Union and Lexington Pikes for \$10,050.00.

The last fair was held in 1932.

In July 1935 the fair ground was sold for \$15,000.00. \$5,000.00 to be paid down and \$5,000.00 each to be paid in 1936 and 1937. After paying the first \$5,000.00 the buyers could not pay the balance and the fair grounds were sold at the court house door. The Fair Company buying back a strip of lots on the Dixie Highway. These were later sold at auction by the Fair Company, on September 30, 1944. With these transactions concluded, one of the most successful, interesting, educational and uplifting enterprises ever to be held in Boone County passed out of existence, but surely never out of the hearts and minds of the many who had attended during the years.

Romance blossomed at this fair. Children got lost and also got sick from stuffing too much popcorn, pop, etc. At the early time of the fair, transportation was slow, being horse drawn, but at "fair time" the men chined their shoes, pressed their clothes, the ladies had new dresses made that swept the ground. (I was paid fifty cents each year by my father to shine his shoes and get his suit pressed which I, of course did at home with an old hand iron set on the coal range in the kitchen) and I can still remember the smell of his good cigars, which he smoked only when he went to the fair or to bank meetings at the Erlanger Deposit Bank of which he was a director.

Out of the goodness of God's great abundance, people far and wide brought the best of their crops and livestock to vie with each other for those coveted blue ribbons. The ladies were up at dawn filling huge clothes baskets with fried chicken and fried apple pies, and no modern pedometer could estimate the many thousands of miles that were walked around the promenade by young and old. People of this day never see the beautiful type of horses shown then. The haughty Percherons, many of dapple gray whose silken manes were intertwined with gorgeous ribbons, who threw their heads in disdain at mere men who came to see them, whose backs were so broad that if one were to try to ride, one's legs would have stood straight out. With the advent of the mechanical age and tractors, the horses have almost passed out of

existence. Women competed in domestic arts, both of cookery and needlework and the beautiful satin-work embroidery of yesteryear is scarcely seen today. One of the grandest sights was when farmers would bring in their entire herds of cattle for competing. The Holstein herd of Mr. Theodore Carpenter was indeed a sight never to be forgotten. Mr. Carpenter would be assisted in the ring by his sons, Charles, John, and Earl, and his herd would often comprise fifteen to eighteen cows, together with a beautiful bull. Baby shows won great interest and in August 1914 the child of James Allen of Walton won first prize.

The Times-Star of 1914 states: "The automobile has brought the county fair within reach of hundreds of persons, who in years gone by were unable to visit the fair because the distance from home was too great. The day of the little gathering from the nearby countryside has passed, because modern progress has devised a means to overcome the difficulties of transportation. The hands across the boundaries of city and rural districts were all the firmer clasped when Mr. Cityman, surnamed Consummer, and Mr. Farmer, also called Producer, met at the Boone County Fair at Florence, Ky. The Florence Fair has always been the meeting ground for these two, to strengthen the bonds of friendship."

Tractors now, where once a team pulled the walking plow's curved beam. Glant power, where the strain Of tired muscles reaped the grain.

Motors roaring down the field, Wreath from earth and ancient yield. Once the fruit of sweat and toil, Far more intimate with soil.

Tractor now, slow muscles then, But the hearts of farming men. And their women cherish still Kinship with the soil they till, Seeing past the bright machine To God's gift of growing green.

British investors, largely the Barling Brothers and Company of London, provided the majority of capital for the founding in 1889 of Middlesboro, Ky.

INSTALLS SELF-FEEDER
Improved equipment installed in Henderson county includes a self-feeder holding 4,000 pounds of feed on the farm of Claude Hemer Rards, Anthonston community, notes UK County Agent A. A. Williams. It can be filled with a pipe from a hammer-mill. Housed in a building open on the south side, cattle can eat as they please most of the winter. Rards keeps high-quality cattle, both for breeding and feeding.

423rd Chooses Airman of Month

Airman Stanley M. Houston has been selected by the 423rd Bomb Squadron as the outstanding airman for the month of February.

Upon his graduation from high school in Florence, Ky., Stan started studying the telephone construction business. Almost four years later, he decided to broaden his level of experience, and volunteered for a 48-month tour with the Air Force. Stan (now Airman Houston) attended the A and E Course at Oklahoma A. & M. College, graduating in August 1951.

A period of specialized training followed in the Propeller School at Chanute AFB, after which he was assigned to the prop shops at Warner-Robbins AMA, Macon, Ga.

In February 1952, Airman Houston came to Langley and served as an F-84 assistant crew chief with the 20th Fighter-Bomber Wing, until the wing departed.

Airman Houston joined the ranks of the 423rd Bomb Sq. in April 1952, where he has served as a mechanic on a B-26.

Lt. Col. Hendry, C. O. of the 423rd, when presenting Airman Houston with his letter of commendation stated: "Your selection by the squadron as airman for the month of February is to acknowledge your consistent display of technical skill and initiative. Your attitude of willing and friendly cooperation toward your co-workers as well as your supervisors has prompted many remarks of praise and appreciation, and stimulates efforts towards similar attributes among those who observe you. You are commended for your contribution to the stability of this squadron's morale level."

STATE TAKES PART IN CHURCH PROGRAM

Churches of all denominations and faiths in communities up to 5,000 population in Kentucky, along with churches in 12 other southern states, are participating in a town and country church development program.

According to Ralph J. Ramsey of the University of Kentucky, who is chairman of the program in this state, work of pastors and congregations from April 1, 1952 to March 31, 1953, will be evaluated and \$12,200 distributed in prizes.

In each of the 13 states, five churches will receive from \$100 to \$500 each, one being named Church of the Year. All churches showing outstanding progress will be awarded certificates of recognition.

The Rural Church of the Year in the South will be chosen from among the Churches of the Year in the 13 states, and will receive an additional \$500, making a total contribution of \$1,000 for this church.

Purposes of the program are to encourage and recognize the development of more adequate church programs to stimulate participation in better community development activities and to foster the worldwide mission of the church.

The program will supplement the present one in Kentucky of giving citation awards to outstanding rural churches, Mr. Ramsey said.

IRRIGATION MAKES TOBACCO
Twenty dollars spent for irrigating tobacco for 4 1/2 days last summer resulted in an estimated increase of between \$400 and \$500 for his leaf crop, says D. H. Combs of Monroe county. He reported to Justus L. Ellis, county agent with the University of Kentucky, that one acre yielded 2,316 pounds.

Notes From Fish and Game Division, Frankfort

Approval of a tour of the properties of the Department of Fish and Wildlife Resources for April was given by the State Commission at a meeting in Frankfort recently.

Boys camps on Lake Cumberland and Kentucky Lake, the State Game Farm and Federal Hatchery near Frankfort; hatcheries at Williams-town and Glasgow; Beaver Creek, Kentucky Woodlands and other refuges and lakes owned by the Department at Owensboro would be included in the inspection trip. Invited would be members of the Kentucky Outdoor Writers Association, Kentucky newspapermen, members of the Commission, League of Kentucky Sportsmen officials, and Directors of the Resources Department Divisions.

The size limit for bass taken from Lake Cumberland was removed, but a daily creel limit of 10 was retained by a vote of the Commission. The regulation, which was effective January 31 and continues through-out 1953, applies to Lake Cumberland alone. A ten-inch size limit and 10 creel limit for all other waters of Kentucky was retained.

In the first quarterly meeting of the year, the Commission also adopted a gilling season from March 1 through April 30 with a bag limit per day of 15. Gilling will be open in the specified season for all streams except Elkhorn Creek, Dix River, Kinnickonick, Triplett, Red River, Harrods Creek, Tygart Creek, North Fork of Kentucky River from Hazard upstream and including tributaries.

The frog season was set from May 15 through December 31 with a bag limit of 15 a day, the day being from noon to noon. The Commission also approved the use of cast nets in the Ohio River around Louisville from April 15 through October 15.

Sale in Kentucky of crappie, walleye and sauger fish caught from outside the state, was approved provided the crappie contain the head and tail and bear a tag designating the point where they were caught.

When Neighbors WORK TOGETHER They Find the BEST ANSWERS

Before farmers began working together in their national farm loan associations they were at the mercy of the money lenders. Interest rates were high, renewals were expensive if available at all, commissions were expensive, loans were made for short terms—everything was in favor of the lender.

Then, in 1917, farmers began working together cooperatively through their national farm loan associations and Federal Land Banks to get the BEST in farm loan service. In the years since the Federal Land Bank system was established there have been more improvements in the farm loan service available to farm families than in all the history of the United States up to that time.

It is generally recognized that every major improvement in farm mortgage loans during the past 35 years has been pioneered by the Federal Land Banks and national farm loan associations.

One of these improvements is our low 4% interest rate. Many lenders have raised their interest rates but the Federal Land Bank of Louisville still maintains its rate at the same low 4% that has been in effect since 1935. And the long-term without renewals, the privilege to prepay any amount at any time without penalty, no application fees, no appraisal fees, the future payment fund program, loans based on normal agricultural values—are other improvements.

It gives them an opportunity, by working together, to continue pioneering in making "The BEST farm loan in America" an even better loan.

SOCIAL SECURITY NOTES

The Social Security office at 7th and Scotts Streets, Covington, is constantly receiving requests that benefits be increased. Retired workers, widows, and surviving parents come into the office and explain that they cannot get along on the monthly payments they receive. In many cases they are correct—they cannot live on their Social Security money. But no matter how great the need, the Social Security Administration cannot increase the amount of benefits for that reason.

Social Security is a social insurance system. The amount of benefits is based on wages or self-em-

ployment income credited to the insured's Social Security account. The law says exactly how the benefits are to be calculated. Like any other insurance payment they are paid to the insured or his survivors irrespective of wealth or poverty. A millionaire who was paid wages of \$300 a month or more would receive a benefit of \$85 a month. This would be no more or less than any other person who would also have wages of \$300 per month. And when someone receiving a smaller monthly payment wants it increased because he needs more money, however much the Social Security man would like to say "yes," he cannot do so. Benefits are calculated mathematically and can be neither increased or decreased because of need.

There are, however, two methods by which Social Security benefits can be increased—

1. When claims are filed on or after January 1, 1951, wages paid during the six months period before the period in which the claim is filed are not used in figuring the Social Security benefit. Elimination of these wages usually results in about the same monthly payment as if the wages up to the quarter in which the claim is filed were used and six more months were added to the divisor to determine the average monthly wage. Sometimes if the worker was sick or out of work before he retired, the monthly payments when so calculated may be greater. But in a few cases, when the worker was paid especially high wages just before he

retired or died, it will increase the monthly payments to include them. In this case, the claimant waits six months after the claim is filed; then he comes to the Social Security office and asks for a "lag recomputation." If this results in a higher benefit, the increase will be paid him retroactively back to when he began to receive payments.

2. When a retired worker receiving monthly payments has them suspended and returns to work, Social Security taxes must be paid on his wages. Sometimes, but not often, these wages will increase his average monthly wages and his monthly payments. When he has worked not less than 12 months after his benefits are suspended, he may apply for a "work recomputation," that is, to have the wages paid him during this period used to refigure or recompute his monthly Social Security payments. In some cases this will result in increased benefit payments.

3. Such increase will be given only if he has also six quarters of coverage after 1950. Under the same circumstances, a beneficiary over 75 years of age, who can earn any wages or make any profit however great without losing benefits, may file for a recomputation once—but once only.

Paint Lick, Ky., was established in 1782 and so named because the first settlers found Indian symbols painted in bright colors on trees and stones along the creek and around the near-by salt lick.

Cedar Cove Spring, near Frankfort, was the source of the first public water supply system in Kentucky, established in 1804. The water was transported to Frankfort by wooden pipes.

ROLLED Bales are making ranch management easier!

ROTO-BALER — A real cattleman's machine! The **ROTO-BALER** stays on the job with scant attention. Big capacity turns out fast tonnage. One-man operated; saves labor. Bale is twine-wrapped—no knotting. Moderate price—many ranchers and farmers own several.

Just watch cattle go for these leaf-heavy bales. Watch them clean up the last green stem — whether the bales are stacked under cover or left out on the range just as they are dropped by the **ROTO-BALER**.

ROLLED bales wrap in and seal the peak feeding value that makes beef or milk. They resist moisture and rain. Twine-wrapped, they're free from injurious wire. They're bales that can take rough handling, too. They elevate and load easily and store compactly . . . without buckling or breaking.

Feed them yourself and you'll know why **ROLLED** bales are "cattleman's hay!"

Remember, **ROLLED** bales are made only by the **ROTO-BALER**, built by **Allis-Chalmers**. Let us demonstrate.

ROTO-BALER is an Allis-Chalmers trademark.

March 15 Deadline For Filing Federal Income Tax Forms

Accurate Statement Is Urged; Workers Must Give S. Number.

All self-employed persons except farmers and those in exempted professions, who operate on a calendar year basis, and who have net self-employment incomes of \$400 or more, must file an income tax return and a Schedule C on or before March 15th. Schedule C lists the gross profits from self-employment income. These returns must be filed even if there are no income taxes to be paid. If net earnings are \$400 a year or more, the Social Security tax of 2 1/2% must always be paid. All expenses allowed under income tax laws and regulations must be deducted from the gross receipts. The net income must not be made greater than it actually was. Even if an inflated net profit is reported and taxes are paid on it, only the real profit will be used in determining whether a self-employed person is entitled to Social Security retirement payments and in figuring the amount of the monthly benefit.

If you are self-employed, follow these three rules:

File Schedule C with an income tax return on or before March 15th. Be sure to show your Social Security number and a full description of your occupation on the coupon at the bottom of the second page of Schedule C.

Make an accurate statement of your gross receipts, deductible expenses, and net self-employment income.

New York Man Killed In Automobile Accident Sunday

Morgantown Youth Is Removed To Hospital For Treatment.

The first automobile fatality of the year in Boone County was recorded when Charles H. Boyle, 75, of Buffalo, N. Y., was killed instantly as his car ran off U. S. 42, one mile west of Florence and crashed into a culvert.

Papers, maps, and a passport found on the body of the man indicated that he traveled extensively, according to Robert Brugh, Boone County Coroner.

Alfred Decker, U. S. Air Force, of Morgantown, was found unconscious in the car, Mr. Brugh stated. Mr. Boyle was thrown out when the car crashed into the concrete culvert.

Mr. Boyle died of a skull fracture and internal injuries, Coroner Brugh reported.

Next Saturday, March 14 will be "Free Chick Day" in Covington, Ky., with the J. H. Fedders Feed Company, local Purina Chow dealers, giving away 20 day-old cockerels to the first 250 adults to enter the store after the regular opening at 7:30.

According to Bill Fedders, manager of the store, the chicks will be given away as part of a nation-wide program, sponsored by Purina dealers, to encourage more "backlot chicken flocks."

"A lot of folks would like to raise a few chickens for the Sunday dinner table," Bill Fedders said, "and we have the program to help them do it, easily and economically. We're giving these chicks away to prove it."

Because of the limited number of birds to be given away, free of charge, it will be a case of "first come, first served."

Advisory Committee Holds Second Session Of Body Monday

Teachers, Salaries And Teacher Qualifications Are Discussed.

The Boone County Advisory Committee on educational policy, held its second meeting Monday night at the Burlington school, with H. N. Ockerman, presiding.

The committee discussed teachers, their qualifications and salaries paid in this county, surrounding counties and surrounding states. Most adjoining states pay a much higher basal pay than do Kentucky and Boone County.

In discussing salaries paid teachers in Northern Kentucky Mr. Ockerman presented each member of the committee with a salary tabulation of all schools in Northern Kentucky. They are as follows: Boone, \$271.67; Kenton, \$278.55; Campbell, \$234; Pendleton, \$203.40; Owen, \$191.20; Grant, \$186.20; Gallatin, \$208.40; Carroll, \$247.70; Bracken, \$216.80; Henry, \$201, and Trimble, \$221.

In independent districts, where taxable wealth is concentrated and where there is no transportation problem, salaries are considerably higher. The independent school district showing average salary paid under the same qualifications are as follows: Beechwood School \$370.50; Erlanger, \$284.44; Bellevue, \$290 and Walton-Verona, \$281.80.

Mr. Ockerman stated that if Boone County's transportation expense of \$32,000 could be eliminated, and this saving passed on in teachers' salaries, it would raise the monthly average to \$33.40.

Questionnaires are being filled out by Boone County's committee and by similar groups throughout the state. These questionnaires will be sent to the State Legislative Research Commission where they will be analyzed to determine the type education program desired by the majority of counties. This program will then be placed before the Legislature for action.

Florence Knights Take Top Honors In Thirty-Fourth District Basketball Tournament By Defeating Hebron

St. Henry and New Haven Eliminated By Knights In Upper Bracket; Hebron Wins Over Lloyd and Walton To Cop Runners-up Trophy.

The Knight of King Arthur's Round Table never rose to greater heights than did the Orange and Black Knights of Florence high school last week in winning the 34th District basketball tournament. Coach George Maines' crew, though fairly consistent winners during the regular season, reached their height when the "blue" tourney chips were at stake. The Knights who drew in the supposedly easy bracket picked up steam as the competition became tougher.

To gain their honor (and it was the first district tournament ever won by a Florence team) the Knights breezed past St. Henry 74 to 53 in their opening game, turned on the last quarter pressure to eliminate New Haven 60 to 51 in the semi-final, and then played their best game of the season to defeat favored Hebron 64-60 for the big payoff.

Hebron, picked by many to take top honors, reached the finals with wins over Erlanger Lloyd 72 to 65 and Walton-Verona 62 to 59. The Cards played good sound ball in

both wins and in the championship contest and may still reach higher stakes this week in the Ninth Regional play at Dixie Heights high school.

In other district games Walton's Bearcats reached the semi-finals by virtue of their 64-61 win over Burlington's Eagles. New Haven, who drew the lone bye of the tournament, automatically went to the next to the last contest.

Huge Crowds
The entire tournament was played before a packed building and on two nights fans had to be turned away because of lack of seats. The total number for the five nights was not available but estimates place the grand total at approximately 3,500.

Rector A. Jones, principal of the Florence school and tournament manager, expressed his thanks to the fans for their sportsmanship conduct, and he also expressed his appreciation to all who aided in any way to make the tourney successful.

Trophies Presented
The winners trophy, donated by Florence Drug Store, runners-up trophy, donated by Florence Hardware, and individual awards donated by Stringtown Store, were presented following the championship contest by William McEvoy, county attorney of Boone County.

The all-tournament team selected by coaches of the seven participating schools was composed of: Harold Markesbery, Bernard Hudson, and Charles Utz, of Florence; John Crigler and Dick Anderson, of Hebron; Billy Smith and Donald Vest of Walton; Jerry Ryle and Harold Dringenburg, of Burlington; Artie Schneider and Jack Finkrock, of Lloyd, and James Cook of New Haven.

WALTER BRUCE RIEMAN
(1889-1953)

Some one hath said, "Let us so live," that when in the evening of life the silver cloud rests sweetly and invitingly upon the mountains, and the light of heaven streams down through the gathering shadows of death, we may have a peaceful and joyous entrance into that world of blessedness, where the great riddle of life, whose meaning we can only guess at here below, will be unfolded to us in the quick consciousness of a soul redeemed and purified.

Walter Bruce Rieman, a son of Harrison Elliott, and Ruth Koons Rieman, was born January 5, 1889, in Ohio County, Indiana. Growing to young manhood in the vicinity

of his birth, and at the age of twenty-eight, he was united in marriage to Miss Bessie Whitman, on November 7, 1917.

Five children were born to this union, four sons and one daughter; Walter, Mrs. Velma Tyler, and Wesley, of East Enterprise; Winfred, of Lawrenceburg, Ind., and Sgt. Glenn Rieman, of Camp Atterbury, Ind.

During the pastorate of Rev. C. T. Casey, in November 1929, Mr. and Mrs. Rieman united with the New Liberty Baptist Church, and down through the years they have been true to their beliefs. It was not theirs to make a "great show" of religion, but carried on in an humble way to serve God, and their fellowmen. To the writer of this obituary, such people are the

salt of the earth.

In the spring of 1919, Mr. Rieman moved his young family to their present home, and for the past thirty-four years, this home has been the center of attraction for his family, and their friends; always with the spirit of give and take with each other.

Bruce, as he was known by every one, was a carpenter by trade, and was employed by the U. S. Government for thirty years, having been retired in 1947. After his retirement, he, with his son Walter, purchased a General Store in East Enterprise, where he became ill a few days before his death, which came as a great shock to his family and many friends.

Mr. Rieman was an industrious man, honest in his affairs, and accommodating to all who called upon him, never denying those who were in need.

Mr. Rieman was taken to the Millan Hospital, Sunday morning, Feb. 8th, with double pneumonia, where he passed away Saturday morning at 1:40, February 14th, at the age of 64 years, one month and eight days.

Besides his immediate family, consisting of his companion, five children, and five grandchildren whom he greatly adored, he leaves four brothers, Wallace, of East Enterprise; Harry, of Stewarts Ridge; Stewart, of Hamilton, Ohio, and Howard of Saddle Ridge; also two sisters, Sadie Rieman, Hebron, Ky., and Mrs. Bertha Otman, of Meads Ridge; and many other relatives and friends, who will deeply feel their loss in Bruce's death.

A Life

What was his creed? I do not know his creed, I only know that below he walked the common road And lifted many a load, lightened the task, Brightened the day for others toiling on a weary way: This, his only need; I do not know his creed.

What was his creed? I never heard him speak Of visions rapturous, of Alpine peak Of doctrine, dogma, new or old; But this I know, he was forever bold To stand alone, to face the challenge of each day.

His creed? I care not what his

creed; Enough that never yielded he to greed, But served a brother in his daily need; Plucked many a thorn and planted many a flower; Glorified the service of each hour; Had faith in God, himself, and fellow men; Perchance he never thought in terms of creed.

I only know he lived a life in deed! —By H. N. Rifer.

Obituary written by Rev. Frank Reed.

GO TO SUNDAY SCHOOL DAY FIRST SUNDAY IN MAY

Go To Sunday School Day is a red letter day for the Sunday Schools of Kentucky. Again we designate the first Sunday in May as the date for the 39th Annual Observance. This observance was created and sponsored by the Kentucky Sunday School Association. The objectives are as follows:

1. To extend to each individual in Kentucky an invitation to attend the Sunday School and Church of his choice in the community where he is on May 3rd.

2. To advertise to the community that the Sunday School is for all ages; and to stimulate all Sunday Schools to greater activity in bringing in as many visitors and new pupils as possible.

3. To unite the Sunday School people of all denominations in Kentucky in a definite program for the extension of the Kingdom of Christ by building larger and better Sunday Schools.

Each School that cooperates receives some blessing. With all earnestness, therefore, we call every Sunday School and every Sunday School worker in Kentucky to a hearty, enthusiastic and effective observance of Go To Sunday School Day May 3, 1953.

Revenue Department Find Violations Of State Cigarette Tax Law

The Kentucky Department of Revenue has found numerous violations of the State cigarette tax law following the lifting of price ceilings on cigarettes.

In most cases where the price per package has gone up, additional State tax is due. A typical violation in selling a popular brand for 25¢ a pack with only a 2¢ tax stamp. The law requires 1¢ cigarette tax for each 10¢ retail price or fraction thereof. Therefore, if the retail price of a pack of cigarettes is at last 21¢ before tax, 3¢ in tax stamps is required.

Revenue Department field men have been ordered to make a statewide check for violations. Retail cigarette inventories are to be checked for proper tax stamps. For selling understamped cigarettes, the dealer must pay additional tax due plus 100% penalty, and may be required to purchase a wholesaler's license.

Ohio River Bridge Delay Rumors Are Spiked By Keller

**Approval Given By
Kentucky Governor For
Repair Work On Road.**

O. M. Keller, who resigned last week from the Indiana Toll Bridge Commission, spiked rumors that Kentucky was withdrawing from its agreement for the new toll bridge to span the Ohio River at Lawrenceburg.

Keller said he was notified by W. P. Cullin, Kentucky Highway Commission, that Governor Wetherby of Kentucky had approved repairing of six miles of Kentucky 20 and widening small bridges and culverts on the road which will be Kentucky's approach to the bridge.

Kentucky agreed to build a highway less than a mile long to connect the Boone County Airport Road with Ky. 20 and later agreed to build a 3½ mile approach connecting Kentucky 20 with the bridge.

Indiana asked Kentucky to rebuild and widen Ky. 20, but Kentucky engineers agreed the project was not wise.

**Verona Youth Receives
Commission In Navy**

Newport, R. I., March 6—Eight hundred forty enlisted men traded their white hats for the gold trimmed caps of commissioned ensigns, as the Navy's only Officer Candidate School graduated its ninth and largest class here today.

Among those graduated was William M. Waller, son of Mr. and Mrs. William E. Waller of Route, 1, Verona, Ky.

These new officers will join other OCS graduates already serving on every type of combatant and non-combatant ship in the fleet.

Many will go to specialists schools where they will be trained further as pilots, aviation ground officers, beach masters, underwater demolition team officers or "frog men," and some will serve with the Marines in Korea as gunnery liaison officers.

These men, in four months of intensive study and training, have covered the same Naval subjects that college NROTC students do in four years. Foremost in their studies was gunnery, navigation, seamanship, engineering, damage control and operations.

To qualify for line officer's candidate school, a person must be a college graduate, be between the ages of 19 and 27, and pass a rigid physical examination. The only exception to age limitation are candidates for restricted line commissions who may be between the ages of 19 and 33.

Elmer Hinkle, Federal Marketing specialist, was the principal speaker. His subject was, "Where Do We Go From Here." Recreation was directed by Phoebe Ross, 4-H field man, University of Kentucky. Carl Jones, head of Utopia work, was present.

Boone County had the largest group of delegates attending the conference other than Kenton. There were sixteen delegates from Boone.

When Neighbors WORK TOGETHER They Find the BEST ANSWERS

Before farmers began working together in their national farm loan associations they were at the mercy of the money lenders. Interest rates were high, renewals were expensive if available at all, commissions were expensive, loans were made for short terms—everything was in favor of the lender.

Then, in 1917, farmers began working together cooperatively through their national farm loan associations and Federal Land Banks to get the BEST in farm loan service. In the years since the Federal Land Bank system was established there have been more improvements in the farm loan service available to farm families than in all the history of the United States up to that time.

It is generally recognized that every major improvement in farm mortgage loans during the past 35 years has been pioneered by the Federal Land Banks and national farm loan associations.

One of these improvements is our low 4% interest rate. Many lenders have raised their interest rates but the Federal Land Bank of Louisville still maintains its rate at the same low 4% that has been in effect since 1935. And the long-term without renewals, the privilege to prepay any amount at any time without penalty, no application fees, no appraisal fees, the future payment fund program, loans based on normal agricultural values—are other improvements.

It gives them an opportunity, by working together, to continue pioneering in making "The BEST farm loan in America" an even better loan.

WE PROUDLY PRESENT

The most compact baler ever built!

New Holland's great new twine-tie baler — the compact "66"

NEW HOLLAND'S Sensational

costs hundreds of
dollars less!

Makes hay baling practical
on almost any farm!

HERE ARE THE FACTS:

The surprise of a life-time! That's the New Holland "66". We'll wager you've never seen a baler so compact in design ... so completely new — feature after feature.

You'll be amazed the first time you see the "66". It's shorter and lower than most balers of its type on the market. It's designed to operate at full efficiency with a one or two-plow tractor. Best of all, it's priced so low that now even small-acreage farms can afford the finest in baling equipment.

Now you can enjoy the full benefits of having your own baler on the farm. You can bale your hay the moment it's ready to come in, and bale it fast for the highest quality with least spoilage by sun or rain.

In the field you'll find it hard to believe your eyes when the efficient "66" gobbles up the windrow. Nothing seems to stop it. It can kick out 6 firm square bales a minute ... package up to 7 tons of hay in an hour! And it bales anything—clover, prairie hay, sudan grass, maize.

Come in and see us right away! We're ready, and waiting to show you a "66". We'd like to go over this wonderful grass-lane machine with you point by point ... give you positive proof you can't buy better at the price!

The New Holland "66" proudly takes its place with the famous "77" twine-tie and the Mighty "80" wire-tie. No matter whether you feed, sell or custom bale, there's a New Holland that can do the job faster, better and at lower cost. Come in and look at YOUR New Holland today.

**SUCCESSFUL FARMING
THRU SUPERVISED CREDIT**

About 7,000 families in Kentucky were assisted toward successful farming by the Farmers Home Administration, according to the annual report released today by Earl Mayhew, State Director of Farmers Home Administration.

Loans were made to 2735 families, and about 8500 adjustment production and farm ownership borrowers received farming guidance as needed. About 40% of the farmers working with the Farmers Home Administration are veterans of World War II.

The FHA services were available only to farm families whose needs could not be met through regular credit channels in their home communities.

In the production loan program, 4532 families were aided during the year in establishing themselves on a sound basis and acquiring adequate livestock and equipment. One thousand and seventy new loans and 1017 subsequent loans for production adjustments were made totaling \$3,085,100. Two changes occurred in the general pattern of lending for production purposes:

1. The average loan was larger than before because legislation in 1951 raised the limit on an initial operating loan from \$3,500 to \$7,000. This made it possible to meet the needs of applicants for establishing

a substantial farm business, particularly when they sought to reorganize their farming enterprises or change from one-crop farming to diversification. In past years, the report noted, sufficient credit could not be extended in many such cases. The average production loan in 1952 was \$1,478 compared with the 1951 average of \$1,028.

2. Greater emphasis was placed on making loans that would bring about adjustments and improvements in inadequate farming systems. Only in exceptional cases were loans made solely to finance seasonal operating systems. The number of one-year loans, which do not provide for farming adjustments or yearly farm-and-home planning, dropped from 73 in 1951 to 28 in 1952.

An analysis of records of 1026 families who had repaid their adjustment loan showed they built up their net worth from an average of \$2,615 when entering the program to \$4,722 average when making final payment.

Six hundred and five families were active in the farm ownership program in which long-term credit is extended for farm purchase, enlargement or development. Farm ownership loans were made in 1952 to 76 families in the amount of \$775,317. More than \$380,000 of this was advanced by banks, Farm Bureau Insurance Company and other private

lenders, with repayment guaranteed by the Farmers Home Administration.

The average net worth of 35 families who paid up farm ownership loans during 1951 was \$12,266—more than five times their average net worth when receiving these loans. They had been in the farm ownership program, on the average, only 8.3 years, although most of the loans were set up for 40 years.

Three hundred thirty-seven families were active in the farm housing program, in which long-term credit is extended for new or repair of farm dwelling and other essential buildings. Farm housing loans were made in 1952 to 148 families in the amount of \$833,210.

Borrowers' payments of principal and interest on loans made or insured by the Farmers Home Administration and predecessor agencies totaled about \$2,275,000 in 1952.

If your child slumps in walking, DON'T SCOLD!
If your child's posture is not good, DON'T SCOLD!
If your child sits listlessly by while others are playing games, DON'T SCOLD!
If his longing looks and quiet unvoiced disappointment are apparent to you, DON'T SCOLD—LOOK at his feet! If you can't tell, bring him to People's, where trained fitters in foot mechanics and foot anatomy will check to see if his feet are responsible.

Many a young child has been cruelly labelled LAZY, because it was all but impossible to get him to do small chores around the house. If fitted shoes or weak feet may make it physical torture for him to do only what he just has to do. Don't take chances. Bring your child to People's. — Adv.

NOTICE!
When our home burned I had in my possession records of the East Bend Baptist Church. They perished in the fire.
If you are a member, I would appreciate your sending your name and the others as far back in your family as you can remember; also important events in the church that you can recall. I want to get all the names back on the roll as soon as possible.

Tobacco Specialist Discusses Problems Of Boone Farmers

Large Crowd Attends Meeting At Burlington Monday Night.

A large crowd attended the tobacco meeting held in the courthouse at Burlington Monday night, when John Irvine, tobacco specialist from the University of Kentucky discussed tobacco production and showed slides.

Mr. Irvine stressed the importance of the tobacco plant bed and pointed out the best results of plant bed location was in the middle of a field rather than near a fence row. He said that experiments had shown that plant beds prepared in the fall had given best results.

He pointed out the importance of controlling wildfire in the bed and that each grower should apply the Bluestone-lime mixture as follows:

Bluestone-lime mixture applied two or more times to the surface of the soil of the tobacco bed (1) when the plants are producing the first true leaf, (2) before the plants are the size of a dime, and (3) after each weeding, will help prevent wildfire and angular leafspot or rust in the plant bed. Wildfire is easier to prevent in fall-plowed than in spring-plowed beds.

To prepare Bluestone-lime mixture: (1) Fill a clean 50-gallon barrel or oil drum three-fourths full of water strained through a cloth. (2) In one container thoroughly mix 4 pounds of fresh commercial hydrated lime in 3 or 4 gallons of strained water. (3) In another container dissolve 3 pounds of powdered bluestone in about 4 gallons of water. (4) Pour the lime paste into the barrel of water and stir vigorously. While stirring, add the bluestone solution slowly. (5) Add water to make 50 gallons.

Apply without removing the cotton cover, with an ordinary sprinkling can. Stir each time the sprinkling can is filled. Use 1 quart per square yard. Fifty gallons will treat 200 square yards, or 140 running feet of bed 9 feet wide, or 100 running feet of bed 12 feet wide.

Sprinkle plant bed and plowed area on each side and on the ends. Ditch around the bed to keep surface water from flowing over it. Cut weeds instead of pulling them, or make another application of bluestone-lime after pulling weeds.

Caution: Bluestone-lime does not injure plants, don't wash it off. Don't mix nitrate of soda with bluestone-lime.

Tobacco diseases and insect control were discussed by Mr. Irvine. To control black shank, a dreaded tobacco disease, tobacco should be moved to another field where black shank was not located. Fields with black shank should be sown in legumes and used as hay.

Mr. Irvine warned the growers not to use too much nitrogen on tobacco and discussed the varieties of burley.

There will be a tobacco "field day" in Boone County in August. Russell Hunt, tobacco specialist from the University of Kentucky plans to attend this meeting.

Tax Commissioner Wilton Stephens Seeks Re-Election

Is Junior Past President Of Kentucky County Commissioner's Ass'n.

Wilton E. (Steve) Stephens, Boone County Tax Commissioner for the past 20 years, formally announced yesterday, his candidacy for re-election, subject to the action of the voters in the Democratic primary to be held Saturday, August 1.

Mr. Stephens, a native Boone Countyman, was born at Union, July 29, 1908. His father, the late Thomas P. Stephens, died December 2, 1922, leaving young Steve, at the age of fourteen, and the oldest of three children at home with the management of the farm. He continued his education after his father's death and graduated from Burlington High School in 1927.

Mr. Stephens continued to manage the farm for his mother, Mrs. Susie Stephens, until he made the race for Tax Commissioner in 1933. "It is with pardonable pride that I review my 20 years in office as your tax commissioner," Mr. Stephens says in his formal statement. "It has been said that I am the only Tax Commissioner in the State of Kentucky who makes a house-to-house canvass of the county to make the proper assessments. During the year 1952 only five appeals were made to the Board of Tax Supervisors, in the entire county, which is a strong indication that Boone County's tax assessments have been made fairly, impartially, and equitably."

"Honesty and integrity being equal, there can be no substitute for experience in this extremely tax-conscious age. The people of Boone County have just reason to be proud of the county's fiscal record, the only bonded indebtedness being approximately ten thousand dollars in outstanding road bonds. Boone County has the highest credit rating in Kentucky. Such a fiscal standing could not be possible without a properly administered tax structure."

"I have, to the best of my ability, served the people of Boone County as Tax Commissioner during these long years. I believe that I have knocked at more doors, and greeted more persons than any other man in Boone County. I know that you, fine Boone County people have always appreciated courtesy and fairness, and that you will not let this service go unrewarded."

Mr. Stephens is junior past president of the Kentucky County Tax Commissioners' Associations, and is a director of the Hebron Perpetual Building and Loan Association. He is a Mason, a member of Burlington Baptist Church, and the Florence Lions Club. In addition, he holds active membership in the Boone County Farm Bureau, Boone County Utopia Club, and the Boone County Fish and Game Club.

"My association with the people of Boone County has been a pleasure rather than a duty, and if re-elected, I will endeavor to serve you even more efficiently than in the past," Mr. Stephens concluded.

Florence Knights Take Runner-Up Honors In Tourney

Newport Catholic Take Top Honors In Regional At Dixie Saturday Night.

The Newport Catholic Thoroughbreds won the right to represent the Ninth Region, northern Kentucky, in the State basketball tournament this week as a result of their 85-54 win over Boone County's Florence Knights Saturday night. The Knights, though defeated in the biggest game of all, were still a group of "champions" in the eyes of their vast tourney following. Coach George Maines' crew, who the previous week had copped the 34th District, won their way to the final game with impressive victories over Hebron's Boone County Conference champs and Williamstown, winners of the Pensacola Conference and representatives of the 33rd District.

In the Florence-Hebron game of last Tuesday night the Knights paced by Irv Luck and Bernie Hudson led the Cardinals all the way. The Hebron team, with John Crigler paving the way, made a gallant bid and several times in the game pulled within a few points of the winners.

Scores by quarters with Florence leading at all stops were 13-8, 32-23, 43-37 and 67-54. Scoring: Florence, Hudson 17, Denner 6, Maddox 0, Luck 21, Duvall 3, Markesbery 13, Utz 7, Hebron, Tanner 1, Henderson 7, Anderson 2, Crigler 30, Hogan 1, Braultigan 13.

Florence 71, Williamstown 62. Florence's second victim of the tourney was the Williamstown Demons. The Boone team fought off several threats and the game was close until the last six minutes of play when the winners broke a 47-47 tie to sew up the victory. The final score was 71-62 after quarter scores of 19-16 in favor of the Demons, 32-29 and 44-43 in favor of Florence. Scoring: Florence, Hudson 18, Yelton 3, Denner 2, Luck 24, Markesbery 10, Utz 14. Williamstown, Hall 18, Forre 17, Taylor 19, Hale 7, Poore 1.

Williamstown earned their way to the semi-finals with a mild upset win of 66-63 over the Highland Bluebirds. In the championship game Jim Conner's Newport Catholic five, a consistent winner all season, reached their peak and hitting with uncanny precision they breezed most of the game. The Thoroughbreds defeated Dry Ridge in the first round by a lopsided score and then trounced a patch-up Holmes team 73-62. Holmes was without the services of two regulars and their first reserve player due to disciplinary action taken by the school on the day of play.

In the Newport-Florence game the winners scored 35 field goals and hit 15 free throws while the Knights were connecting for 17 from the floor and 22 from the charity line. Quarter scores were 24-13, 39-27, 64-40 and finally 85-54. Scoring: Florence, Hudson 7, Luck 8, Duvall 2, Denner 8, Markesbery 20, Utz 9, Newport, Hoffman 16, Carr 6, Hennegan 13, Meyer 2, Wissman 21, Gish 2, Briede 7, Caldwell 10, Meyer 6, Schneider 2.

Good Record

Even though the Knights didn't pull the upset many fans had hoped for in the final game, the team, school, coach and fans are to be congratulated upon their excellent showing. The 1953 Knights were the first Florence team ever to win a district tourney, were the first ever to go to a regional final, and the first ever to win more than fifteen games in one season (they won 30 played including tournaments).

Liquid Velvet-

**TOPS
THEM
ALL!**

O'Brien's Liquid Velvet is the original "velvet" wall finish . . . Made with patented Pre-Shrunk Oils, it imparts a matchless finish of rich beauty to most any interior surface—to plaster, wall-board, cement, wood, metal and wallpaper. Extremely washable, it actually resists dirt . . . Keeps its rich, velvety appearance for years.

Most anyone can get a perfect paint job with Liquid Velvet. Goes on easily with brush or roller. One coat covers most surfaces. Dries quickly. Has no objectionable odor. Many new colors to select from. Use Liquid Velvet in your home this year . . . You'll agree it tops them all for its smart colors, beauty and all-around value.

J. L. and G. F. Hanson, brothers who farm as partners in Lincoln County, won second place with their yield of 111.7 bu. per acre.

Kentucky farmers who entered the 1952 5-Acre Corn Derby with DEKALB CORN, took 5 out of the first 10 places—including the first and second. (see listing below). That's an outstanding record—one that's certainly a good indication of DEKALB's yielding ability, and good reason why you should plant DeKalb in '53. This year's DEKALB SEED, is plump and full of vigor and DeKalb Dealers have varieties that are bred to fit your farm and purpose. See YOUR DEKALB DEALER today.

"One Mad Night" By Florence Junior Class Coming

The junior class at Florence are presenting a farce mystery comedy, Friday night, April 10, at 8:00 p. m. The action of the entire play takes place in "One Mad Night" and what a crazy night it is! Don Cutter, a playwright, accompanied by Wing, his proverb-quoting Chinese valet, goes to the Cutter mansion, a lonely house in the hills, to complete his latest play in peace and quiet. The house has been deserted for years; mysterious murders having given it the reputation of being haunted. Imagine Don's astonishment when he finds a number of strange people in the house, who were lunatics! Wait until you see Lucille! And, oh yes—Depression—one of the funniest colored characters in years.

Everything happens—talking ghosts, screaming women, disappearing guests, and an escaped murderer fleeing for his life. By the time the final curtain falls, the audience will be weak with laughter and ready to admit that "One Mad Night" is the last word in rapid fire hilarity.

The characters are as follows: Don Cutter, a young playwright, Larry Duncan.
Wing, his Chinese valet, Richard Crist.
Frisella, who knits, Dolores Muench.
Lady Macbeth, a victim of Shakespear, Louise Durain.
John Alden, who hunts Indians, Glenn Duval.
Mr. Hyde, a ferocious villain, Jerry Denner.
Dr. Bunn, who is in charge, Harold Markesbery.
Lucille Marcy, a damsel in distress, Lorraine Utzinger.
Mrs. Kluck, the housekeeper, Joyce Stevens.
Gertrude Finch, Don's fiancée, Nancy Yelton.
Mrs. Finch, her mother, Irma Abbott.
Depression, the colored maid, Charlotte Durain.
Artemus Burke, a lawyer, Bobby Taylor.
Danny Siletto, wanted for murder, Bernie Hudson.
Mata Hara, a beautiful spy, Phyllis Scott.
The public is cordially invited to attend.

"Nehaboko Orders Being Taken

The New Haven seniors are taking orders for their annual "The Nehaboko." The price is \$1.00 down and 75 cents on delivery. The 1953 annual will be bigger and better than ever before. This year, graduation exercises and other end-of-the-year events will be included. For this reason, annuals will be mailed to subscribers in the fall. We think the added features will more than compensate for the slight delay in delivery. If you wish to order an annual, place your order with Ronnie Crume, Jack Feagan, or Ann Wilson.

Coed: I'll stand on my head or bust.
Phy. Ed. Teacher: Just stand on your head, we don't ask too much.

The Walton Bearcats seconds will furnish the opposition in the championship game by virtue of their 41-25 win over Burlington Monday night. Accidents Rank As No. 1 Killer, Says Seal Leader

Accidents constitute the Number One killer of children in this country, and one-third to one-half of all orthopedic impairments of children result from accidents.

According to Briggs Lawson, Shelbyville, state chairman of the Easter Seal Campaign, more children from one to fourteen years of age die from accidents than the next most common causes of death added together. Furthermore, a greater percentage of children in crippled hospital in Kentucky come from rural areas than from urban areas.

This is what Chairman Lawson had to say about the forthcoming Easter Seal Campaign:

"Do the statistics just cited convince you that your Easter Seal societies cannot afford to concentrate all their attention on a few sensational-type (and perhaps over-publicized) diseases? And consider this: In spite of all our foundations and money-raising, in spite of gigantic expenditures of money, time, and effort, we do not know how to prevent many of the strange and comparatively rare ailments that cause children to become crippled."

"Maybe someday soon we can prevent those maladies, but at present the only major crippling cause which is preventable is accidents."

New Libraries For Kentucky

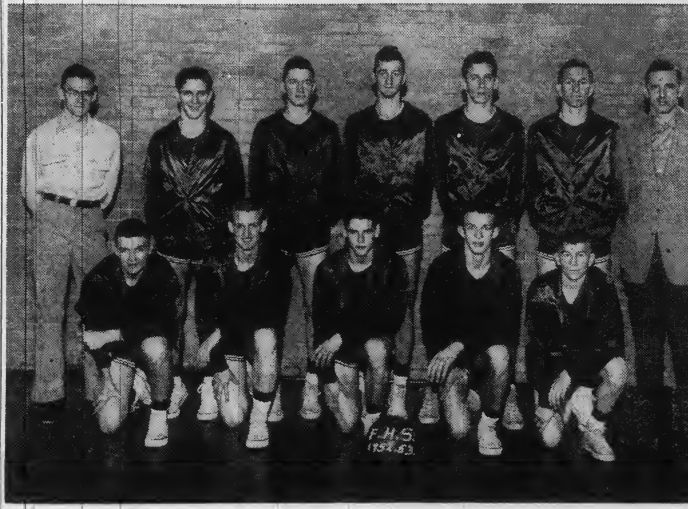

Some 60 per cent of the people in Kentucky have no access to books through a public library service.

This ranks Kentucky as 47th in this department. Furthermore, 80 per cent of the rural population in Kentucky have no public library service at all.

These revelations were brought forth at a meeting of the Kentucky Bookmobile project held last month in Louisville. This statewide committee plans to do something about the lack of library service in Kentucky by adding 94 bookmobiles to the six already in service, making a total of 100 mobile libraries for Kentucky.

A fund-raising campaign will be launched early in 1954.

Assembly Program Features Voices

By Irene Hoffman
On March 8, 1953, Mr. Harry Foster Welch appeared at Florence High School. Mr. Welch is known as the man with a thousand voices. He portrays Popeye, Pluto, Big Bad Wolf, Roy Rogers and just about any other character you would care to talk with. He also impersonates a symphony orchestra. His performance was enjoyed by some of the lower grades, but he didn't make too big a hit with the high school.

American Industry Criticizes Secondary Schools; Recommend Changes in Course of Study and Methods

The following article from a Bulletin issued by the National Electrical Manufacturers Association indicates that American industry is dissatisfied with high school preparation for engineering. ED. NOTE: The News makes no effort to argue the question nor do we necessarily agree. We reprint part of the article for your consideration.

It has been reported by several of our technical colleges that possibly half of those students who enroll for engineering following their graduation from the secondary schools are deficient in mathematics and science. Basically, there have been no changes in college entrance requirements for many years and the logical conclusion can only be that a careful study of high school preparation is in order.

We are told by the United States Office of Education that only 20% of all high school students are taking mathematics; that 12% enroll for chemistry; and 5% enroll for physics. It would appear that in

WE STILL BELIEVE THE — Old * — got *\$—?? and that he was a —!!!!* and that anybody who disagrees is also a —!!!!* goat.

"Res Memoriae" Staff Plans Subscription Drive

The senior class of Burlington High School is hard at work on their favorite project—1953 Yearbook. More than one hundred pictures have been taken, both formal and informal shots; sports statistics are ready for publication; calendar of events up to date; the art work is being prepared and make-up work is ready.

The 1953 edition of Res Memoriae is expected to excel any previous edition. It will contain approximately fifty pages of good pictures and interesting captions besides approximately 20 additional pages of interesting material. The book cover will be padded cloth.

Fall delivery has been arranged for in order that pictures and records of the 1953 graduation may be included.

Ms. June Brown, yearbook editor, has as her goal: A complete picture of our school thru this book for our parents and the supporters of the school.

Subscription Drive

Gus and Casey Augspurg, famous jungle-wonders entertainers, presented a program of fun, science and excitement at the Burlington school last Thursday morning. The program besides being very educational was "monkey business at its best."

Trained dogs, birds and monkeys featured the show.

Prof: By shearing hydraulic rams.

Tomorrow's Travelers Program Gaining Interest

By Ann Wilson
The Tomorrow's Travelers club is sponsored by the Kentucky State Fair Board, in co-operation with the State Board of Education and the Kentucky State Police. The club is designed for teenagers.

Its purpose is to improve driving habits and teach safety. Most of the high schools in Kentucky have Tomorrow's Travelers clubs. In order to join, the boy or girl must have his driver's license. Members are required to learn and obey an Honor Code of the Road.

In February, each club selects one member as the best driver from their school. This year's winners in the 34th district were George W. Baker of New Haven, Joyce Jones of Burlington, Jimmy Powers of Hebron, Billy Maddox of Florence, and Dick Dudgeon of Lloyd. Each winner received a blue ribbon.

The district meeting is also held in February. George Baker was the 1953 district champion. He received a pin.

The district winners go to the regional meet, where prizes are awarded the winners.

The sixteen regional winners will go to the Kentucky State Fair, held in September in Louisville. They go in the family car, but their transportation costs are paid. They are escorted through Louisville to the fair grounds by state and local police. The streets of Louisville and the fair grounds will be the site of tests to determine the state winner. The state winner has his or her choice of a new 1953 Ford, Plymouth, or Chevrolet car. The club is probably one of the most beneficial high school clubs in existence. Certainly more devices to insure highway safety are needed. We would all do well to learn and obey the honor code.

Tomorrow's Travelers "Honor Code of the Road" I pledge myself: Not to take chances, speed, or show off in an automobile; To be an alert, courteous and careful driver at all times; To learn and obey all traffic laws; To keep my mind on my driving, my hands on the wheel and my eyes on the road.

Red Cross Fund Campaign Launched

To finance expanded service programs, including the collection and processing of thousands of additional pints of blood for conversion into gamma globulin, the American Red Cross has launched its annual fund campaign for \$93,000,000.

This goal is an increase of \$8,000,000 over last year, and will be used largely to expand the Red Cross defense blood collections for the production of gamma globulin, which prevents paralysis from poliomyelitis. Funds also were added to the 1953 quota to provide a Red Cross recreation program for able bodied service men abroad.

The Red Cross was asked to undertake the polo assignment last November by the Office of Defense Mobilization in an effort to meet the summer's epidemic needs.

U. C. Scholarships Available To Boone Seniors Next Year

The Cincinnati Milling Machine Co. recently announced the establishment of four scholarships at the University of Cincinnati. They will be awarded to high school seniors in the upper 10 percent of their class who enter the University of Cincinnati in a Co-operative Engineering course. Although intended primarily for students entering the University in a Mechanical or Electrical Engineering course, exceptional students who plan to study Chemical or Metallurgical Engineering will also be considered.

Each scholarship provides a total award of \$1,600.00. The scholarship winner's earnings from co-operative work will supplement the award, so that the winner should be able to secure a complete college education without financial help from home.

Work periods alternate with the periods of University study in the cooperative course. For the scholarship holders, these work periods will be spent learning the practical side of engineering in one of The Cincinnati Milling Machine Co.'s Co-operative Training Programs.

Copies of a booklet describing these scholarships and the Co-operative Training Program at The Cincinnati Milling Machine Co. are available at principal's offices.

CONSTANCE SCHOOL NEWS

The Cornercracker 4-H Club was organized February 9th with 27 members.

Jackie Coyle was re-elected president and Louise Keaton vice president. The other officers are Aneta Hempling, Elva Ann Dolwick, Nancy Morehead, Mary Beth Hempling, Norma Jean McGlasson, Thelma Maxon, James Hankins, and Betty Meyer. Mr. Lents was elected Community Club leader for the twenty-eighth time.

The club had its first regular meeting on February 23d with the President, Jackie Coyle presiding. The roll was called and each member answered the roll by naming a tree. All club members were present.

Joe Claxon, County Agent, was present and made an interesting talk to the group. He told the group about the coming club events. He also discussed an electrical project that some of the boys had thought of taking.

The lunchroom has a new kitchen sink with three compartments which is required by the State Health Department.

The sixth, seventh and eighth grade boys built a fence across the front of the school ground to keep out trespassers.

The 345 Citizenship has purchased a new American flag for their room. Much interest is being shown in the map of Boone County which the club bought from the State Highway Department.

We wish to thank the Personal Finance Company, Pike St., Covington for saving all their "news photos" for us. These pictures are the latest photos of news flashes, and it helps us keep up with current happenings everywhere.

We expect to have our booklets on Boone County completed in about three weeks.

A reading club has been started, the purpose of which is to help everyone to enjoy reading more interesting books. So far this year, over one hundred books have been checked out of our library by the third, fourth and fifth grades.

Sense and Nonsense

Louise Keaton is having a difficult time deciding whether she wants a Herrington or Hankins. It may be a Hankins, as there are three to pick from.

Why does Jackie Coyle like to sit at James Klassner's desk when James is ill? Could it be that she leaves a few notes of sympathy. Judy Hummer and Elva Ann Dolwick don't seem as friendly as usual. It will take Billy Herbstreit to get them back on friendly terms.

Ronnie Crutchfield has been spending most of his leisure time at Mr. Joseph's. He says that he is visiting Frankie, but we believe that he is trying to interest Pat Joseph. Look out Masters, you may lose her.

Every time Mary Ballinger misses school Donald Tunning paces the floor like a lion in his cage. Anita Hempling is sad because the basketball games are over. Neta, you may have to wait until fall now to see Roger Purcell play football.

Bobby Herrington has finally made up his mind about the girls. He has had so many girl friends that they called him a Mormon, but it is Shirley Masters now.

Why is Patsy Loze so friendly with Jackie Coyle? Probably it is because Jackie has a brother that attracts her.

Emily Rudisell is always wanting to go to the airport. We all know that she is not air-minded but boy-minded. Who is it Emily?

Bobby Austin is the only boy in school at this time who sits back and takes it easy. He and Gail Houpp have decided not to look any further.

Anthony Duering is having the hardest time of any other boy in school to decide with whom to cast his luck. He does know one thing. It is a Crutchfield, but which one? There are four of the girls. Maybe it is Dorothy.

Don Tunning asked Jimmy Snelling what kind of chicken lies the longest. Jimmy said, "A rooster." Don said, "Don't you know a rooster never lays." Jimmy said, "He does too, when he is dead."

Girl Scout Troop 188 of Florence To Give Play

By Shirley Martin

This month the Girl Scouts of America are celebrating their 41st birthday.

This organization is a fine thing for any girl to join. The girls are taught honest, self-respect, and respect for others. They learn how to cook, sew, and get along with other people. They are taught many dances and songs and how to apply first aid.

Every year each girl has an opportunity to go to a camp where she can swim, hike, and partake in many other sports.

You can also correspond with girls of other countries and learn of their ways and customs. You may even have a chance to go to Europe where you will meet girls of European countries.

The Girls Scouts is truly a wonderful organization that shows wonderful hospitality for everyone.

Troop 188 of Florence is having a three-act play called "Sweet Sally Brown." The play is an uproarious comedy about a confessed mar-hat who runs a girls' school. When Sylvia Bond, a wealthy young heiress, comes to Haddon Hall, things really begin to happen. It is a fine play which the whole family will want to see. The play will be advertised when the date is decided upon.

Father Gripes; Teacher Snipes

I am neither old nor stuffy. I was tutored past McGuffey. And I cut my second dentals. On the good old fundamentals. And I'm puzzled by the new pills Swallowed sweetly by your pupils. Can't you tip me off this autumn. On the latest dope you've taught 'em?

Just to ease my nightly homework. Doing little Willie's homework. Thank you for all the bother. I remain, a Baffled Father.

Teacher's Reply

Thank you for your kindly letter. Sorry we don't know you better. Methods change in schools you know.

Otherwise we wouldn't grow. Homework shouldn't be a bother. It's for Willie, not for Father.

Projects, Honor Rolls Feature Grade News

Honor rolls and class projects feature the news of grade school classes of Burlington school, according to student reporters.

Second Grade: (Mrs. Ockerman) Honor Roll—Gary Ray Moore, Albert Snelling, Ralph Utley, Delsie Buckler, Karen Ann Peifrey and Jane Ryle.

Third Grade: (Mrs. Maude Kelly) Honor Roll—Arlene Sue Atkins and Ernest Biddle.

Fourth Grade: (Mrs. Lallie Kelly) Honor Roll—Janet Portwood, Ruth

O. W. Chinn, director of the Division of Flood Control and Water Usage prepares to add another photograph to the giant bulletin board presented to the state agency by the U. S. Corps of Engineers. The board presents pictorially the partial story of the accomplishments of the Federal group in Kentucky.

The new Student Union Building, below, at Western State College, Bowling Green, will undergo final inspection in March. The two-story fireproof building contains cafeteria facilities, a snack bar, lounge, game rooms and meeting rooms for students and faculty.

Hamm, Marie Richardson and Albert Ryle. The fourth grade has two new students, Donnie Walton, who recently moved from Phoenix, Arizona, and Eleanor Kidwell from Flemington County.

Fifth Grade: (Mrs. Mary Huey) Honor Roll—Tommy Ryle and Ruth Evelyn Biddle. The class received four maps, in individual steel cases, recently. The maps are of Europe, North America, Africa and the world. The class has started a unit on "World Neighbors." In May, when the unit is completed, the class hopes to present a program to the P. T. A. on this theme.

Sixth Grade: (Mrs. Isabelle Cropper) Honor Roll—Judy Scott, Carla Mae Griesser, Mildred Ryle, Sam Johnson, Dora Jean Dringenburg, Charles Scroggins, Carol Haley, Bobby Taylor, Paula Williams and Wanda Walton.

Seventh Grade: (Miss Dorothy Caldwell) Honor Roll—Judy Walton, Wayne Ragland, Mary Jo Atkins and Helen Biddle.

Eighth Grade: (Mrs. Annie Shelton) The Eighth Grade wishes to discuss the problem "What Are The Underlying Causes of Adolescent Misbehavior?" Following are ex-

tracts taken from pupils' written reports on the above subject:

Our parents say we do not think . . . Some say we think too much . . . adolescents do not object to working at home or school, but they want to be rewarded with recreation. If parents would allow the children to invite the "gang" in for an evening of fun . . . let them feel the home belonged to the children as well as to the parents . . . such parties would prevent youngsters from forming "gangs" to do unlawful things . . . Many youngsters often start doing wrong things, just for the excitement . . . At school, programs have not been arranged where all of the groups can take part . . . At home, our program is: Sit with the older people, work at our assigned jobs, or watch television shows of their choice . . . Many of the reports said "we are tired of television." Older people and parents have misjudged us boys and girls. We are living in the Atomic Age . . . Parents, teachers, and others of authority give us a chance please. Open up your homes to us. Lay the recreation center where we can get together for some clean fun. Work with us.

THE LOWDOWN!

FLORENCE GOSSIP ITEMS

By Lois Caudill

During the five nights of the tournament at Florence School, an alert and interested on-looker could have noticed many juicy items which aren't generally known to one and all. It took a quick and roving eye to locate the Florence students because they really scattered once they entered the gym.

Those brand new basketball jackets are really neat, aren't they, Larry Y.? I believe Irene was the lucky girl who was wearing one Thursday night. Irene, how did you ever get them to let you take it out of his sight for even a minute? Because these jackets are a joy to behold.

Lorene, did you really get home early after Tuesday's game as you said you would? Then why were you seen loafing after the game at Southern Trails with a certain star basketball player. By the way, that Charlie Utz is a real cool basketball player.

Paul, what is this about the cute brunette, B. E., that you were having such a swell time with Wednesday night? Don't keep us in the dark, fella.

Bernie really received a gash above his eye during our game with New Haven. Of course it is no no secret about who was near tears after it happened, is it, Lorraine?

How about the new fad which the Florence girls are taking up? If they do not go steady they wear a dog collar around their right ankle, and if they do go steady, the dog collar is worn around the left ankle. Janice N. is now sporting one of these dog collars around her left ankle, and since she attended Saturday's game with "Slim" it seems to add up.

Friday night, after our game with New Haven, Babs Denham was seen leaving the good old F. H. S. premises on the arm of her New Haven heart-throb, R. C. I wonder if she did buy him a steak dinner as she promised to do if Florence won the game. Or did she use the silly, old-fashioned excuse of "sorry, no money."

WAGGIN' TONGUES

By Ann Wilson

The dog collar has hit New Haven. The boys are inquiring about which foot means "going steady" and which means "available."

Looks like Shirley Sutton has come home. Jimmy convinced her that New Haven boys rate better than Warsaw any day.

Betty can't seem to make up her mind whether she prefers Surling

TOO MANY TOURNAMENTS

The News believes the sports program in schools is a great asset . . . we favor heartily a well rounded sports program . . . but we feel that basketball and especially basketball tournaments are far too numerous and that the schools are using poor judgment in sponsoring so many.

Starting March 3 it was the district tourney for "A" teams, last week it was the Regional tourney for "A" teams, this week on Monday and Tuesday it was "B" teams tourney, and on Wednesday through Saturday it is the State tournament. Next week for two days it will be the midget team tournament, then on the following week . . .

One county coach reports: During the month of March I will have seen

PARDON US IF WE HAVE MISSED ANY OF THE TOURNAMENTS. THE SLIGHT WAS NOT INTENTIONAL.

ton or St. Henry. Glenn's trying to make her forget them both for New Haven.

Ann's theme song these days is "Till I Waltz Again With You," to be dedicated to Pt. Jimmy M.

Bonnie and Linda are best pals now. We hope Danny A. won't be the cause of a feud.

Don and Jackie couldn't find any trees, so they carved "Frieda" and "Mary" on their arms. That's what I call sacrificing for love.

Penny has her dog collar on her left foot. Wonder if the one she's wearing on her neck will be switched to Jackie's.

Why do Evelyn and Sara Mae look so downhearted these days? Watch those Sophomores, girls.

Still inseparable—Rube and Gertie Peggy and Billy. And we mean inseparable! Even a prospective trip to Washington won't make Peggy leave Billy.

Ronnie and Slim look worried lately. Is it because they can't go to school at Florence? Don't let the rumors worry you, fellows.

The boat from Korea left February 28. Faye's been looking expectant ever since. Carl is going to get a big welcome home.

We hear there's a battle over the James Cook. Two juniors are the competitors—Jill and Peggy G.

Phyllis, who's the blond N. H. graduate you were getting so much attention from at the district tournament?

BHS GOSSIP

It seems that a certain junior girl has here eye on a senior boy. B. L. L. is it D. R.?

Why would Patsy Smith who is playing "Mable" in the play, like to have been "Sylvia"? Could it be because of P. C. who plays opposite Sylvia?

Who are you being teased about on the bus, Florine? Is it G. S.?

Why does Shirley R. like Biology class so well?

The juniors are planning a party for the seniors in the near future. J. P.'s little black Ford seems to fascinate a certain frosh girl. Betty Mae, it must be you.

What high school teacher is now playing with dolls? Mrs. Revel?

Billy Ogden seems very popular among freshmen and sophomores. A sure thing. Mary Lou B. looking bored and yawning in class. Her thoughts seem to be on "Spookie" rather than class.

Wonder why Carol is so interested in basketball practice lately, Ralphie McF?

New Haven Grades

The first grade is very sorry to lose Dixie Varner, who recently moved to Louisville, Kentucky.

The fourth grade is working on a spring unit on "Flowers and Birds." They are sorry to lose Billy Moore, who moved to Petersburg.

The fifth grade sheathed their desks. They look very nice. They are glad to have Tommy Brown back. He just recovered from the measles. The fifth grade has two new students, Dorothy Dean from London and Curtis March from Burlington.

The Freshman class has sad news to report. Bobby Parker is very ill and Bonnie Bartram and Gene Paul Newman have been out with the measles. Kaye Smith recently moved to Ohio.

The Juniors have selected their class play, which will be presented in April. The name of it is "Out On A Limb." Rehearsal will begin next week, under the direction of Mr. George Edmonson and Mr. Norman Perkins.

—Ann Wilson, Shirley McCubbin

68 basketball games and will have seen my wife three times; seen approximately 7,000 points scored and graded 7 papers; saw fifty-four plays explained and two classroom problems explained; heard empty thousands rah rahs and was so tired when he went to church that he didn't hear his preacher at all. IN SHORT EVERYBODY IS BASKETBALL CRAZY.

A stranger looking for a college drove up to the gate of an insane asylum. Upon discovering his mistake, he said to the guard: "After all, I suppose there isn't much difference between them."

"Oh, yes, there is," replied the guard. "In this place you've got to show improvement before you get out."

HATS OFF TO:

The boys who made the 34th District All-Tourney team. They were: Hudson, Utz, and Markesbury of Florence; Crigler and Anderson of Hebron; Ryle and Dringenburg of Burlington; Smith and Vest of Walton; Schneider and Finck of Lloyd, and Cook of New Haven.

What a team this would make. A coach's dream!

SPEAKING OF A COACH'S DREAM

A midwestern university basketball coach after viewing his first rowing race remarked: "That's for me. That's the only sport I ever saw where you could sit on your fanny and win going backward."

A check of several of the coaches and approximately twenty-five boys from the high schools brings out the fact that interest in track is not in the earliest stages. The reasons: Some want to have spring football practice, some want to play baseball and some feel that after such a long basketball grind that more stress should be placed upon classroom work. WHATEVER THE SITUATION THE NEWS FEELS THAT COACHES AND PRINCIPALS SHOULD MEET SOON TO PLAN THE SPRING SPORTS PROGRAM.

Young Man (watching football practice): "That fellow running down the sideline will be our best man this year."

Girl Friend: "Oh, darling, this is so sudden!"

The News learns that Jerry Ryle, Burlington's all-around star athlete, is pondering over a baseball scholarship at one of Ohio's bigger colleges.

We also hear that Monk Vest may go to Centre Two county footballers, Jerry Lustenberg and G. W. Baker, are Kentucky bound . . . Let us know about others.

CONGRATULATIONS DEPT. To Mr. Rector A. Jones on the well-planned tournament . . . to the Knights in victory . . . to the officials . . . to the players for their fine play and good sportsmanship.

Even in this day of the "cheap dollar" we still think a "buck" is too much to see a high school ball game of Regional Tourney quality.

Maybe the new consolidated high school gymnasium will be completed in time to have the district tourney at that place next year. We're sure those rain-soaked fans who braved the elements for this year's games hope so.

Cowards can fight when they're out ahead. The uphill grind shows a thoroughbred.

You wish for success?—then tell me son, How do you act when the pressure's on?

FINAL SHOT: GIVE WHEN THE RED CROSS CALLS.

Learn to Swim--- 3

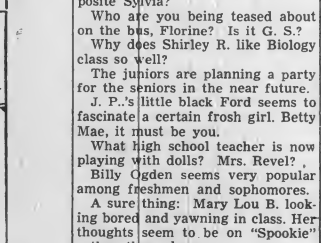

1. The arm-stroke which is most basic to swimming is commonly called the "dog-paddle." Practice sliding the arms forward alternately then pressing backward, first on land, then standing bent forward in shallow water, and finally lying face down.

Getting Underway

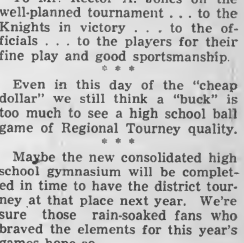

2. Next combine the "dog-paddle" of the arms with the crude flutter kick previously learned. Start with the glide, add the flutter kick, then add the arms, and you will be able to cover as much distance as one breath will allow.

Learn to Swim--- 4

3. To swim any distance with your newly acquired strokes you must be able to breathe while swimming. This is where "blowing bubbles" comes in. Take the above position in the water, in face at one side, then roll the face under water and exhale.

Resting on the Back

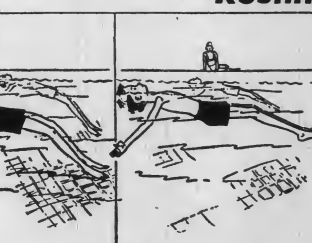

4. Now fit the breath into the stroke in this way: S. with a prone glide, add the arms, and then put in the breathing. Turn the head to breathe in as one arm is extended beyond the head, exhale under the surface, and repeat each time the same arm extends.

Learn to Swim--- 4

1. Floating face down is no way to rest for very long, because you can't breathe. It is now time to learn to float face up so you can breathe comfortably. Try it first by sitting on the bottom, laying the head back in the water and letting the feet rise.

Resting on the Back

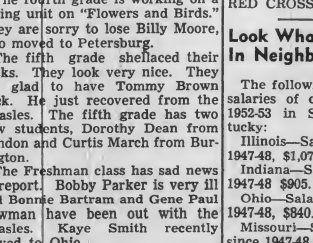

2. Next, take one hand and then the other off the bottom. Do this gently and slowly and you will find that even though the heels still rest on the bottom you are to all intents and purposes really floating. A slight arm movement and your feet will begin to rise.

Resting on the Back

3. To float free in chest-deep water assume the same position. Lay the head back in the water, then move the arms gently a little farther back of the shoulders. If you have a fair margin of buoyancy this should bring the feet clear off the bottom.

Resting on the Back

4. If you have plenty of buoyancy, a little experimenting with the position of the arms, and by regulating the intake of air you will float in the horizontal position. If you lack that margin, however, you can rest comfortably with the body at a 45° angle.

TRUCKS**

Gasoline 4,000 GYW to 30,000 GYW
Diesel 19,500 GYW to 100,000 GYW

No other light trucks have all this.

YOU don't expect polo-pony agility from a truck in traffic—but the new GMC's have it. You'd like to have passenger-car pace and economy on the highway—and you'll get it from the 1953 GMC's.

For there are two tremendous advances that step the new GMC's far ahead of all previous truck performance:

One: Dual-Range Hydra-Matic Drive*—the fully automatic shift with 3 speeds for traffic, 4 for the open road—available on 19 models throughout the 1/2-, 3/4- and 1-ton capacity range.

Two: a new line of engines of progressive design, with compression ratios of 7.5 to 1 and 8.0 to 1—the highest of any gasoline truck engine ever built. Here's pile-driver power behind every piston stroke—flashing response and better mileage squeezed from regular fuel.

A number of chassis advances too, add to the extra-value features that make GMC's, point for point, the biggest dollar's worth in the light-truck field as well as in the heavier lines.

We confidently tell you—these great new GMC's will do your job better, easier, and at the lowest over-all cost. They have stamina beyond their size, because they're "built like the big ones"—the heavy-duty GMC's that lead the world in sales.

That's saying a lot. But just come in—and we'll prove it.

BAYLESS HARDIN GUEST SPEAKER AT BOONE DAR

Bayless Hardin, Secretary-Treasurer of the Kentucky Historical Society at Frankfort was guest speaker at the March meeting of the Boone County Chapter Daughters of the American Revolution.

A dinner meeting was held Tuesday evening at Doc's Place, Dixie Highway near Florence, in honor of the Chapter's first anniversary.

Mr. Hardin was introduced by Mrs. Ashlin Logan, program chairman. During his talk, captioned "Relationship Between D. A. R. Genealogy and the Historical Society," Mr. Hardin said, "Genealogy has become a historical science and has been accepted as such; whereas everybody contributes to history." All genealogical records must be correct before accepted by the National D. A. R. Society. He discussed early ancestral records, census records, and tax lists. Some of the records are filed at Frankfort of earlier settlers in Kentucky.

Anyone doing genealogical research may find these records valuable in obtaining his line. Many historical records may also be found at the Kentucky Historical Society. This data has been compiled not only for the use of the Society, but also for the public.

Mrs. Roy Nestor, Chapter Regent, gave a report on the D. A. R. State Convention held at Ashland, Kentucky.

All Price Controls Are Terminated

All price controls were terminated by an order issued at Washington by Price Stabilizer Joseph H. Freehill. The action was taken in Amendment 1 to the General Over-

riding Regulation 44. The amendment exempts from price controls all sales of commodities and services, both in the United States and in the territories and possessions.

Freehill said this is the last step pursuant to the President's direction to terminate price controls.

He stressed, however, that ending of controls does not affect the requirements regarding the preservation of records as to past transactions.

Businesses must keep available for inspection until April 30, 1955, whatever records were required by OPS regulations under which they formerly operated. No records of transactions since decontrol are required.

IN LOVING MEMORY

Of our dear husband and father, James A. Feeley, who passed away March 30, 1952.

A precious one from us has gone. A voice we loved is still.

A place is vacant in our home Which never can be filled.

We often sit and think of you, When we are all alone,

For memory is the only thing That grief can call its own.

One long year of time has passed Since we saw your dear face last.

But memory is as dear today, As on the Sunday evening you passed away.

The flowers we lay on your grave, May wither and decay,

But the love we hold for you dear one, Will never fade away.

—Sadly missed by his loving Wife and Children.

Local Breeders Aid Year's Boost

Northern Kentucky Proved Sire Service announced today that their organization has inseminated a total of 158 cows in 1952.

Northern Kentucky Proved Sire Service buys semen from the American Breeders Service, stud at Carmel, Indiana which has boosted its record of cows bred from 112,922 in '51 to 138,940 in '52.

Northern Kentucky Proved Sire Service is one of 272 cooperatives and private breeding organizations in 28 states that has contributed to the 623,628 first service cows bred by the American Breeders Service.

The American Breeders Service is the foremost supplier in the nation of semen from high index proved dairy sires, rated in the top 2% of all bulls proved in the United States in Dairy Herd Improvement work.

Northern Kentucky Proved Sire Service is pleased to announce to their customers and dairymen in the county that service from these great bulls is available to every dairymen, large or small, at the regular insemination charge, as the small farmer rarely can pay the expense of keeping a good proved

bull. Its manager and directors are making every effort to promote the use of service to these ABS Proved Sires, as they feel that one of the main purposes of artificial breeding is the use of the best proved sires obtainable, at a cost that a dairy farmer can afford. With a total number of 623,628 first service cows bred artificially in 1952 by the American Breeders Service's six studs, the desire for the best proved sires is becoming apparent by the nation's dairymen who milk cows for a living.

DISC HARROW

built for the toughest jobs on your farm

One trip over fields that usually require two or three discings—that's how you can save time with the A-C 11-B disc harrow. More weight on each blade helps this disc slice through root clumps, stalks, sod and tough soils. Seven-foot size with 18-inch blades weighs nearly half a ton. Criss-cross connectors trail rear gangs around turns, saving power and eliminating gouging.

The 11-B is built for hard use. The frame is made of heavy, high-carbon steel bars and angles. Crossarms are pressed to double thickness at connections.

CARD OF THANKS

We wish to take this means of expressing our sincere appreciation to our friends and neighbors for the kindness shown us during the illness and death of our beloved husband and father.

Flave Gale Loudon

We feel that mere words could never express our feelings for your kindness and expressions of sympathy shown us during our time of sorrow.

We especially want to thank Dr. Yelton for his untiring efforts; Rev. Mobley for his many visits and words of prayer; the singers for the beautiful songs; the donors of the many lovely floral pieces; those who sent cards and food. We will forever be grateful to Chambers & Grubbs funeral home for the sympathetic and efficient manner in which the services were conducted, and to everyone who helped in any way. Your love and kindness will long be remembered.

Is 1,585 Pounds; Average
Price \$50.79.

Boone County tobacco growers received a total of \$1,726,368.52 from their 1952 tobacco crop, according to figures released this week by the Boone County PMA office.

Total pounds marketed by local farmers was reported as 3,398,739, with an average yield of 1,585 pounds per acre.

Farmers averaged \$50.79 a hundredweight for last year's burley, the reported stated.

The report as released by the PMA office stated that an increase of 786,632 pounds was noted over the 1951 yield, or an increased yield of 399 pounds per acre.

Burley tobacco is one of the main money crops for Boone County farmers. Growers were urged by John Irvine, tobacco specialist of the College of Agriculture, University of Kentucky to concentrate on production of the finest type of cigarette tobacco, in a recent meeting held in Burlington.

Irvine said, "With more and more emphasis being placed on mildness and low nicotine content, we are hurting our consumption of cigarette tobacco by too heavy applications of nitrogen fertilizer, which makes a heavy tobacco with high nicotine content."

George Corder Urges Farmers To Keep Soils Fertile

In Talk To Boone County
Utopia Club Members
At Monthly Meeting.

George Corder, Agronomy Field Man, College of Agriculture, University of Kentucky was the principal speaker of the monthly meeting of the Boone County Utopia Club. Mr. Corder pointed out that with the increase of population in the nation that our soils had to be kept fertile to produce the food and fibers to keep the nation fed and clothed. The soil testing is necessary to do this job, that without knowing the plant food in the soil that we could not produce the maximum crops on our land. With unbalanced plant food in the soil the crops will be unable to receive the proper amount of food, therefore cutting down on the yield.

The farmer that makes money in 53 will have to be a good manager as the profit made may depend on management alone.

Mr. Corder stated that most of the soil in Kentucky is low in potash and that fertilizers high in potash would be used more and more in the future.

Sterling Dickey conducted the business of the club. Plans were made for the first annual banquet to be held at the Southern Trails in Florence, Saturday, May 23rd. T. R. Bryant, Associate Director, University of Kentucky, will be the principal speaker.

Peoples Bank Has Unique Ad. This Week

The Peoples Deposit Bank, Burlington, has a timely ad. this week. Read it and then act accordingly.

The firemen respond to your call for assistance without pay and take a risk in traveling to and fighting the fire at your home. All they ask is that you help keep the equipment in order by promptly paying your annual dues of \$5.00, according to your signed pledge on file with the Fire Department.

If you have recently moved into the community and want to be recognized as an honorary fireman and a booster of an organization that comes to you when you need help, just send your annual contribution of \$5.00 to the Burlington Volunteer Fire Department.

The department has an investment of more than \$15,000 in fire trucks and equipment and this equipment must be kept in good order at all times or it is no good. It is better to spend \$1,000 per year to keep it in order and never use it than to have one foot of rotten hose when it is needed.

Three Men Arrested Near Scene of Crime; Loot Is Found Buried In Yard

Clothing and Gun Found In Branch Near
Home of Boone County Man On Hathaway
Road; Two of Robbers Held for Federal Grand Jury

Three men were arrested by Sheriff Wendell Easton and State Troopers Monday near Union, after the Union Deposit Bank was robbed of \$5218 by two holdup men.

The two accused of being the holdup men registered as Brown Thompson, 28, and Lester Raleigh, 49, both of Newport.

A luggage carrier on top of the get-away automobile led to the arrest of Raleigh, Thompson and Swango Watts, 52, Grange Hall Road. Miss Lillian Bristow, cashier of the bank, called Sheriff Easton at 11:30 a. m. saying that the bank had been robbed a few minutes earlier by two very nervous men, who wore dark glasses and

were dressed in work clothes and striped railroad caps.

In reporting the robbery, Miss Bristow told Sheriff Easton that the men had gone west from Union and were driving a blue sedan, with a luggage carrier.

Sheriff Easton, Deputy Sheriff Byron Kinnman and State Trooper Chester Henderson noted a car traveling east on U. S. 42 resembling description of the hold-up vehicle. They followed the car to Florence where they apprehended the lone occupant, whom the officers recognized as Swango Watts, a Boone County resident.

Watts told Sheriff Easton that the car belonged to two friends of his from Newport. Watts was held at Florence while Sheriff Easton and Trooper Henderson went to his home, where Thompson and Raleigh were discovered.

A thorough search of the house failed to disclose the money or any work clothing fitting the description given by Miss Bristow. Byron Kinnman, deputy sheriff, who searched the outbuildings noted that a shovel had fresh dirt on it. An examination of the yard showed freshly dug earth, and a one-gallon pickle jar containing \$5218 was unearthed on the spot.

A neighbor boy told the sheriff that he had seen Watts coming from a hollow about 200 yards from the house, and that he saw him drive away in the car with the luggage carrier on top. Watts led the authorities to the spot where he admitted, he had hidden a burlap sack containing two pairs of overalls, two overall jackets, two striped railroad caps, two pairs of brown jersey gloves, two pairs of dark sunglasses and a 32-caliber revolver.

Neither Miss Bristow nor Mrs. Mattie Utz, the bookkeeper were tied up while Thompson and Raleigh were alone in the bank. Both women were alone when the robbers entered.

Miss Bristow and Mrs. Utz recognized the bandit car when Watts drove by the bank approximately 29 minutes after the holdup.

Thompson and Raleigh waived examination when arraigned late Monday before William Seidenfaden, U. S. commissioner, in Newport, and were held to the Federal grand jury on bank robbery charges. Their bonds were set at \$10,000 each.

Watts will be arraigned before the commissioner at 1:00 p. m. Friday. His bond on a bank robbery charge was set at \$5,000. The three men were placed in Newport Jail.

Marketing Cards Must Be Returned To County Office

Law Is Cited For Failure
To Return or Account
For Card.

The Boone County ACP office in Burlington is urging farmers who have not returned their tobacco marketing cards, to do so immediately.

Approximately 15 per cent of Boone County farmers have failed to return their marketing cards to the ACP office, it was reported this week.

No postage is required to mail these cards, Mark Cook, chairman of the Boone County office stated. They should be fastened together with a string or rubber band and dropped in your mail box.

Failure to return or account for the tobacco marketing card has been interpreted as constituting failure to properly account for the disposition of tobacco and where the county committee considers it justified this failure may serve as a basis for the reduction of the 1953 tobacco allotment.

Boone Seniors Will Compete For "Homemaker" Title

Senior students in all public and parochial high schools in Boone, Campbell and Kenton counties will compete for the title of "Miss Homemaker" and \$500 scholarship in the College of Home Economics at the University of Cincinnati.

Three seniors from northern Kentucky were among the finalists in last year's contest, among whom was Vivian Ruth Cave, of Burlington High School.

Rules for the contest call for the contestant to be at least 16 years of age, among the upper 50 per cent of her class and present evidence of her ability to do satisfactory college work. She may obtain admission to the College of Home Economics either by certificate or by taking a college aptitude test at the University.

CARD OF THANKS

I wish to take this means of expression my gratitude for the many acts of kindness shown to me and my family at the time of the sudden passing of my husband

Especially do I want to thank Rev. Roy Johnson, Rev. Richard Carlton and Rev. Sam Hill, Jr., for their consoling words; the singers and organist for the beautiful music; the donors of flowers; those who sent cards and letters and the Stith funeral home for the kind and efficient manner in which the services were conducted.

CARD OF THANKS

We wish to take this means of expressing our sincere appreciation to our friends and neighbors for the kindness shown us during the illness and death of our beloved mother and grandmother, Mrs. Nannie May Stephens. We feel we can never express our real appreciation of sympathy shown us during the time of our sorrow.

We especially want to thank Dr. Yelton for his constant visits; Rev. White for his many visits and comforting words of prayer; Jewell Scott and Wilma Ryle for the beautiful songs rendered; Mr. Nace Clements for the efficient manner in which his prayer was rendered; the donors of the many lovely floral pieces; those who sent cards. We will forever be grateful to Ralph Smith for the sympathetic and efficient manner in which the services were conducted and to everyone who helped in any way. Your kindness and thoughtfulness will long be remembered.

Boone Residents Urged To Give To Red Cross Drive

Evergrowing Need Must Be Met By Organization In These Troubled Times.

Boone County residents were urged this week to contribute to current Red Cross fund raising drive in Boone County by the County Chairman, V. D. James, Walton.

The Red Cross is the heartbeat of America. It enables all of us to express the universal desire to help a less fortunate neighbor wherever he may be. There is an ever-growing need in these troubled times for the service of the Red Cross, given freely by people of good will.

It Takes People To Help People

You, the people of America, can answer these calls. In the year just ahead the need will be as great as ever—the stricken, the uprooted, the troubled will call again and again for the help that only people can give. The troubled man in uniform, the helpless veteran patient, the service wife overwhelmed by domestic crisis; all will need the help of the Red Cross. Each day the blood that flows from a transfusion bottle means life to a wounded serviceman in Korea, and now that same blood collected by your Red Cross is being used also, in part for another great service, a serum has been invented which can prevent paralysis resulting from polio. In addition to the blood being collected for the Department of Defense, the Red Cross is cooperating with the Infantile Paralysis Association and will collect additional blood from which this serum will be made. Every hour of every day thousands of persons in need or trouble or distress reach out for the help they must have, for the act of generosity or consideration or sympathy that will lighten their burden of pain or worry.

The Red Cross is people helping people. . . it is the heartbeat of America. With your help the Red Cross will continue to answer the call.

Following is a list of precinct chairmen who believe in these principles and who are working diligently to make this fund drive a success. When these people or members of their committee come to your door, remember to give, knowing you are stretching forth a helping hand to the less fortunate.

They are as follows: Union, Mrs. Emerson Smith; Bullittsville, Rev. Roy Martin; Bellevue, H. D. Frost; Constance, Mrs. Ed Ellis; Hamilton, and Big Bone, Everett Jones; Walton, Morgan Campbell; Burlington, Ralph Maurer; Hebron, John Crigler; Petersburg, Mrs. Robert Christy; Florence, Mrs. Virginia Goodridge; Richmond, Mrs. Stanley Ransom; Verona, Mayro Hayden; Idlewild, Mrs. Benny E. Grant; Taylorsport, Mrs. George Sprague; Waterloo, Mrs. W. A. Fox; Rabbit Hash, Mrs. Thaddeus Ryle.

New Bids Will Be Sought On Ohio River Bridge

Previous Bids And Financial Plans Are Discarded.

Action designed to get work started on the \$6,000,000 bridge across the Ohio river from Lawrenceburg, Ind., to a point near Petersburg, Boone County, has been planned by the Indiana Toll Bridge Commission.

Previous bids and financial plans have been discarded and new bids will be sought, it was announced last week.

New bids are to be taken because original proposals for the superstructure were confused when the low bidder did not include a toll-house in the work, while the other bidder was higher.

An opinion was sought to end the confusion, and after a ruling that award of the contract to the low bidder was illegal because it did not include the toll-house, the commission decided to seek new proposals.

Maintenance Plans Completed By Local Cemetery Corp.

For Year 1953; Complete Rules and Regulations Are Given.

Several years ago Viola Lodge No. 278 Independent Order of Odd Fellows, Burlington, Ky., became inactive and eventually lost its charter. The Lodge owned and operated the Burlington I. O. O. F. Cemetery. As the lodge ceased to be active a few remaining members, together with some of the citizens, and around Burlington, being interested in and owning lots in said cemetery, associated themselves together and on July 31, 1950, formed the Burlington Cemetery Corporation, to own, operate and maintain a cemetery at Burlington, Ky.

Pursuant to the above the Grand Lodge of the Independent Order of Odd Fellows of Kentucky, acting thru its Grand Master and Grand Secretary, deeded on July 5, 1952, to the Burlington Cemetery Corporation the 5 acres of land 1/4 mile East of Burlington Highway 18, containing the cemetery.

Readers of this paper are familiar with the fact that the cemetery was in a very bad condition when it was taken over by the present Cemetery Corporation. We have already made some progress in the appearance of the cemetery by cleaning the entire grounds and trimming and removing all old trees, and making some minor repairs. This improvement has cost a considerable amount and up to the present the corporation has operated on a very small income. It now becomes necessary that the corporation call upon the lot owners to provide funds for the maintenance and care of the cemetery.

It is the plan of the corporation to provide perpetual care for all lots and the entire cemetery grounds by means of an endowment and maintenance fund. A complete outline of the rules and regulations of the present Corporation are contained below. It is our desire that all lot owners or interested persons study the regulations and contact an officer of the corporation as soon as possible, as work must be begun in early spring. Some member of the Board of Trustees will be at the cemetery on Decoration Day, and hope to make contact with every lot owner or their heirs on or before May 30, 1953.

The endowment fund is already in operation, and persons desiring to contribute to this fund, should do so as soon as possible in order that the cemetery can be cared for in the proper manner. The Peoples Deposit Bank of Burlington, has been named trustee of the trust fund for the cemetery corporation and only earnings from this fund can be used for maintenance and care of the cemetery.

For further information, please contact G. S. Kelly, secretary, or any member of the Board of Trustees, who will be glad to help you in any way possible.

Regulations Governing Operation and Care of Burlington Cemetery Corporation, Burlington, Ky.

Regulation Number One: The sale price of lots shall be as follows—For full lots \$230.00 for perpetual care, with \$160.00 of this amount to be placed in the Endowment Fund and \$70.00 to be placed in the Maintenance Fund. One-half lots \$125.00 for perpetual care, with \$80.00 of this amount to be placed in the Endowment Fund and \$45.00 to be placed in the Maintenance Fund.

Regulation Number Two: \$190.00 contributed by owners, or their descendants, for lots purchased prior to this date, shall entitle them to perpetual care of said lots, with \$160.00 of this amount to be placed in the Endowment Fund and \$30.00 to be placed in the Maintenance Fund. Proportional amounts shall apply to owners of one-half lots.

Regulation Number Three: Maintenance cost for care of lots not endowed shall be six (\$6.00) dollars per year for whole lots and four (\$4.00) dollars per year for one-half lots. Any lot owner failing to contribute the maintenance fee, beginning January 1, 1953, for care of his lot and the cemetery, will be required to pay said amount before opening grave on his lot, in so far as the same is not contrary to the Articles of Incorporation and Provisions set forth in the Deed of this Corporation.

Regulations Number Four: Perpetual care, as determined by the trustees, shall be defined as follows: The lawn mowing of the individual lot, the mowing and reseedling of the Cemetery as a whole and the maintenance of the outside fences and necessary buildings.

Regulation Number Five: Applying to new lots—(1) Graves and corner stones to be at ground level; (2) No shrubbery to be planted on lot without the permission of the trustees. Planted flowers permitted within a distance of eighteen inches from the tombstone.

J. H. Fedders' Son Sponsors "Free Chick Day" Saturday, April 11

Saturday, April 11 will be "Free Chicks Day" in Covington, Ky., with the J. H. Fedders Feed Company local Purina Chow dealers, giving away 20 day-old cockerels to the first 250 adults to enter the store after the regular opening at 7:30.

According to Bill Fedders, manager of the store, the chicks will be given away as part of a nation-wide program, sponsored by Purina dealers to encourage more "backlot chicken flocks."

"A lot of folks would like to raise a few chickens for the Sunday dinner table," Bill Fedders said, "and we have the program to help them do it, easily and economically. We're giving these chicks away to prove it."

Annual Report of The Boone County Soil Conservation District

To serve faithfully and well the farmers of Boone County, the Boone County Soil Conservation District Supervisors meet once each month. At these meetings the Soil Conservation problems of this particular County are discussed and ways and means of solving them are worked out.

As we see the conservation problem today we know that farmers must and are realizing that Boone County is committee to a "Grassland" type of agriculture. We feel positive that this is being realized because as we drive about the County it is apparent that more and more land is being left in permanent pasture. This shows that our quest and drive for better "land-use" is bringing results. We feel that no other one thing is so important to good conservation farming as proper "land-use." We also feel that it is well to emphasize again, "Each acre of agricultural land should be farmed within its capability and treated according to its needs."

Since Boone County is fitted to a "grassland" type of agriculture, we realized there are literally thousands of acres of land that needs reclaiming in this county. A large percent of this land is eroded and now grown up with trees and bushes. Our technicians, Floyd E. Kells and Kendrick Keith, of Soil Conservation Service, and we Supervisors have persistently talked of using bush and bog harrows. We kept talking to the heavy equipment operators and we now have three large bush and bog harrows operating in the County. These tools are doing an excellent job in the fields, so the farmer can go ahead with farm implements in preparing seed beds, give it adequate treatments of lime and fertilizer and sow adapted grasses and legumes.

It is suggested to farmers needing some clearing of land done to visit a farm where this is being done. Then, these farmers can, if they wish, contact one of the operators to do the work for them.

Boone County is rapidly increasing in population and daily we see new homes springing up throughout the County. It has been said that each new home takes almost an acre of productive agricultural land out of production for foods and fibers. We know we have no more productive land to move to, so our farm business must be expanded by increased production per acre. To do this, we would advise farmers to farm their land within its capability and treat it according to its needs. Using their capability map furnished them by the Soil Conservation Service they can farm their own land as it should be. Our farmers have a soil testing laboratory operating under the guidance of the County Agent, Joe Claxton, to help determine soil needs. After the maximum yield is reached, conservation irrigation should be considered. There will be three or four irrigation systems working in the County this coming year. Mr. S. W. Eichholz of Union, one of our own Supervisors, has a system planned. He will use it on tobacco, alfalfa, garden and pasture, if the weather warrants.

To celebrate our ten years' experience, the District, the Vocational

Agriculture Department and Machinery and equipment dealers gave a pasture renovation demonstration during Kentucky Soil Conservation District Week. Cress Machinery Co., Kuchle Motors, Pettit Machinery, Jansen Hardware and Graves and McCormick Equipment Operators met on Robert Woods' farm on Mt. Zion Pike. They demonstrated bog harrows, tillers and subsoilers in action. Mrs. T. H. Ford of Soil Conservation Service gave a short talk on pasture renovation. Mr. Marshall Quall of Division of Soil and Water Resources gave ten-year service pins to H. E. White, W. H. Presser, and Vaughn Hempfling received his father's pin posthumously.

Although we are making progress, we feel the job must be speeded up if we are to continue to prosper as individuals and as a nation. With the present rate of increase in population it is imperative that we save what we have and reclaim unproductive waste land if we are going to raise our standard of living or even hold it at its present level. We feel the only way this can be accomplished is through the full co-operation of every individual in the United States. An enormous task lies ahead, but the situation is far from hopeless. We will continue to grow only as long as our soil continues to produce.

The Boone County Soil Conservation District stands ready to help farmers obtain complete Soil and Water Conservation plans. Contact a member of your local Board of Supervisors. We will explain the program to you. We are:

Joseph A. Huey, Union, Ky.; Joe B. Heizer, Walton, Ky.; W. H. Presser, Walton, Ky.; S. W. Eichholz, Walton, Ky.; H. E. White, Burlington, Ky.

Respectfully submitted,
H. E. WHITE, Chairman
B. C. Soil Conservation District

Ten tiny toes and two wriggly pink little feet, destined to carry your child thru life. What a challenge to mothers and fathers today!

We wish to take this means of expressing our sincere appreciation to our friends and neighbors for the kindness shown us during the illness and death of our beloved mother.

Mrs. Ida B. Pettit

We feel we can never express our real appreciation of sympathy shown us during our time of sorrow.

We especially want to thank Dr. Yelton for his untiring efforts; Rev. Sam Hill, Jr., for his visit and prayer and Rev. R. A. Johnson for his consoling words; Mrs. Stith for the music; the donors of the many lovely floral pieces; those who sent cards and food. We will forever be grateful to Ralph Stith for the sympathetic and efficient manner in which the services were conducted and to everyone who helped in any way. Your kindness and thoughtfulness will long be remembered.

NOTICE

THE BOONE COUNTY RECORDER

ESTABLISHED 1875

BURLINGTON, KENTUCKY THURSDAY, APRIL 16, 1953

NUMBER 38

Mission Rally Is Scheduled For Sunday, April 26

Three Counties Will Participate In Mission Emphasis Week.

Dr. Baker James Cauthen, Secretary of Missions in the Orient for the Southern Baptist Convention, will be the speaker at a Mission Rally to be held Sunday, April 26 at 2:30 p. m. at the First Baptist Church in Covington. Dr. Cauthen is widely known as an outstanding speaker and an authority on mission work in the Far East. He is the son of missionary parents and was a missionary to China himself before being chosen to direct the missionary activities of Southern Baptists in the Orient.

A crowd of 1,000 people is expected for the Mission Rally. An added feature on the program will be the singing by the Newport Choral-aires, a group of young people from the First Baptist Church of Newport. The Choral-aires are becoming quite popular through their appearances in the Greater Cincinnati area. They will present a special musical program beginning at 2:15.

Baptist churches in Boone, Kenton and Campbell Counties will be taking part in a period of Mission Emphasis from April 19 through 24th for Campbell County and April 26 through May 1 for Boone and Kenton Counties. The following churches in Boone County make up a group which will have six missionary speakers during the week: Bellevue, Bullittsburg, New Bethel, Sand Run, Union and Walton. These churches will exchange missionaries each afternoon during Mission Emphasis Week at the Florence Baptist Church.

In addition to the speakers, Bullittsburg Baptist Church is to have a period of special mission study each evening during Mission Emphasis Week. Classes will be conducted for all age groups.

You are invited to take full advantage of the opportunities provided by these activities. Attend the special services in the church nearest you and also the big Mission Rally on April 26.

Florence Girl Scouts Will Present Play

"Sweet Sally Brown," a fast-moving situation comedy made up of 12 females (Girl Scout Troop 189), Florence will be presented Friday, April 17th at 8:00 p. m. at the Florence school auditorium. The sponsors guaranteed the play to keep you laughing throughout the three acts. Come and see what happens when Sylvia Bond (played by Barbara Taylor) enters Haddon Hall, (much against her will) since she's very much in love, and Haddon Hall is definitely a "no-man's land" according to the principal Mrs. Dupree (Mrs. Frank Trego).

Sally Brown (Betsy Coppage) saves the day for all concerned by a turn about face in character that provides laugh-crowded entertainment.

Ten Future Farmers Presented "Gold Emblem" Ratings

At Field Day April 3 In Cynthiana; Hebron Boy Among Group.

Ten Future Farmers of America chapters in the Northern Kentucky F. F. A. District received merit certificates entitling them to cash awards from Kentucky Utilities Company for earning top "gold emblem" ratings at the field day Friday, April 3, at Cynthiana. Future Farmers from this county took part in the field day competition.

"Gold emblem" winners were Bracken County, Dry Ridge, Campbell County, Harrison County, Hebron, Mayslick, Nicholas County, Owen County, Simon Kenton and Tollesboro.

Eleven-Year-Old Boy Injured In Accident Friday

Suffers Compound Fracture of Left Arm, Cuts and Bruises.

Richard Spencer, 11-year-old Florence youth, suffered severe injuries late Friday when he ran into the side of an automobile on the Dixie Highway at Kentaboo Drive.

The boy was taken to St. Elizabeth Hospital, Covington. Physicians said he had received a compound fracture of his left arm, scalp cuts and possibly a skull injury. He was reported in serious condition.

Troopers Chester Henderson and Ralph Cline of the State Police, who investigated the accident, named the driver of the automobile as Miss Marjorie Jackson, 26, 516 Elm St., Ludlow. They said they were told the boy appeared to have suddenly dashed across the highway.

Miss Jackson was said to have been driving toward Covington.

County PMA Office Announce Changes In Tobacco Acreage

Allotment For Year; Farmers Should Carefully Check Acreage.

During the last few years farmers have been permitted nine-hundredths of an acre tolerance above the farm allotments without having excess tobacco under marketing quota regulations. The Committees on Agriculture in both the Senate and House of Representatives suggested to the Department of Agriculture that tolerance on tobacco be drastically reduced so as to conform with other marketing quota regulations. The Department has therefore issued instructions that the acreage of tobacco harvested on a farm in 1953 shall be expressed in tenths, rounding upward all fractions of six-hundredths of an acre or more and dropping all fractions of five-hundredths of an acre or less.

Due to this change in the instructions and the fact that some changes were made in 1953 farm acreage allotments, you should carefully check the acreage you intend to put in tobacco so that the tolerance of five-hundredths of an acre will not be exceeded without your knowledge.

Mark Cook, County PMA chairman stated that additional information concerning the above changes can be obtained at the local PMA office in Burlington.

Former Florence Man Given Life Sentence Monday

After Pleading Guilty To Armed Robbery Charge.

A former Florence man, Charles A. Duran, 27, was sentenced to life imprisonment in Boone Circuit after pleading guilty to an indictment of the Boone County grand jury on a charge of armed robbery.

Marvin Ray Hardie, 49, of Kansas City, Mo., was indicted with him on the same charge and will be arraigned for trial at a later date.

A jury of 12 men, after deliberating 15 minutes, returned to the jury box and recommended life imprisonment for Duran.

Duran and Hardie were arrested in Florence December 20, 1952 by Sheriff W. H. Easton and Kentucky State Police within an hour after two men had robbed four soldiers at gunpoint. The soldiers, traveling from Camp Polk, La., to spend Christmas with their families, said they picked up Duran and Hardie who were standing beside a wrecked car west of Florence on U. S. 42.

Duran and Hardie admitted later upon questioning by County Attorney McEvoy that they had stolen the car in Bethel, Kans. At the time of his arrest Duran admitted being one of the men who held up the D. & M. Bar, Butte, Mont., on November 7, 1952.

Hardie, through his attorney, entered a plea of innocent by reason of insanity. Officials said they were told that Hardie formerly was a patient in a Texas mental institution. His trial is scheduled for Friday.

A civil suit for \$4,000 was filed in Circuit by James W. Huey, against Dr. F. C. Burket, and has been set for trial today (Thursday).

Mr. Huey, in his petition, alleged that four registered Jersey cattle, all of show stock, who had wandered onto the physician's farm March 18, "through a gap or a low place in the division fence which had been created without plaintiff's knowledge" were injured by shot gun blasts fired by Dr. Burket. Huey asked \$1000 for each cow. L. M. Ackman, Williamstown attorney, represents Mr. Huey.

When the April term of Boone Circuit Court was convened Monday, Judge Yager called upon the Rev. Roy A. Johnson, pastor of Florence Baptist Church, to pronounce the invocation.

Judge Yager appointed Joseph A. Huey, Union; Albert Parker, Walton; and Robert F. Grant, Petersburg as jury commissioners to serve for the ensuing 12 months.

Jurors selected for the April term are as follows:

Grand Jury Stanley Eicholtz, Tom Slayback, W. H. Presser, C. C. Pruitt, Luther Gray, Marvin Sutton, H. C. Norman, Floyd Sinner, Nelson Markesbery, C. C. Ashcraft, Lloyd Campbell and O. R. Russ.

Petit Jury No. 1

George Heil, Reel Osborne, Edward Eggleston, Joe Rouse, Robert Graves, Raymond Setters, Frank Anderson, Rogers Arnold, Floyd Harris, A. J. Schrieffer, W. W. Crigler and H. C. Fischer.

Petit Jury No. 2

Dolpha Seebree, Dan Roberts, Charles Colcord, Luther Risner, Tom Carpenter, Eldridge Carpenter, Paul Schira, Lindsey Brashear, Ralph Marsh, Alfred Wilson, C. H. Acra and Richard Lewis.

The grand jury remained in session Wednesday morning as we go to press, consequently we are unable to give the number of indictments returned by the body.

marking the 50th anniversary of farm-demonstration work. They were T. R. Bryant, associate director of agricultural extension work at the University of Kentucky; Miss Myrtle Weldon, state leader of home-demonstration work, and J. W. Whitehouse, state 4-H club leader.

The celebration was held on the Walter C. Porter farm, where Dr. Seaman A. Knapp, U. S. Department of Agriculture scientist, initiated demonstrations in better farm practices on February 26, 1903. Local business interests raised \$900 to guarantee Porter against losses in his tests of different seeds, fertilizers and methods of cultivation. The new practices, however, made him \$700 the first year.

Kentucky's first full-time county agent was C. A. Mahan, now state agent of county agents. He went to Henderson county in 1912. Before that time there were farmers' institutes and agricultural trains, which were a form of extension work. Now all counties have farm agents and most of them have home demonstration agents.

Extension work is conducted through the cooperation of groups of farmers, homemakers clubs, 4-H clubs and other agencies. There are 1,508 homemakers clubs in Kentucky, with an enrollment of 29,869 women. Four-H clubs numbered 2,943 and the enrollment reached 64,810 boys and girls last year.

The extension program shows farmers how to increase crop yields and have better returns from stock-raising, helps homemakers with their problems, and teaches boys and girls how to grow high-yielding crops, raise animals, sew, can, bake and perform other tasks more efficiently.

Crisler-Clore; Dr. Otto S. Crisler's Unusual Ancestry

Dr. Otto Smith Crisler is a native son of Boone County; at present he is a citizen of Columbia, Mo., where he is a teacher of veterinary medicine in the University of Missouri. He was born in 1879, married Ruby Buckman, and has a son, Robert Morris Crisler, who is an assistant teacher of geography at Washington University in St. Louis.

Dr. Crisler is a lineal descendant of Michael Clore (Klohr), Nicholas Yager (Jeager), Michael Kaifer (Caffer), Michael Smith (Schmidt), and John Broyles (Breils), of the "Second colony of Germanna," which arrived in Virginia in 1717, and later, about 1726, moved to Madison Co., Va.

He is also a lineal descendant of Fawcett or Duvald Crisler (Crostler), Andreas Garr (Gar or Gaar), and Michael Wilhoite (Wilheit) they came to America by way of Pennsylvania and then joined the Hebron colony in Madison County.

Duvald Crisler, paternal fourth great-grandfather of Dr. Crisler, was probably a son or otherwise related to Mathias Crostler who patented land with others of the colony of 1717. In 1728, Duvald was born in Germany, and married, 1736, Rosina Gar, born in Germany, 1713, a daughter of Andreas Gar and Eve Seidelmann, and sister of John Adam and Lawrence Gar, who came to Pennsylvania in 1732, and patented land in the Madison County Hebron Church community in 1734.

John Adam Garr married Elizabeth Kaifer, daughter of Michael; his brother Lawrence married Dorothy Blankenbaker, daughter of Nicholas. Descendants of these Crislers, Garrs and Blankenbakers were among the pioneer settlers in Boone, Boyle, Oldham and Jefferson Counties, Kentucky.

As a witness to the Will of his brother-in-law, Lawrence Garr in 1753, Duvald Crisler signed as "Devot D. Chrystler," and his own Will in Culpeper Co., Va., in 1776, was signed "Devot Chrystler."

His son, John George Crisler, (died 1818), married Anna Lucie Smith (died 1824), a daughter of Asa Smith, and probably a descendant of Michael Schmidt. They had a large family of thirteen children, some of whom became early citizens of Boone County.

Abraham Crisler, son of John George, was born in Culpeper Co., Va., 1771. The writer does not know the name of his wife, but Garr's Genealogy says that he was the father of Gabriel and a daughter Julia, who married — Taylor.

Gabriel Crisler, son of Abraham, married and migrated from Culpeper County, Virginia, to Boone County, Kentucky, by way of Cumberland Gap, bringing his family with him. His wife's name is not known to Dr. Crisler.

His son Absalom Smith Crisler was born in Virginia in 1818 and died in Boone County in 1904; he married Amanda Clore (1818-1897), daughter of Ephraim and Amy Clore, whose children, presumably some of them, born in Boone County were: Talitha, b. 1822; Lucy, b. 1804; Judith, b. 1807 (married 1833 in Boone Co., Ky., to John Ephraim Utz); Yancey, b. 1815; Amanda (Dr. Crisler's grandmother) b. April 14, 1818; and Frances, b. 1821.

Robert Stanton Crisler (1853-1935) son of Absalom, married his cousin, Lu Ann Clore (1854-1925); he had three brothers older than he, and two sisters. He was a cousin of Anna Clore, wife of William Wilhoite.

In his maternal or Lu Ann Clore lineage, Dr. Crisler has a complicated and somewhat confusing ancestry; his mother was a daughter of Almond Gibbs Clore and Sarah

A. Souther, both descendants of Michael Clore, the immigrant. Her lineage gives Dr. Crisler a second line of descent from Duvald Crisler, and three other ancestral grandfathers, Jacob Souther, John Broyles and Michael Wilhoite.

Almond Gibbs Clore (1828-1862), was a son of Reuben Clore and Harriet Gibbs; he was born in Boone County and married Sarah Amanda Souther in 1849; their children were Emma M., b. 1852, m. 1871, Jordan Beall (children: Almond, Claude and Howard Beall); Lu Ann, b. 1854, d. 1925, (wife of Robert S. Crisler); Harriet Belle, b. 1856, m. 1876, George J. Allen (children: Ada and Perry Allen); Lavina, b. 1858, m. 1874, Hamilton Co., O., Robert Wagner (children: John C. and Eva Wagner).

Almond Clore was a Confederate soldier and died in a Federal prison at Indianapolis. His mother, Harriet Gibbs, and her sister Amelia Gibbs came to Boone County from Virginia; they were probably related to George Crisler Gibbs of Madison County, Va., two of whose sons settled in Boone County. Harriet Gibbs Clore, wife of Reuben Clore, Almond's father, was married twice, her second husband being Squire Quick who lived at Hebron in Boone County.

Reuben Clore's father, Levi Clore, was born in Culpeper Co., Va., in 1775; he married Polly Yager, daughter of John (Michael, Adam, Nicholas), in 1800, and moved to Boone County where he died in 1843; his Will names his wife Polly, sons Adam and Isaac, and his grand-son Almond, son of Reuben. There may have been another son, William b. 1823, (not named in the Will) who married Virginia Crisler (daughter of Jonas) in 1856; and the Will makes no mention of a daughter, Virginia, who married Benjamin Boner or Bonner. Levi's brother, Michael Clore, made his Will in Boone County in 1845, naming wife Elizabeth (Price), two sons, Cave and Benjamin and four daughters.

Levi, Michael IV, and John Clore III, were sons of a Michael Clore (probably Michael III), whose wife was Margaret. —? He was a son of John Clore, I, (son of Michael the immigrant), and Dorothy Kaifer daughter of Michael Kaifer, the immigrant.

John Clore I was the father also of Anna (m. Wm. Wilhoite); Margaret (m. Leonard Crisler); Barbara (m. Daniel Weaver); John II (1794-1824); m. Margaret Blankenbaker; and George Clore II, who married Elizabeth. —?

Sarah A. Souther, wife of Almond Gibbs Clore, and mother of Lu Ann, was a daughter of John and Sallie (Wilhoite) Souther; Sallie Wilhoite was a daughter of William Wilhoite and Anna Clore; it follows, then, that Anna (Clore) Wilhoite was not only a distant cousin of Dr. Crisler, but was also his second great-grandmother; and since she was a sister of Michael Clore III, who was the Doctor's third great-grandfather, in the lineage of Lu Ann Clore, she was his great-aunt, as well! That means, too, that Michael Clore III was his great uncle and his third great-grandfather, also!

William Wilhoite (d. 1818), Dr. Crisler's second great-grandfather by marriage, was a son of Michael Wilhoite, a grandson of Adam and a great-grandson of Michael Wilheit. William Wilhoite's mother was Elizabeth Crisler, a daughter of Duvald Crisler, and a sister of John George Crisler, who was a son of Dr. Crisler's third great-grandfather, hence Elizabeth Crisler was both his great-aunt and this third great-grandmother in the Wilhoite-Crisler lineage, and establishes it as a second line of descent from Duvald Crisler. Likewise it establishes the Doctor's Broyles and Wilhoite descent, because Adam Wilhoite was a son of Michael, and his wife was Catherine Broyles, daughter of John.

Dr. Crisler's third line of descent from the immigrant Michael Clore is through his grandmother Amanda Clore, wife of Absalom Smith Crisler; she was a daughter of Ephraim Clore. He was a son of Peter Clore, who died about 1827, and his wife Mary; Ephraim was a brother of Adam Clore, who, according to Dr. A. L. Keith, married about 1775, Margaret Crisler, daughter of Duvald; and of Moses Clore b. 1787, who m. Judith Yager.

George Clore, son of Michael I, died in 1751; his wife was Barbara, (family name not known) and the names of their children vary, according to the best authorities. — John C. Garr, his father, Dr. Wesley Garr, the late Prof. Arthur L. Keith, etc., all of them Clore descendants. It seems probable, however, that George and Barbara Clore were the parents of Michael (II), d. 1815; Peter, d. 1827, and Elizabeth, all minors at the time of George's death.

Dr. Otto Crisler, then, has two sons of Michael, the immigrant, as his great-grandfathers, John twice and George once, and since they were brothers, each was also the Doctor's great-uncle. I have not undertaken to figure out just how many times Michael Clore I, was his great-grandfather or great-uncle, or in what degree, but it appears, notwithstanding Dr. Crisler's good paternal name, he is more Clore than Crisler—and that has not hurt him any!

From Arthur Leslie Keith's notes on the descendants of Michael Clore, the immigrant:

Levi was the son of Michael (Big Mike) Clore, and Margaret Weaver, (son of John Clore and Dorothy Kaifer, son of Michael Clore, the immigrant).

Levi Clore was born March 13,

1775, died in the summer of 1844 in Boone County, Kentucky, where he made his Will May 2, 1843 (date of probate not learned). He married Mary (Polly) Yager, August 22, 1800, Madison County, Virginia, daughter of John Yager, son of Michael Yager son of Adam Yager, son of Nicholas Yager the 1717 immigrant. She died about 1848.

Levi and wife, Mary Yager had issue: Adam Clore, Abram Clore, Reuben Clore, Fanny Clore, Isaac Clore, Matilda Clore, Virginia Clore, William Clore, and three died in infancy.

Ephraim Clore, was the son of Peter Clore and Mary Fray; John Peter Clore was a son of George Clore and Barbara Weaver, son of Michael Clore the immigrant.

Ephraim Clore married Amy Weaver, December 28, 1801, Madison County, Virginia. She is mentioned as Amy Clore in the Will

of Peter Weaver, March 3, 1816, Madison County, Virginia. Ephraim's birth is not recorded in the Hebron Church Birth Register, but was probably between 1776 and 1782, the period in which the records were poorly kept.

Dr. Carpenter is a descendant of John Carpenter, Sr., and his wife Barbara Kercher. Her father, Andrew Kercher owned the land on which Hebron Lutheran Church was built in 1740.

Moses Clore, son of Peter and a brother of Ephraim, was Dr. Carpenter's ancestor, and he also descends from Michael (Big Mike) Clore's daughter Anne, a sister of Levi Clore.

LUNCHES PROVIDED 204,000 CHILDREN

The mid-day school lunch program in Kentucky benefited 204,000 school children for the last school year—more than three and a half times the number benefited in 1943-1944, when the program was started, the State Department of Education disclosed. That year 58,000 children participated.

State Superintendent of Public Instruction Wendell P. Butler said the number of meals served last year was an increase of 314 per cent over the first year. The jump was from 7,700,000 to 32,100,000. The percentage of meals with milk last year was 91.5 per cent.

A lunch complete with milk, known as Type A, is one which provides from a third to a half of a child's nutritional needs.

April 19 Designated As Rural Mail Box Improvement Week

The Post Office Department has designated the week ending April 18, 1953 as Rural Mail Box Improvement Week. Rural mail boxes which are not properly erected or in serviceable condition retard the delivery of mail and expose it to damage from the weather.

It is desired that patrons of the Rural Delivery Service be encouraged to provide suitable mail receptacles and to erect them so they will be readily accessible to the carrier and present a neat appearance.

Names of the box owners should be visible to the carrier as he approaches them, and that the boxes and their supports be kept painted. Any boxes not of the present stand-

ard type which are of such design that they cannot be properly served by the carrier from his vehicle or are in such condition as not to protect the mail, should be replaced with boxes of the approved types. The proper height of the box should be 4 feet above the surface of the ground. The approach to the box should be filled and properly graded and kept unobstructed at all times.

An observance on the part of patrons of the noted regulations is most essential to an expeditious and efficient service, thus facilitating the work of the carrier and avoiding any interruption in the delivery and collection of mail.

Soils that are low in organic matter usually are easily eroded, and generally produce poor crops, particularly in drought years or in seasons of excessive rainfall.

Kentuckiana All Over

By Edwin Finch
The following article was sent to us by Mrs. John Schram, Florence, Ky., who clipped it from an Indiana newspaper, while visiting in that state:

Maytie Spoke for Herself:
In the year 1909, Maytie Turner, 21, from Erlanger, Ky., and Furtish Underhill, 19, from Burlington, planned to marry. At that time being of age was considered quite important in making such decisions. So Maytie concluded, "Since I am 21 and of age, and you are only 19, Furtish, I feel it is only fair that I be the one to get permission for us to be married."

Getting into a buggy, they then traveled several miles to the home of Furtish's father. While the groom-to-be sat on the porch, Maytie marched herself into the house and proudly asked Mr. Albert Underhill for his son's hand in marriage.

Permission was granted and the marriage was performed. The story of the odd betrothal was a source of merriment in the family for many years.

The goal is to organize a brotherhood program in each Baptist church in the three counties. The Rev. Kenneth Parks, pastor of First Baptist Church, Covington, represents Kenton and Boone Counties, and David Bagby, Newport layman, is chairman of Campbell County. Nelson Tull, secretary of Brotherhood Association in Arkansas, spoke on "Value of Brotherhood."

Homemakers To Hold District Meet At Cynthiana

Mrs. Jack Truitt Will Be Guest Speaker; Other Speakers To Be Heard.

The annual meeting in the Northern Kentucky District of the Kentucky Federation of Homemakers will be held at the Cynthiana Christian Church on April 23. Registration will begin at 9:30 a. m. (C. S. T.) for homemakers and friends from Boone, Bracken, Campbell, Grant,

Harrison, Gallatin, Kenton, Pendleton and Robertson Counties. Mrs. Jack Truitt, of Lexington, who spent the past year in Iran will be guest speaker. Her subject is "Life in the Land of Mosques and Caravans." While in Iran Mrs. Truitt occupied her time studying Iranian life and customs. She made every possible contact with Iranian people, visited homes, churches, schools and other institutions. Having been a school teacher, Mrs. Truitt was particularly interested in schools and visited many different types while there. She collected many interesting articles of Iranian craft, articles of clothing and other souvenirs which she will show her audience.

Probably no country has been more in the news of late than Iran consequently we should be most interested in becoming better informed about this country.

Mrs. Wade Holt, Bloomfield, president of the Kentucky Federation of Homemakers, will speak on "Adventures in Friendship."

This being the fiftieth anniversary of cooperative extension work, Miss Myrtle Weidman, Lexington, state leader of home demonstration work, has selected "Fifty Years A Growing" for her subject.

The selected theme for the meeting is "The Home is the Strength of Our Nation." Reports keyed to the theme will be given by the following federated chairman: Citizens' ship, Mrs. Elwood Crews, Campbell County; Membership, Mrs. Harold Vannarsdall, Grant County; Publicity, Mrs. C. E. Judy, Harrison County; Reading, Mrs. H. C. Renyer, Gallatin County.

Group singing and special music will be included on the program. Mrs. Harlow McCauley, Harrison County, the retiring district director, will preside. New officers will be elected at this meeting.

Tickets for box lunch are on sale by the Harrison County Homemakers. Coffee and soft drinks will be available.

Boone County Homemakers interested in attending the district session are requested to meet at Florence Post Office at 9:00 a. m.

Tri-City Council Discuss Water Plans at Meeting

Plans of Several Water Districts Are Aired At Session.

The Tri-City Council, composed of officials of Erlanger, Elsmere and Florence, met for a general discussion of several plans for future water supply for the three cities at Florence Town Hall, Wednesday night of last week.

A half dozen different plans, including those of District 1 and District 2 of Kenton County, and the Boone County District, were aired, according to William Fitzgerald, secretary.

"The board is not anywhere near ready to make up its mind on which plan is superior. There were as many ideas expressed about supply as there are members of the three city boards, which number 19," Mr. Fitzgerald said.

Formal presentation of specific proposals of the Boone County Water District is to be made at a special meeting of Tri-City Council April 20. The plan has been under study of the water committee of the group, but was not presented in detail at Wednesday night's meeting.

Councilmen participated in a discussion of the so-called Tri-City plan to purchase water from Covington and to lay mains over Dudley pike to bring it to the cities. Under this plan the cities would combine to form a water district or holding company, depending on legal technicalities in order to issue bonds. This plan will be explored further, it was reported.

Boone Churches Sponsor Mission Emphasis Week

Rare Opportunity To Hear Outstanding Missionaries Given.

A once-in-three-years opportunity is coming for Boone Countyans the week of April 26 through May 1. Seven churches in Boone County and many others in Kentucky are sponsoring a Mission Emphasis Week featuring a number of missionary speakers. Every real Christian will be interested in receiving information concerning the spread of the Gospel throughout the world and inspiration to advance the mission work.

Since a week of such special emphasis on missions comes but once every three years in the Southern Baptist churches of this area, the opportunity will be seized upon enthusiastically.

The 7 Baptist churches participating in the Mission Week are Bellevue, Bullitsburg, New Bethel, Sand Run, Union, Walton, and Florence. The first six named form a group which will share seven of eight missionary speakers, some of whom are pictured in this issue of The Recorder. Florence Baptist Church is grouped with some of the Kenton County churches.

On Friday, May 1, at 10:00 a. m. the churches in both Boone and Kenton counties will bring the missionaries to the Madison Avenue Baptist Church in Covington for a fellowship meeting. This will give members of churches in each group an opportunity to get acquainted with the missionaries in other groups. The meeting will continue through the noon hour with those attending bringing covered dishes for the meal.

As announced last week a crowd of 1,000 is expected to attend the Mission Rally at First Baptist Church in Covington at 2:30 p. m. on Sunday, April 26. Dr. Baker James Cauthen will be the speaker.

Also as announced last week, the Bullitsburg Baptist Church will have mission study classes each weekday evening before the missionaries speak during Mission Emphasis Week. Services during the week will begin at 7:30 p. m.

Boone County Fruit Crop Is Severely Damaged, Report

Peach Crop and Early Apples and Plums Most Severely Damaged.

Boone County crops were severely damaged by the snow and freezing weather over the week-end, according to Joe Claxon, County Agent.

The below-freezing weather caused heaviest damage to the peach crop, early apples and plums. There is little expectation for fruit, Mr. Claxon said.

The first cutting of alfalfa and hay will be stunted due to the snow and freezing weather. This will indirectly cut milk production in this area. Small grain damage was reported in this section, Mr. Claxon said.

Slight damage to tobacco plants was reported, which will cause slight setbacks in many sections of the county.

Mr. Claxon stated that a complete estimate of damage to the farmers of the county cannot be estimated at this time, as it will show up later.

Stephen D. Wainscott

Stephen D. Wainscott, a resident of Sharonville, O., died late Tuesday at the home of his father-in-law, L. D. Courtney, near Richmond, Ky. He was 45 years old.

Mr. Wainscott's death follows that of his brother, Festus, 48, of Erlanger by only a week. They died of a similar heart disease.

Mr. Wainscott was a member of the Valley Gospel Tabernacle, Arlington Heights; Unity Lodge 478, F. & A. M., Ludlow which held services at 8 p. m. Thursday at the funeral home, and the Covington Consistory, Scottish Rite.

Mr. Wainscott is survived by his widow, Mrs. Iona Wainscott; his mother, Mrs. D. A. Wainscott, Georgetown, Ky.; three brothers, Jesse, Georgetown; B. H., Norfolk, Va., and Almore, Erlanger, and a sister, Mrs. Wilton Jewell, Cincinnati.

Funeral services were conducted at 2:30 p. m. Friday at the Erlanger Methodist Church, with burial in Forest Lawn Memorial Park, Erlanger.

Phillip Tallaferro, Erlanger funeral director was in charge of arrangements.

Boone County Tax Assessment Roll Open For Inspection

Any Taxpayer May Visit Commissioner's Office To Check Assessment.

Boone County taxpayers will have an opportunity to inspect the tax assessment roll again this year, it was announced today by Wilton E. Stephens, Boone County Tax Commissioner. As provided by Kentucky law, the property tax roll is open for inspection from April 15 to May 1. Mr. Stephens said that any taxpayer may visit his office and check his or her assessment.

"I strongly urge every taxpayer who possibly can to take advantage of the inspection period," Mr. Stephens said. "This is the only way to be sure the assessment is correct. There is so much property being transferred and subdivided, new buildings being constructed, automobiles being bought and sold, that it is most difficult to complete a correct assessment at the present time," Mr. Stephens continued.

Any property owner who believes his assessment is out of line may appeal to the board of supervisors. The appeal must be filed in writing with C. D. Benson, County Clerk, before May 1. Appeal for a review may also be made by the tax commissioner, Department of Revenue, county judge, chief finance officer of any city using the county assessment, or the superintendent of any school district in which the property is located. The board of supervisors may raise or lower individual assessments on which appeals have been made in order to equalize them, he added.

The Boone County Board of Tax Supervisors, appointed by County Judge Carroll L. Cropper, is composed of the following: John Crigler, Hebron, first magisterial district; Lloyd Aylor, Florence, second magisterial district, and Hugh Stephens, Carlton, third magisterial district. The board will convene in the Tax Commissioner's office on Monday, May 4.

Boone Countyans Presented Public Relations Award

On Basis of Outstanding Leadership and Personal Accomplishment.

Two leading Boone County oilmen have been presented the Public Relations Award of the Oil Industry Information Committee, according to a statement released today by W. J. Loufman, Chairman of the Kentucky-Oil-Tennessee District. The award is made on the basis of "outstanding leadership and personal accomplishment" in the industry's public information and educational program.

In making the presentation, Mr. Loufman stated: "In accordance with the unanimous vote of the Committee, I am privileged to present you with this Public Relations Award as tangible evidence of our appreciation for your volunteer activities in making information available to the public, thereby establishing a better understanding between the industry and its customers."

The award was presented to Messrs. Wallace Craddock, Actna Oil Co., Florence, Ky., and Clayton Renaker, Standard Oil dealer, Verona, Ky.

"Kentuckians have a real interest in the oil business," Mr. Loufman said in pointing out that "the industry has more than seven thousand dealers, jobbers and company employees in the State, with a payroll of over 10 million dollars annually. This has been made possible 'tru an industry which is privately managed, fully competitive and financially sound. They are supplying Kentuckians with over 700 million gallons of petroleum products annually at a price (less taxes) that is about the same or less than was paid 25 years ago. During this time the efficiency of motor fuel has increased 50 percent."

"Americans, individually and collectively, are the world's greatest consumers of petroleum. Last year the people of the United States used oil—almost 60 percent of the world's total consumption of oil—approximately 4 1/2 billion barrels. This amounts to almost 700 gallons per person, as compared to about 50 gallons per person in Europe, 35 gallons in Australia, 20 gallons in Africa, and 6 gallons in Asia. Canada's per capita consumption was about half of ours and Latin America's only a tenth. Petroleum consumption in the United States has shown an almost uninterrupted growth since the start of the industry more than 90 years ago."

Immunization Of School Children Is Started This Week

Children Should Be Immunized Against Typhoid At 6 Months.

There will be a county-wide Typhoid Fever Immunization program starting this week, according to Mrs. Mary C. Cress, R. N., Boone County Health Department. She will go to each school and give these shots free of charge to every child who has a permission slip signed by their parents.

Children should be immunized against typhoid fever at 6 months and booster shots should be given to young and old alike.

Summertime often brings an increase in typhoid. Vacations in areas where the purity of water and milk supplies is questionable lead the way for additional typhoid victims. Last year in Kentucky there were 121 cases of typhoid with 4 deaths.

The Health Department urges each parent to see that their children have this protection. It's free!

Fund Raising Drive Announced By Wm. Booth Hospital

New Addition Will Be Constructed; Drive To Cover Six Counties.

Announcement of a \$200,000 Building and Development Fund campaign for the Wm. Booth Memorial Hospital, Covington, has just been made. The money is needed for the addition of a minimum of 20 beds for enlargement of the surgical and obstetrical departments, other essential improvements, and for annual maintenance. The campaign will get under way during the week of May 18.

Under the general chairmanship of Thomas A. Robertson, Covington business leader, a large campaign organization will operate in the northern tier of Kentucky counties including Kenton, Campbell, Boone, Gallatin, Grant and Bracken. The selection of county chairmen is now under way. When appointed they will recruit county workers for local solicitation.

Wm. Booth Memorial Hospital serves many more patients from these areas than from the city of Covington. In 1952 nearly 67 percent of the 6,778 admissions came from these counties. The hospital figures for 1953 show that this ratio is being maintained.

Hospital facilities are crowded with reservations having to be made far in advance. No margin is allowed to cope with sudden emergencies or possible disaster. Twenty additional beds are regarded as the smallest expansion possible to enable the hospital to meet present demands being made upon it, to provide for adequate surgical and obstetrical care and to function efficiently in a time of emergency.

The \$200,000 sought from the public in the pending campaign includes \$50,000 for the hospital's annual maintenance needs which are normally contributed at this time. The remaining \$150,000 will be matched by a grant of federal funds under the Hospital Construction (Hill-Burton) Act, thus providing a total fund of \$300,000 for capital expansion and improvement.

Chairman Robertson is vice president of the Mosier Lock Co. He has been active in the affairs of Booth Memorial Hospital for the past 15 years as a member of its Advisory Board. Serving with him as vice chairman are Tom E. Hill of Geo. W. Hill & Co., and J. Wayne Rusk of the Montgomery Coal Co. Frederick W. Winkler, president of the Blue Grass Insurance Co. and chairman of the Hospital's Advisory Board, is honorary chairman of the campaign. Also on the Campaign's Executive Committee are Thomas A. Hanauer, Covington Trust & Banking Co., Henderson G. Hightower, lawyer, Fred Macklin, Coplin's Department Store, and R. C. McNay, Boone-Kenton Lumber Co.

Vincent Seiler, of Hebron is recovering from a head operation that he underwent in Cleveland last week. He returned to his home Sunday.

Hardie Found To Be Insane In Boone Circuit Court Friday

Indicted By Boone Grand Jury On Charge of Armed Robbery.

Marvin Ray Hardie, 49, formerly of Kansas City, Mo., indicted Monday by the Boone County grand jury for the armed robbery of four soldiers last December 20 on U. S. 42 near Florence, was declared insane by a 12-man jury sitting in Boone Circuit Court at Burlington, Friday.

The verdict was returned after Suard Wegner, Covington, appointed by Judge Yager to defend Hardie told the jury the defendant would be returned to Boone County to stand trial if he recovers.

Hardie's accomplices, Charles A. Durain, pleaded guilty and was sentenced to life imprisonment.

Bank Robbers Indicted

Indictments against three men being held in connection with the holdup of the Union Deposit Bank, Union, Ky., last March 30, were returned Wednesday by the Boone County grand jury. Those named in the indictments were Brown Thompson, 28, and Lester Raleigh, 49, both of Newport, and Swango Waters, 52, of Grange Hall Road, near Union, who are being held in Newport jail.

Federal charges have been filed against the men in connection with the theft of \$5218 from the bank. The indictments returned by the local grand jury were obtained so that Boone County authorities could prosecute the men in event they escaped conviction on the federal charges.

Dr. Burket Indicted

Dr. F. C. Burket, was indicted on a charge of shooting and wounding cattle owned by James W. Huey, owner of a farm adjoining that of Dr. Burket, near Union.

The trial of Burket scheduled for Monday was continued until the next court due to the defendant being confined to the hospital and his attorney being unable to appear at this time.

The case of William Haulker, charged with breaking and entering, was referred to the next session of the grand jury.

The jury recommended that a purgation board be named to remove ineligible voters from the lists.

Jurors were dismissed Monday by Judge Ward Yager, after their duties were completed. Civil cases were heard by Judge Yager Wednesday.

PEOPLE'S SHOE STORE

"The first time I took my child to People's I was very pleasantly surprised to see the extra care and concern over fitting children's shoes. I knew the value of length and width before, but at People's I was shown the importance of such things as depth and tread in fitting children's shoes. I didn't know that such a place really existed, where mothers could relax completely and not worry about the future of their baby's feet."

This conversation is heard many times every day from mothers who come to People's. We at People's, of Covington, do more than just sell shoes. It is our duty to help young feet grow naturally. That is why we use shoes made over the famous Footshaper last, to insure proper fit and growth. Footshaper shoes give the necessary formation for perfect balance and a good walking habit.
Come to People's and see!

IN MEMORY

Of our beloved son Homer Frank Jones, S. N. and his shipmates who lost their lives when the U. S. S. Hobson sank at sea April 26, 1952.

Though no tablet will mark the grave of the Hobson and her men, the best possible monument to their bravery will be in the hearts and memories of those they knew and loved, a living monument that will not tarnish, nor wear away, as long as one of us who knew them remembers.

Telephone Company Making Progress On Improvement Project

Improvements Planned For All Sections of County, Says Manager.

Construction work on the new Florence administration and telephone exchange building has progressed to the point where it is safe to anticipate that the structure will be ready for occupancy by September 1, G. B. Foscoe, Jr., General Manager of the Consolidated Telephone Company, said Tuesday.

Mr. Foscoe said that his company, cognizant of the rapid development of Boone County, already had increased its circuits from 13 to 18, nine of these being one-way. Dial trunks from Florence to Cincinnati will be in full operation when the new exchange building is occupied, Mr. Foscoe said. The dial letters of the Florence exchange will be ATLantic.

A new steel and concrete exchange building at Union is virtually completed, Mr. Foscoe explained. The new structure, completely air-conditioned, with electric dehumidifiers and cross-ventilation, has been designed to maintain a constant temperature of 50 degrees Fahrenheit. Mr. Foscoe explained this was necessary to facilitate trouble-free operation of the intricate dial mechanism which will be housed in the new building. Dial letters for Union will be DUmont.

The new DUmont dial exchange will make necessary the replacement of more than 800 telephones, Mr. Foscoe reported. "In fact," Mr. Foscoe said, "the new telephone system at Union calls for all new equipment, including wire and poles. Next week we begin installation of 31,000 feet of new 26-pair cable. This cable was shipped from Perth Amboy, N. J., on April 20. Where the cable stops and open wire system begins, it was necessary to replace the old iron wire installed many years ago with new steel cable. Already we have installed 335 new poles. These new poles are pressure creosote-treated, with a guaranteed retention of eight pounds of creosote preservative to each cubic foot of pole. All cross-arms are pressure creosote-treated as well. All screws and steel braces are galvanized. With all this new outside equipment, we anticipate very little trouble from sleet and ice storms."

Mr. Foscoe called attention to the fact that on some stretches of road in the Big Bone-Hamilton area it was necessary to cut out an extremely heavy growth of brush and trees. In many cases the brush was higher than the old poles, he said.

Mr. Foscoe explained that he expected to convert the Union area over to the dial system about January of next year. Work will be started in other sections of Boone County when the present improvements have been completed, he added.

Boone Health Dept. Completes Year of Service

Functions of Health Department Extensive, Says, Judge Cropper.

The Boone County Health Department, a dream of Boone County Judge Carroll L. Cropper for over four years, has just completed its first year of existence, Judge Cropper announced this week.

Officers of the Health Department are located in Florence, in the same building which houses the United States Post Office and the Florence Building and Loan Association. Personnel of the Health Department consist of Mrs. Mary Cress, Registered Nurse; Donald Brown, Sanitarian, and Mrs. Martha L. McArthur, Clerk. Dr. H. R. Daugherty, Florence physician, is medical consultant. The Boone County Board of Health is composed of Judge Cropper, chairman; H. E. White, member of the Fiscal Court; Dr. S. B. Nunneley, Hebron; Dr. M. A. Yelton, Burlington, and Dr. Daugherty.

Judge Cropper said that few persons have any real idea of the functions of the county health department. Information obtained at the health department office in Florence revealed that approximately 7500 typhoid shots have been given, 2500 Boone County school children entirely free of charge. Health Department records also show that 210 blood tests were given in line with Kentucky endeavor to stamp out venereal disease.

A total of 25 throat cultures were given and 18 sputum tests were made, with four persons being sent to the state-operated TB sanitarium located at Paris. Health Department records revealed that 993 persons had free chest X-rays during the past year.

Approximately 250 home visits were made by Mrs. Cress, the registered nurse of the department. All restaurants in Boone County were given health ratings after a survey made last December. A total of 244 inspections of food handling establishments also was made. Routine inspections of school lunchrooms also form a part of the department's functions. The Health Department also handles nuisance complaints with respect to drainage, offensive odors and garbage disposal. Ninety water samples were taken, 37 of which were found to be contaminated.

Statistics supplied by the Health Department revealed the following contagious diseases occurring in Boone County during the Health Department's first year inception, as reported by Boone County physicians: Chicken pox 39; influenza 641; measles 77; mumps 25; scarlet fever 4, and whooping cough 2.

Total official mileage traveled the first year was 11,853 miles. Members of the Boone County Citizens' Health Committee are: Mrs. Roy Lutes, Florence, chairman; Dr. D. L. Maddox, Walton; Dr. L. C. Hafer, Hebron; John Conner, Hebron; Edwin H. Walton, Burlington; Mrs. Howard Ryle, Petersburg; Mrs. Helen Rogers, Bellevue; Mrs. Warren Miller, Union; Fred Hamilton, Verona; Rev. Henry Buseneyer, Walton; Mrs. Vernon Pope, Burlington; Mrs. Ruth Kottmyer, Constance; Mrs. Bruce Ryle, Hamilton; Mrs. Frank Trego, Florence; and Mrs. A. L. Pfaltzgraf, Buellville.

Funds for the operation of the Health Department are obtained through appropriations of the Fiscal Court, Boone County Board of Education, Walton-Verona Independent School District, and the State.
